to-day's offerings. Nearly 2,000 car-loads of stock got in and half the cattle and sheep were not in marketable condi-tion. Cattle were 10c. to 15c. lower generally with plenty of spots that showed

generally with plenty of spots that showed even more loss.

Hog supply was heavier than expected and the market dropped 10c to 15c, but was active at the decline. The 89 hog again went behind the screen and 88.30 to 88.65 hought the bulk. Half the western run in the sheep house was merely of feeder quality. Fat lambs were a little higher but the feeder end had to accept a little less money.

Cattle—Receipts 27,000. Choice to prime steers, 88.15 to 88.60 good to choice steers, 87.50 to 88.15; good to choice heef cows. \$4.75 to 86; good to choice heefers, 85.75 to 86.75; good to choice calves, 88.40 to 88.75; medium calves, 87.50 to 88.00; good to choice stockers, 84.40 to 84.75; selected feeders, 85.25 to 85.75.

Hogs—Receipts 30.000. Choice heavy. 88.50 to 88.95; coarse packing, 87.90 to 88.80; good to choice wether, 88.60 to 88.50; good to choice lambs, 87.15 to 87.50; fair to good lambs, 86.65 to 87.15; good to choice veryings, 85 to 85.50; good to choice wethers, 84 to 84.35; good to choice w

### Toronto Live Stock

Indirectly the Grand Trunk strike was responsible for one of the largest runs of the year at the Union stock yards this morning. Farriers and drovers drove their cattle for miles to ship them to Toronto by the C. P. R., each thinking that the other fellow would not adopt a similar olar.

Torento by the C. P. R., each thinking that the other fellow would not adopt a similar plan.

As a result the market was over-loaded to-day and prices were off from \$5 cents to \$5 cents per cwt., for the heavyweight cattle. Trade was slow and a considerable portion of the run will be sold tomorrow. The average cost of best export steers and heifers was from \$6.25 to \$6.65 and for medium stock from \$5.75 to \$6 per cwt. The demand for butcher cattle was not very extensive and the local trade wanted it bought early at prices which were generally lower than last week. The highest prices paid for butcher cattle, as seen in the transactions was \$6.35, but the average run of prices did not range higher than \$5.75 and \$6.0. Common and medium grades sold from \$4.75 to \$5.25 and \$5.40. Closing quotations: Export cattle, choice. \$6.25 to \$6.65; medium, \$5.75 to \$6, bulls, \$5 to \$6.55; stockers, choice, \$4.30 to \$5.25; light, \$5.25 to \$4.25.

Receipts for the week ending Saturday were but very little smaller than the previous week. Most of the butcher stock was from nearby points and there were very few good animals among the receipts. If the quality of the stock continues low we must look for lower prices as the market is flooded with half fat beasts and there is the poorest kind of an outlet for them. Prices are holding fairly well on the best of the arrivals but the only real good butchers arriving are those culled from shipments of exporters. A readjustment of prices is taking place on this market and others in Eastern Canada and the States. Speaking of this the Farmers' and Drovers' Journal, of Chicago said:

Farmers' and Drovers' Journal, of Chicago said:

"Price readjustment in steer trade is how chief feature. As the westerns are moving a little earlier than usual, and show poor quality, market for plain and medium grass-fed natives is being hit some rather hard wallops, and these are striking price levels which the killers look forward to establishing as a starting point in trading for the 'big runs of western rangers' which are expected shortly. Wide price spread in native steer market has been a feature for weeks past, but sellers are expecting some further spreading of values. Unless the feeders buy up a big portion of the crop of light westerns the rangers are going to effect some low prices for natives of relative grade. Aiready the poorest killers are selling in small lots below 83.00, although few westerns have gone under this basis. Choice to prime natives are not looked upon as due for material price changes. Supply of these is only up to general requirements. Market at 88.00 to 8.53 for tops seems firmly established, although carly season predictions of 89.00 for July seem far from materialization."

Export trade continues heavy, most of the animals being grass and hay fed-Prices for these are steady with last week. Most that go East are Alberta stock. Eastern buyers succeeded in getting more feeders than in most previous weeks and prices for these are holding up well. The run of calves was not large and prices

held nearly up to the previo	HER WI	rek

Hogs			1	

Hogs

Hog prices have taken another tumble since last week, aided by the packers who are taking every advantage of the poor local demand caused by the warm weather. Most of last week's arrival's sold up to 89.25 per cwt. but twenty-five cents was knocked off that price Monday and dealers are now quoting a 89.00 top. It would not be surprising if this market, took a further decline, but it should not be a great one. However there is no reason for raisers to became nervous. The abattoirs have not any large stocks on hand and they will need a lot of porkers to fill their vats. Besides this the demand for fresh pork will be much beavier as soon as the weather cools. Sizing up the whole situation it does not look as if the farmer need worry about what he will receive for the porkers he markets this fall.

Hog prices quoted are:

(hoice hogs 88.75 to 89.00 Heavy sows, over 300 lbs. 7.75 \* 8.50.

Heavy sows, over 300 lbs. 6.00 " 7.00

#### Sheep and Lambs

There has been a fairly active market in sheep and lambs. Most of the arrivals were from eastern points.

Prices quoted are:
Best sheep 84 50 to 83 75

81.50 to 85.75 6.50 ", 8.00 Lambs

# Country Produce

Butter

Butter

Butter prices are holding firm at the same level as last week. Receipts are fairly heavy but the local demand is good and is holding values up. Dealers state that there is some theorement in the receipts in that there are not nearly as many shipments of bricks coming. At this time of the year there should be no bricks sent to market as they are bound to arrive at their destination in poor condition and he docked accordingly in price. As has been stated before all dairy butter should be shipped in good clean butter tubs. Candy pails and such should not be used under any circumstances. Absolute cleanliness should be used in the dairy and in packing. Previous reports have emphasized this but it cannot be repeated too often. A large amount of dairy hutter that is pulled down in prices by poor packing and lack of cleanliness is received each week.

Prices quoted are:

Fancy Dairy in	tubs		15	le.
Good round lots				
Lower grades		.13c.	to 1	le.

Cheese

Cheese prices are a little easier and the receipts here are selling at 10½ cents per pound f.o.b. Winnipeg. The quality of most of the cheese is fairly good but aome is pulled down in quality by lack of care in loading. Cheeses that are brought to the station in the heat of the day suffer in quality and therefore in price. Farmers should avoid this if possible. The local demand is just about taking care of the receipts. There is no demand from outside points. taking care of the receipts, no demand from outside points.

### Eggs

Heavy, shrinkage on account of the hot weather continues to be the bug-bear of dealers in eggs. Winnipeg dealers are having some trouble in getting high quality hen fruit on account of a great many farmers starting to lay up supplies of their best for use during threshing. Poor methods of packing are knocking out the quality of a whole lot more. Too much care cannot be taken in shipping during the hot weather. Eggs should be shipped as often as possible and the cases

and packing be kept absolutely clear and dry. Dealers are paying 18 cepts per dozen, f. o. b., Winnipeg, subject to canding, or 15 cents per dozen for straight receipts.

Vegetables New carrots and beets are now on the market and are meeting with a strong demand. Dealers are paying gardeners fitteen cents per dozen bunches for both. New potatoes should be to market by the first of August and cucumbers by the end of this week. A small local demand for old potatoes has prevailed this week, several parcels having shanged hands at twenty-five cents per bushel.

Hay

Hay prices are firm and dealers do not

Hay prices are firm and dealers do not link that they will show any slump during the summer. However, they do not hink that they will show any slump during the summer. However, they do not think that the dry weather has done any great damage in most of the sections shipping to this market. Prices quoted per ton, on track, Winnipeg are:

No. 1 Timothy.

No. 1 Prairie 11.00

No. 2 Prairie 10.00

## Liverpool Live Stock

John Rogers & Co. report that trade today at Woodside Lairage was firm and Saturday's prices were well maintained, the quotations being as follows: States steers, 15 to 15½ cents, Canadians 14½ to 15¼ cents, fed ranchers 13½ to 14 cents.

#### CORN MARKET STRONG

A Chicago wire of July 25, said:-A buyers' panic in corn at the opening to-

A Chicago wire of July 25, said:—A buyers' panic in corn at the opening to-day caused a sensational price advance and net gains for the day ranged from 3½ to 5 cents. Nearly every broker in the pit held buying orders at the opening and the scenes enacted beggar description.

The high temperatures and hot wind throughout the entire corn belt seemed to strike terror to the hearts of the shorts who were big buyers and caused investors to make a rush also to get hold of some of the yellow cereal before the price got beyond, their reach.

Crop reports were even worse than those received during Thursday, Friday and Saturday of last week. Some of the heuses with crop experts in the interior, received hundreds of unfavorable reports, some of which were sensational in character. Finlay-Barrell and company received a great many advices from their regular crop men and many from bankers and merchants throughout the bett.

bankers and merchants throughout the belt.

Ware-Leland, with several crop experts in the country, as also Bartlett-Frazier, S. B. Chapin. Walter Fitch, Clement-Curtis and others, the one cry was for moisture and nearly every message received said that unless there were rains within the next few days, crop losses would be still more sensational.

July sold between 64½ and 65½, opening at 65 and closing at 64½, compared with a close of 61½ on Saturday; the September futures ranged between 64 and 66½, opening in various parts of the pit at 64 and 63 and closing at 66½ to 66½ as Saturday; December between 62 and 65, opening at 62 and 65 and closing at 64 and 64¾ against 60 on Saturday; May between 64 and 66½, starting at 64 and 66 and closing at 66 and closing at 64 and 66½ against 64 on Saturday. on Saturday.

### New Malting Plant for Western Canada

New Malting Flast for Western Canada are building an extensive malting plant in Winnipeg. They state that they will be in the market this fall for large quantities of choice barley. In their half page advertisement in this issue they advise farmers to stack their barley so that it may be suitable for malting purposes and may command the highest market prices.
