Learn About Paroid Roofing--

Read the facts, then decide

Every year, you're learning how to raise a little more corn to the acre—or oats—or hay. At 40, a man farms better than at 20. That's progressive experience.

Now, we've had a long, progressive experience in making roofing—over 25 years—much more experience than any other roofing manufacturer to-day. So we've learned a lot of things others have yet to find out.

PAROID ROOFING

We've learned how to make the PAROID felt right, because we make it in our own mills. Other manufacturers buy their felt from first one mill, then another—wherever they can get it cheapest. We have the most up-to-date felt mill in the country, equipped with special felting machinery.

We have designed our own saturating and coating machines—have our own special formula for making our waterproof compound—the result of years of experiment and test. This gives the most pliable, smoothest-surfaced, longest-lasting roofing on the market.

Proslate Roofing
is made to meet the demand for a colored roofing where architectural effect is desired. We use our regular finished PAROID as a base and add an extra weatherproof deep red colored coating by a separate process.

The ornamental edge gives the effect of stained shingles or slate. Especially designed for residences, bungalows, club houses and fine farm buildings.

Neponset Red Rope Roofing
has been the standard low cost roofing for twenty-five years. Costs about the same as tarred felts and other cheap roofings, but lasts three or four times as long. Contains no tar, clean to handle, easy to lay.

OUR GUARANTEE is that we will replace every square foot of roofing that proves to be of defective manufacture. If a stronger guarantee than this could be made we would make it.

We also make the celebrated NEPONSET WATERPROOF BUILDING PAPER and FLORIAN SOUND DEADENING FELT for dwellings.
