

September 29th

You tell us that we use you Like dogs, for which we do not know that we have Given you any reason but are used like Brethren

You say we send Letters to Spawago without acquainting you with the contents we never have any news of Importance but we acquit you therewith but can you Expect that we can tell you know Every Letter we send there upon any trifling occasion

You say ^{that} we ask you about Spies & Scouts which is a thing that has always been practised and is necessary as well for you as us

The Gov^r gave them a Cash powder & c. to lead
Then the Indians answered

The news we have told you we had from some of our Young Sachins who say they had it from the flatheads
Brethren

you told us yesterday that we had promised To assist in the war but we not said for what we said is that in case any of our people were killed that then we would defend our selves & assist you which we will do Brethren

what we said yesterday we perceive is false by what you have told us we therefore bury the same in oblivion That it may not be thought for the future

Gave a Belt of wampum

II
365A

We have heard your reply to our answer of yesterday wherein you tell us that this news you heard from off flat heads had it been from a white man & we could have got him into our custody we would have punished him severely & we expect for your future you will in no wise give credit to any such false story because you must be ^{persuaded} ~~sure~~ that the connection which subsisted between us can never be broken and we do now bury that news in oblivion in the same manner as you have done whereupon we give you this Belt of wampum

Brethren you just now tell us that you had promised to assist us in the war ~~not~~ before one of your people should be killed we will now Repeat to you what the Gov^r told you & your answer to him whereby you will perceive that what we said was Right and we expect that you will not vary from that but be punctual to your promise as you have always been — whereupon part of the Gov^r's speech was repeated relating the war
