LIVE STOCK MARKETS

TORONTO
With 2200 cattle on sale yesterday the market was no better than the close of last week. The best demand was shown for handy-weight butcher cattle showing fat and quality, and the medium low priced butchers. Very good demand was shown for butcher cows.

The market was lower and inclined to drag on steers with weight variously estimated at from 50c to 75c lower on this class of cattle.

The bull market held about steady.

For milk cows and springers the market was unchanged.

There were a number of parties inquiring for breeder stockers and feeders but there were not many of this class. Generally the market had a slight lower tendency. Reports from Buffalo and other outside points quoted cattle generally lower, and this naturally had its reflection here. We think the immediate prospects are for about steady prices but it is pretty hard to forecast the future at a time like this.

With around 250 sheep and lambs the market held about steady on the choice stuff, but the medium and common class were slow of sale. Choice grain-fed lambs, handy weight, sold from \$14 to \$15; choice sheep \$9 to \$10; heavy sheep and bucks, \$7 to \$8. The market was well cleaned up with the bulk of the lambs of the medium to common quality. There is a fair demand for a few choice spring lamb weighing around 50 pounds; and fat These kind are selling around \$14 to \$16 apiece.

The hog market held about steady at \$14 f.o.b. and \$15 fed and watered with a weaker tendency, and packers aiming at 13.75 f.o.b. for the balance of the week.

The fly you kill now will not have a million descendants in July.

Bashfulness is one fault that modern children are losing fast.

She—(Receiving hubby's pay envelope)—You're a dear.
Hubby—You mean a goat.

After you conclude that a bachelor holding a baby is the most awkward sight in the world, take a good look at a woman throwing a stone.

It is proposed that no male in this Province shall be allowed to get married until he is twenty-one, by which time, a fellow is supposed to be old enough to have some sense. In a matter of this kind, however, it's hard to set an age limit. Some are even more foolish at forty than they were at twenty.

NEW HAMBURG.

We have increasing evidence from time to time that farmers of Waterloo County are progressive.

Mr. A. S. Cressman near here, has just returned from Sarnia where he attended a free school of instruction in tractor operating.

An interesting debate took place at Kitchener a couple of weeks ago between a member of the junior farmer's club. The contesting associations were Ayr and Linwood. The subject of the debate was "Resolved that free trade between Canada and the United States would be in the best interests of Canada." The debate was keenly contested. It took the judges three quarters of an hour to decide which was the winner, the decision was given in favor of Linwood, who took the negative side.

New Hamburg and Kitchener took part in previous debates with Ayr and Linwood. A "buy at home" campaign is on in this village. There is to be a series of twenty-six articles in the local press pointing out why it is in the best interest of our citizens to spend their money at home. A good deal of interest will be taken in the discussion with possibly some attempts to explain why some do not spend their money at home. Some of our farmers are coming to the front with live stock. Seegmiller Bros. of Petersburg have a herd of Jersey to the number of 90 head, including "Lincoln Fern" the champion mature cow of Canada for 1920. We have also some wealthy men in Waterloo County. The will of the late J. P. Livingston of Baden, four miles from here, shows an estate valued at \$553,000, consisting of bank stocks, victory bonds, life insurance, real estate and cash in bank.

The referendum matter is causing some stir in town. Meetings are being held, committees appointed in order that the vote may be brought to the poll in the interest of home and country.
