ST. JOHN, N. B. FRIDAY, JULY 30, 1909

CURREY DIVORCE CASE WAS RESUMED THIS MORNING

Nurse Girl Says Mr. Currey MOTORMAN CHARGED Often Smalt of Liquor-Currey Denies Everything.

VOL. 33.

The Currey divorce case was resumed before Mr. Justice McKeown in the Equity Court room at ten o'clock this morning. Hon. C. N. Skinner appeared for Dr. L. A. Currey, while A. H. Hannington, K. C., and M. G. Teed,

K. C., represented Mrs. Currey. Miss Mary Graham was the first vitness called. She stated she resided in Lakewood, St. John County. She was acquainted with Mr. and Mrs. Currey and had been in their employment as a nurse girl for about two years. The matter of removing what charge will be placed against him the Currey household was talked over During the evidence, Mr. Skinner ob-

jected strongly to the giving of evi-lence regarding the advice given to emove to Red Head. His objections were over-ruled. "Did Mrs. Currey treat you well?" asked Mr. Hanington, in continuing his direct examination of the witness. Counsel for Dr. Currey objected to the question, and Mr. Hanington

agreed to drop the request. Mr. Hannington-How did you get along with Mrs. Currey?" Again Mr. Skinner raised an objection, and Mr. Hanington put the ques-Continuing, the witness said she had always gotten along nicely with Mrs.

ion of Mrs. Currey's conduct in the On objection being taken, the question was over-ruled by Judge Mc-Mr. Hanington-"Was Dr.

sick very often?" Witness-"Yes." Mr . Hanington-"What trouble with him?"

Answer-"No." To the presiding Judge Miss Graham sions Currey had "yanged" at Mrs. stated she resided just opposite the Currey, but did not remember hearing

On her cross-examination by Mr. Skinner, the witness stated she could ner witness denied that his boss, Mr. not remember the date on which she Tilley, said the work was not proentered the Currey household. She gresing fast enough. children. She remained in the employ Mr. Skinner's questions and would of Dr. Currey as nurse girl for two answer before the counsel was through years and during that time a child had asking a question. At one time Mr. been born. During the remainder of Skinner remarked: "Witness, you have the examination, the witness showed a splendid indirectness of falling off some slight hesitation in responding to before you get to the objective point."

the questions. The witness stated that Currey would come home and be laid up in bed. Mrs. Currey had requested the witness to keep the children quiet. Currey passed resumed by Mr. Teed. Counsel read through the kitchen and witness could part of Currey's testimony regarding smell his breath. Witness was in the the building of a raft. Currey in his employ of Currey for two years as evidence swore that his wife denied nurse girl and latterly had meals ir- that she ordered a raft built, but afregular at the household.

To Mr Teed Miss Graham stated that Mrs. Currey had assisted her in the care of the children. On further cross-examintaion by Mr. Skinner, the witness stated she did not think there were other girls in the household except Victoria Short and herself. This concluded Miss Graham's

and her direct examination was con-tinued by Mr. Teed. She did not re- Witness denied that sh member that she had called Currey a coward, but told Currey he should horse-whip Horace, who had been telling yarns to her children. She was in the city at the time the raft had been built. Currey went down to the shore to see the raft, and was very angry. scolded the witness about the raft for fully two hours.

George H. Clarke entered the room about this time and Mr. Hanington put a motion to have him called. The court granted the request and Mrs. Currey retired for a time.

Mr. Clark said he resided in West St. John and had worked for Currey building a verandah and making improvements at Woodman's Point. He noticed a nurse girl and servant at the Currey home. At a meal Currey had given him some "Limerick" cheese, and he did not care much about it.

Mr. Teed-"Did you make arrangements for any improper relations with Victoria Short and did Mr. Currey hear you in conversation with her?" The witness responding strongly to this question, calling Currey a Har if he said any such remarks. Nothing of the nature had occurred. Friendly relations had existed between Currey and

"Vickey" Short. At his cross-examination by Mr. Skinner, the witness stated he had no extended conversation with the girl. He had nothing particularly to do with any of the girls, other than common decency. On his completion of the work at Woodman's Point he returned to St. John, "Vickey" Short had made absoutely no impression upon the witness. He had heard Currey arguing and wrangling with his wife. "I was on the outside looking in," said the witness, and would not stop the hammer going, but wouldn't hit so hard while I was

naking the repairs.' Witness was positive that Mrs. Curcy did not answer back to Currey during his tirade of abuse. Regarding the work done by witness, Mr. Clarke said the job was

done to please Currey, not Mrs. Cur-

HERO OF TWENTY-TWO BATTLES

RIVER COMMISSION TAKING EVIDENCE AT FREDERICTON

HAD A BOMB FACTORY

Not So Serious However-Gompany Gaining Every Day - Oulput Increased -Another Arrest Expecied.

SYDNEY, N. S., July 29 .- Four Italans were arrested at Dominion No. 3 last night on the charge of setting off powder in a shack. It was at first reported that they had been caught red handed in the work of making bombs, by filling bottles with powder and attaching fuses, but the affair does not turn out to be so serious. There are nine men living together in the shack, five of whom are working. The other four, who are on strike, began last night to set off squibs of powder in the shack, evidently to annoy the others. From this they proceeded to filling small bottles with powder and attaching fuses to them. About this time me of the military police appeared on the scene and took the four men in charge. They were handed over to the were let out on bail of \$10 each by Stiendiary McGillivray. The general situation continues to

show steady improvement. Increased utputs are reported, at all the coleries, and including the amounts taken from the banks the output is the total output was 11,300 tons, of which amount over 6,000 tons were actually mined. Dominion No. 1 produced 2,200 tons, which is practically the average o utput for this mine. At No. 5 (Reserve the output was 1,300 tons, and over 1,000 tons were taken out of No. 2. The output at No. 4 Boston Auto Builder Here on Vacation Looks (Caledonia) was six hundred tons, as numbers 2 and 4 were the colleries gery in regard to the company's oper-which the U. M. The work of laying the foundation of begun this week. The rumor is going around that the town council may shortly decide to by Star Line boat for a short trip to make a change in regard to the location of the council chamber and town offices and that the premises now occupied by the Bank of Nova Scotia may be secured. Possibly the matter will be brought up at the August session of the council next Tuesday. H. M. Wood, president of the newly formed golf club, will offer a cup for annual competition among members of the club. In addition to holding the cup for one year, the winner of each annual competition will be awarded a pin

or medal which will become his or her personal property. The club executive is arranging for the holding of monthly handicap competitions. Professor A. U. Brander, of Amherst, who a short time ago completed the nusical score of a very beautiful Lenten cantata, "The Story of the Cross," which was produced in Amherst, has just finished the music of the first act of a fairy opera entitled "The Enchanted Princess." The book and lyrics are by Rev. R. W. Norwood, rector of

The death of Mrs. John Donaldson occurred at Millford last night about midnight, after a lingering illness. Mrs. Donaldson was in the sixtyfourth year of her age. She was born in Ireland and came to Lorneville when quite young. Later she removed to Milford, where she has been a resident for the past thirty-seven years. The deceased is survived by her husband, seven sons and three daughters. The sons are: William, of this city; George, of Fairville; Alexander, at home; Edgar, of Montreal; Thomas

David of Montreal.

Fairville.

panies Submitted — Lewis H. Bliss Tells of Difficulties of Low Water Driving.

FREDERICTON, N. B., July 29 -The St. John River Commission met at ten thirty this morning in the Supreme Court chambers with all the nembers present. Nearly the entire forenoon was taken up with the reading and putting in evidence of the various acts of legislature relating to the Fredericton Boom Company and the St. John River Log Driving Company. An act incorporating the boom company, passed in 1844, was submitted by Mr. Gregory, counsel for the Canadian commissioners. He also submitted acts in amendment passed at different times defining the powers vested in the company. The act incorporating the St. John River Log Driving Company passed in 1886 was next put in evidence after a brief discussion. Mr. Gregory explained that all operations on the river could become members of the company by filing a statement before the annual meeting of the quantity of lumber they expected to drive during the year.

He admitted, in reply to Mr. Fellow that the company had the exclusive rights to drive all the logs between Grand Falls and the boom limits, and also on the Aroostook River from a boundary line. This, of course, cannot

apply to rafted logs. Lewis H. Bliss informed the commission that people living along the river had the same right now to raft logs that they had enjoyed before the amalgamation of the Boom Company and the St. John River Log Driving

Company. An act passed in 1907 authorizing the transfer of property of the Fredericton Boom Company to the St. John River Log Driving Company was put in evidence as also was the act passed last session consolidating various acts re-

lating to both companies. Mr. Bliss was examined by Mr. Gremouth of the Aroestook and at Mu-niac. The river was rocky at these points, and in low water the logs had to be dragged over. at Fredericton is a foot below low water it would be six inches below at Aroostook. The water falls at the rate from theh ighest pitch in June. It was of a foot every twenty-four hours mast desirable that the logs should reach the booms during the freshet season. The company put out its booms in spring just as soon as the ice went out. The highest pitch of water ocurs here about the first of June. He was familiar with the river between Grand Falls and Fredericton. were a number of places where the company found it necessary to maintain sheer booms. Driving for the company up to last year had been done

WEDDINGS.
