Mr. Borden's Motion for an Increase

Ottawa, June 10.-In the House of Commons yesterday the amendment to supply in favor of increased iron and steel duties, of which Mr. R. L. Borden, leader of the Opposition, gave notice a week ago, was debated for five hours, and was defeated by 91 to 47... The Government treated the amend ment as a motion of want of confidence and as inopportune, in view of the tar iff resolutions being still before the House. The application of the Dominion Steel Company for increased duties, the Premier stated, had not been finally dealt with. Mr. Tarte voted for Mr. Borden's amendment, and Messrs. McGowan, Calvin and Jabel Robinson against it. Some progress was made with Mr. Fisher's estimates after the vote; and the House rose at 12.25 am. Mr. R. L. Borden, on the motion to go into supply, moved the amendment of which he had given notice, "that this House is of the opinion that the tariff of customs duties should give such protection to iron and steel industries as will not only secure to our own producers and manufacturers the Canadian market in articles now praduced or manufactured in this country but will also develop and duties, of which Mr. R. L. Borfacturers, the Canadian market in articles now produced or manufactured in
this country, but will also develop and
sustain the manufacture in Canada of
other iron and steel products, which
at present are imported in large quantities from other countries. And
that the past tariff of customs duries
should be now readjusted on this
principle."

The amendment was defeated by 47

He testified that W. A. Cockburn of Sturgeon Falls, a prominent Liberal worker, had delivered the money to him, but in his statutory declaration read in the House he said he got the money himself, and this was confirmed by Lefevre, the Postmaster himself.

Do you wonder then at the magnificent success of the sale, the advantages of which are shared and appreciated by the best people as well as those with whom economy is the first consideration? These suits represent a special purchase from a maker who made great preparations for duplicate orders, which failed to materialize. We secured the entire lot at a price that figures less than manufacturing cost, hence the great difference between the price you pay and the actual value of the garment. Clothing so very good, so very cheap, must needs fall under the term of record-breaking values.
