Thousands upon Thousands of Women Recommend Diamond Dyes

If you could see the letters that come to us about Diamond Dyes you would not hesitate one moment to use them

Women the world over, dress better while spending less money for clothes, because they use Diamond Dyes.

The letters produced below are but two of the thousands upon thousands that we have received.

MRS. A. D. RHODES writes: "I had a Crepe-Meteor dress, the color of which did not please me. I was about to discard it, when a friend of mine said 'Why den't you dye it? "I had never

dyed anything and thought that it was an intricate process which required a great deal of skill and practice. "I followed the

directions of my friend and those published in your Diamond Dye Annual and Direction Book. "I recolored my

dress black, and it came out a solid, deep black which has not faded in the slightest degree.

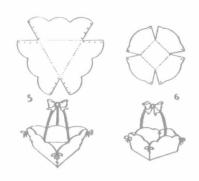

"Diamond Dyes are certainly very simple to use and great money**TheBeaverCircle**

OUR SENIOR BEAVERS.

May Baskets.

Dear Beavers,-Once I happened to be over in the United States on May Day, and when we went out after breakfast the first thing we saw was a pretty ittle basket of flowers hanging on the door-knob. Moreover, looking down street we saw somewhat similar baskets either hanging on every door-knob or being admired by pleased people.

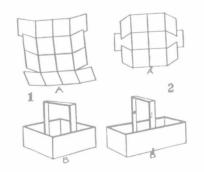

"Oh, the children have been around," said Mrs. H.

I thought it was such a pretty castom, teaching the children, too, to be kind to others. So I thought I would tell you Beavers about the baskets today. Perhaps you would like to make some and take them about to your friends, say on the 24th of May. The orchard blossoms should be out, then, and perhaps a few could be spared from them to fill your baskets. If you choose you may put some homemade candy in the bottom, with violets or apple-blossoms on top.

All of the baskets are made of very heavy paper or light-weight cardboard, and some of them, as you see, are trimmed with crepe paper or ribbon. They are cut out according to the patterns given, then glued together.

dhoard makes the pre baskets, with little pink or mauve ribbon bows for trimming; but pink cr mauve cardboard may be used if liked.

Apple or crabapple blossoms, violets, buttercups, ferns-indeed all sorts of flowers-may be used for filling the buskets, but only one or two kinds, with some greenery, should be put in each. Too much of a mixture spoils the effect.

Dear Puck and Beavers,-My father has taken "The Farmer's Advocate" for a good many years, and likes it fine.

I am a regular bookworm, and I have read over one hundred books. One I have read through ten times. I like Henty's books best, though I read any that are interesting. I have one brother and one sister. My brother is eighteen months older than I am, and my sister is just a baby. Well, I guess my letter is getting rather long, so I will close.

CLARENCE J. M. BURGESS.

Diamond Dyes

"A child can use them" Simply dissolve the dye and boil the materia

in the colored water. MISS L. R. POST writes: "Since I have begun to use Diamond Dyes I dress very much better than I did before. "In an effort to make a little monev buy lots of clothes I used to buy cheap fabrics. Now I buy the highest quality fabrics and make them do double service by recoloring them with Diamond Dyes. "The photograph of myself which I enclose shows a broad-cloth suit which was Terra Cotta. dyed it dark green with Diamond Dyes, and it is really prettier now than it was before. "Diamond Dyes are great moneysavers for my family.

My two sisters, my

mother and my aunt Terra-Cotta suit dyed all use them." Terra-Cotta suit dyed dark green. Truth About Dyes for Home Use

There are two classes of fabrics—Animal Fibre Fabrics and Vegetable Fibre Fabrics.

Wool and Silk are animal fibre fabrics.

Wool and Silk are animal fibre fabrics.

Wool and Silk are animal fibre fabrics.

"Union" or "Mixed" goods are usually 60% to 80% Cotton so must be treated as vegetable fibre fabrics.

It is a chemical impossibility to get perfect color results on all classes of fabrics with any dye that claims to color animal fibre fabrics and vegetable fibre fabrics equally well in one bath.

We manufacture two classes of Diamond Dyes, namely—Diamond Dyes for Wool or Silk, to color Animal Fibre Fabrics, and Diamond Dyes for Cotton, Linen or Mixed Goods to color Vegetable Fibre Fabrics, so that you may obtain the Very Best results on EVERY fabric.
