Pills of attested value.—Parmales Vegetable Pills are the result of careful study of the properties of certain roots and herbs, and the action of such as sedative and laxatives on the digestive apparatus. The success the compounders have met with attests the value of their work. These pills have been recognized for many years as the best cleansers of the system that can be got. Their excellence was recognized from the first and they grow more popular daily.

**AGE LIMIT FOR DOCTORS.**

Paris Court Thinks They Should Retire at 66.

The Paris Court has just given a decision which will be of interest to medical men as it raises the question of the age at which doctors ought to retire. At the beginning of last year a well known Paris physician, Dr. Eugene Cheuriot, 66 years of age, was the victim of a serious automobile accident, which prevented him from following his practice for nine months and necessitated a long stay in the South of France. He brought an action against the owner of the automobile which overturned his coupe, claiming \$2,400 for medical treatment and his stay in the South; \$12,000 for loss of practice and \$30,000 for "diminution of clientele in the future because of the time during which he was away from his consulting rooms and of the loss of strength which will for the future prevent him from performing the same amount of work as before the accident."

The Court expressed the opinion that "at the age of Dr. Cheuriot, the greater number of medical men aspire to a well merited repose," and considered therefore that damages to the amount of \$12,000 would meet the case. From this it would seem that the Court thinks that doctors are too old at 66 to practice.

**GOALING BIG WAR SHIPS**

HIS MAJESTY'S SAILORS DRESS ANY OLD WAY.

Every Man Takes His Position Just as If the Battleship was in Action.

Twilight has just given place to dawn as the grimy, blunt-nosed collier comes gingerly alongside. As she makes fast a motley crowd hurls itself aboard, swarming all over her, reaving whips and out-hauls, and finging sacks and shovels into the holds.

Hardly two men are dressed alike, for on a "coal-ship" day the uniform regulations of his Majesty's fleet are relaxed—indeed, they are disregarded entirely—and the utmost latitude is allowed in the matter of dress.

The forecatermen and foretopmen, each under their own officers, attack the foremost holds of the collier, the maintopmen and quarterdeckmen the after-holds; while the donkey-engines have been hastily overhauled by stokers, with a view to getting the best possible work out of them.

EACH PART OF THE SHIP has two whips for hoisting the bags of coal aboard, and they must keep them well supplied.

A bugle sounds the "Commence!" and as the first hoist—five sacks of coal, weighing 2 cwt. each—swings into the battleship a cheer goes up from the men.

As soon as a group has five sacks filled, a hemp strop is passed through the becket at their mouths and one of the whips is hooked on. "Heave up, two!" yells a voice.

An officer standing by the coming of the hatch holds up a small flag. There is a rattle from the donkey-engine, and up goes the hoist, amidst shouts of "Stand from under!" as the men dodge the loose lumps of coal that fall from it.

DOWN AMONG THE DUST. On board ship the Marines, each armed with an iron trolley, rush the full sacks one by one to the appointed coal-shoots. Here they are tipped up, and the coal pours down into the bunkers, while the empty bags are passed back to the collier to be refilled.

CONTINUES INCESSANTLY. Every hour a midshipman chalks up the results on the sides of the hatchways, so that the shovellers in each hold can compare their efforts with those of their rival parts of the ship.

**FOUND QUICK CURE AFTER EIGHT YEARS**

DODD'S KIDNEY PILLS TRIUMPH WHERE BELTS AND PLASTERS FAIL.

Moses Sherwood, a long sufferer from Backache, found permanent relief in one box of the Great Canadian Kidney Remedy, Dodd's Kidney Pills.

Podiac, King's Co., N. B., Jan. 9 (Special).—After suffering for eight years, while all the time the remedy was right at hand, Mr. Moses Sherwood, a well known farmer living near here, tried Dodd's Kidney Pills and is now as well as ever he was in his life.

Mr. Sherwood's experience is similar to that of thousands of other natives of New Brunswick. "About eight years ago I hurt my back from lifting," he states. "I used liniments and plasters and wore a wide belt, but in two years my trouble had developed into Kidney disease."

"My back was so sore I could not lift any weight, when reading a Dodd's Almanac led me to try Dodd's Kidney Pills. Before the first box was finished my backache was gone and I have never been troubled with it since."

Belts and plasters may give temporary relief in cases of Backache or Rheumatism, but the only way to cure them is to go to the seat of the trouble. Cure the Kidneys and the Backache or Rheumatism will disappear. Dodd's Kidney Pills never fail to cure the Kidneys.

The rage for black velvet gowning reaches down to the tiniest feminine mites. A charming fad. It may not be so bad if your views are one-sided—providing you always look upon the bright side.

While more prevalent in winter, when sudden changes in the weather try the strongest constitutions, colds and coughs and ailments of the throat may come in any season. At the first sight of derangement use Bickle's Anti-Consumptive Syrup. Instant relief will be experienced, and use of the medicine until the cold disappears will protect the lungs from attack. For anyone with throat or chest weakness it cannot be surpassed.

Perhaps you have observed that spiritualistic mediums do not seem to care a rap for each other.

THE LIMIT. A Toronto man who visited Britain last summer appears to think that country the champion tip-taker.

He says: "Well, I had tipped every man, from the swell gent who seemed to own the House of Commons down to the hireling who gummed the wrong labels on my luggage, and I went into the waiting-room on the landing-stage at Liverpool to wash my hands, and what do you think stared me in the face, when I had finished? A placard, 'Please tip the basin.' I'll be hanged if I did!"

Employer—"Mr. Tops, I have long observed with approval your assiduity and devotion to business, and I am now about to test your abilities in a new capacity, in which I feel sure, you will acquit yourself with credit to the house and—"

Mr. Tops (highly delighted).—"I—I-I shall do my best, sir!" Employer—"As I was about to say, Mr. Tops, the porter is ill this morning, and I shall have to ask you to sweep out the office."

**RAIN TREE.**

Peru grows very large trees and is called by the natives the 'Condensing Tree.' It is called by the natives the 'Condensing Tree.' It is called by the natives the 'Condensing Tree.'

In the dry season when the rivers are low and the heat great the tree's power of condensing seems at the highest and water falls in abundance from the leaves and oozes from the trunk. The water spreads around in veritable rivers, part of which filters into the soil and fertilizes it. These rivers are canalized so as to regulate the course of the water.

It is estimated that one of the Peruvian rain trees will on an average yield nine gallons of water per diem. In a field of an area of one kilometer square—that is, 3,267,000 feet square—can be grown 10,000 trees separated from each other by 25 meters. This plantation produces daily 385,000 liters of water. If we allow for evaporation and infiltration we have 135,000 liters or 29,531 gallons of rain for distribution daily. The rain tree can be cultivated with very little trouble, for it seems indifferent to the soil in which it grows. The tree increases rapidly and resists both extremes of climate.

They cleanse while they cure.—The vegetable compounds of which Parmelee's Vegetable Pills are composed, mainly dandelion and mandrake, clear the stomach and intestines of deleterious matter and restore the deranged organs to healthful action. Hence they are the best remedy for indigestion available to-day. A trial of them will establish the truth of this assertion and do more to convince the ailing than anything that can be written of these pills.

IMPOSSIBLE.  
Bobby's father is not a brilliant sort of man; it has been said in fact, that he errs decidedly in the other direction.

He took Bobby the other day on a short visit to some friends, and, thinking to make a good impression, he started a conversation.

"I had quite an adventure the other evening," he said. "At the corner of a dark street a man suddenly sprang out on me, and said that if I didn't give him my watch he'd knock my brains out. Fortunately, a policeman came along, and the man took to his heels!"

"And weren't you afraid?" asked his hostess. "Afraid!" echoed Bobby's papa modestly. "Well, I hope not."

"But," went on the lady, "if he had carried out his threat?" "Well," answered the visitor, "if he had—"

WHAT A C.P.R. FIREMAN OWES TO ZAM-BUK.

George H. Duffus of Robertson St., Fort William, a C. P. R. fireman, says: "The water gauge of my locomotive burst and scalded the whole left side of my face terribly. I had a box of Zam-Buk in my pocket, which I was using for a sore on my lip, and when I had recovered from the first shock of the accident, I produced the balm and had it applied freely to the scalded parts. I was suffering acute agony, but within a wonderfully short time Zam-Buk gave me ease. I was able to continue my journey and upon reaching home, I obtained more Zam-Buk and continued the treatment. Zam-Buk acted wonderfully well, and in a few days had the wound nicely healing. I don't know anything so fine as Zam-Buk as a healer of burns, scalds, cuts, and similar injuries, which workers are so liable to, and, in my opinion, a box of Zam-Buk should be kept handy in every worker's home."

Zam-Buk will also be found a sure cure for cold sores, chapped hands, frost bites, ulcers, blood-poison, skin eruptions, piles, scalp sores, ringworm, inflamed patches, itching eruptions and chapped places, cuts, burns, bruises, and skin injuries generally. All druggists and stores sell at 25c. Box of post free from Zam-Buk Co., Toronto, upon receipt of price.
