

Brantford Plow Works.

Corn a paying crop at 25 cents a bushel.

THE WESTERN

CORN CULTIVATOR

Same style as made by the MOLINE PLOW CO., Moline, Illinois, who have more than 145,000 in actual use, sold within the last few years. They have been tested practically for the last two or three seasons in Canada, and have proved themselves invaluable for the successful raising of corn.

NO MORE USE FOR THE HOE.

It entirely does away with the use of the hoe, and a boy can thoroughly cultivate from eight to ten acres a day. By its use the Western Dent Corn is brought to perfect maturity, being forced by thorough cultivation.

It has no equal as Root Cultivator, and is adapted to every kind of hoed crop, and by attaching an extra beam in the centre it makes a splendid Fallow Cultivator and never chokes up.

Price, rigged for Corn is.....\$30 do. with extra Beam for Field.... 25

These cultivators will be let on trial to first-class men on the above recommendation, and if they fail to fill it they may be returned at the end of the season.

JAMES G. COCKSHUTT,

Original and Only Genuine

"Grain-Saver"

THRESHING MACHINERY.

THE Matchless Grain-saving, Time-saving and Money-saving Threshers of the day. Beyond all rivalry for Rapid Work, Perfect Cleaning, and for Saving Grain from Wastage.

STEAM-POWER Threshers a specialty. Special sizes of Separators made expressly for steam power.

THE Entire Threshing Expenses (and often much more) can be made by the extra Grain SAVED by these Machines.

GRAIN-RAISERS will not submit to the enormous wastage of GRAIN and the inferior work done by other machines, when once posted on the difference.

NOT only vastly superior for Wheat, Oats, Barley, Rye, and like grains, but the ONLY successful Thresher in Flax, Timothy, Millet, Clover, and like seeds. Requires no "attachments" or "re-building" to change from grain to seeds.

IN thorough workmanship, elegant finish, perfection of parts, completeness of equipment, etc., our "Grain-Saver" outfits are incomparable.

MARVELOUS for simplicity of parts, using less than one-half the usual belts and gears. Makes clean work, with no litterings or scatterings.

FOR PARTICULARS write to us for Illustrated Circular of our Mowers, Reapers and Threshing Machines, which we mail free. 175-L

TORONTO NURSERIES

1879

1879

43 Prizes at the Industrial Exhibition, Toronto, and 1 Silver and 3 Bronze Medals and 31 Prizes at Ottawa. First Prize, Diploma and Gold Medal for Exhibit of Nursery Productions, for variety, thriftiness and general superiority of Stock.

Shelter and Ornamental Trees

For Profit, for Embellishment, for Shade to Man and Beast, for Building Timber and for Firewood.

Every farmer and estated gentleman can grow their own timber for every use; losing but little ground, if any at all, by planting waste places, hill sides, along fences, &c. Our Mr. Leslie, sr., says:—"Forty years' experience in Canadian tree growing has convinced me that farmers can profitably grow trees for all purposes on a farm."

Parties Visiting the Toronto Nurseries can see trees of various kinds, both deciduous and Evergreens, planted twenty-five years ago, some of which are sixty and seventy feet high, and from twelve to eighteen inches through. It will pay any person to visit our grounds and see our immense stock of small and large trees, and shrubs of every kind.

Fruit Trees OF EVERY VARIETY,

Suitable for the Canadian climate, can be seen on our grounds in full bearing, so that intending purchasers can, if they desire, select trees by actual sample. Our entire stock is grown without employing unnatural means to force the trees.

We will sell Trees of every kind at about one-half the price charged by Yankee Peddlars and Canadian Tree Brokers.

Railway Companies Supplied with Larch Trees

for planting along their lines, at special rates on large contracts. Every railway company can thus grow their own timber for ties, and for storm-breaks to prevent snow blockades on their tracks in winter.

We are always pleased to have visitors inspect our grounds.
