Please mention "The Farmer's Advocate."

**Fur Farming in Prince  
Edward Island**

The annual report for 1913 of the Prince Edward Island Department of Agriculture contains interesting particulars relating to fur farming in the province, and especially to the silver-fox-breeding industry. It is stated that the industry has proved to be a most lucrative one during the past three or four years, and its economic results have been in many ways remarkable. It has created great corporate activity in a field where such enterprise had been conspicuously lacking, inasmuch that there were more new industrial and trading companies chartered in the province in the year 1912 than in forty years before, while in 1913 the new companies exceeded both in their numbers and capitalization all that had been incorporated since the province was united with Canada, including those of 1912.

An Act passed by the Legislature in April, 1913, imposes a tax of 1 p.c. on the value of the increases in foxes in lieu of the income tax of 1½ p.c. formerly paid, and under this Act an official enumeration and valuation of the young foxes was made in August last. This valuation was made under sworn statements from every fox ranch as to the number, character, and legal ownership of its animals. The total number of fox ranches was found to be 277, and of foxes of all grades 3,130, which are tabulated as Silvers, Crosses, Reds, and Unclassed, respectively. The table also gives the number of old and young foxes, the number of vixens and males, and the number of breeding and non-breeding vixens.

| Description.               | Total No. | Unclassed No. | Reds No. | Crosses No. | Silvers No. |
|----------------------------|-----------|---------------|----------|-------------|-------------|
|                            |           |               |          |             |             |
| Vixens (breeding).....     | 418       | 1             | 118      | 84          | 215         |
| Vixens (non-breeding)..... | 480       | 66            | 105      | 66          | 243         |
| Total vixens.....          | 898       | 67            | 223      | 150         | 458         |
| Males (old).....           | 838       | 59            | 194      | 144         | 441         |
| Total old foxes.....       | 1,736     | 126           | 417      | 294         | 899         |
| 1913 young.....            | 1,394     | 6             | 414      | 271         | 703         |
| Total foxes.....           | 3,130     | 132           | 831      | 565         | 1,602       |

Estimated value of the fox-breeding industry in Prince Edward Island, December 31, 1913.

|                                                     |              |
|-----------------------------------------------------|--------------|
| 899 Old Silvers at \$10,000 each.....               | \$ 8,990,000 |
| 703 Young Silvers at \$7,000 each.....              | 4,921,000    |
| 294 Old Crosses at \$2,000 each.....                | 588,000      |
| 271 Young Crosses at \$1,000 each.....              | 271,000      |
| 417 Old Reds at \$75 each.....                      | 31,275       |
| 414 Young Reds at \$66 each.....                    | 27,125       |
| 50 Blue Foxes at \$400 each.....                    | 20,000       |
| 130 Unclassed Foxes at \$1,000 each.....            | 130,000      |
| 277 ranches and ranch properties at \$750 each..... | 207,750      |

Total estimated value.....\$15,186,150

It is stated that at present the foxes in captivity in the province could not be purchased for \$15,000,000. The above estimated valuation is equal to twice the value of all the cattle, horses, sheep, swine and poultry, as shown by the Canada (Continued on next page.)

**"LIGHT RUNNING"**

That, together with close skimming, which is guaranteed in the *Empire*, is the point to look for in a separator, because light running means more than simply ease of turning the crank. The enemy of the separator is friction and light-running means absence of friction—and that means long life for the machine.

Among the reasons for the light-running of the

**EMPIRE  
DISC SEPARATOR**

It has fewer moving parts and fewer bearings, its bowl is 20% lighter than others, it has a unique, exclusive, three-ball bearing supporting the bowl spindle. This three-ball bearing is found only on the *Empire*—it supports the bowl on a bearing that is practically frictionless and yet keeps it perfectly centered—something that is impossible with any other bearing in use.

Mail the coupon attached for our booklet on separators and learn more of these exclusive *Empire* features. A liberal allowance will be made for your old machine on the price of an *Empire*.

The *Baltic* separator, the smallest of which sells at \$15, fills the needs of very small dairy herds.
