C. C. C. Turnout For Anniversary

Paraded to Cathedral in the Morning And to St. Patrick's in the Afternoon

The 18th anniversary of the C.C.C. took place yesterday under very favorable circumstances. In the morning a large number paraded to the Cathedral and attended Holy Communion. In the afternoon the battalion and reserves met at the armoury to attend Benediction at St. Patrick's Church.

In command of Lt.-Col. Conroy the corps first proceeded to St. George's field where they were photographed. The march was then resumed to St. Patrick's Church where Benediction was imparted by Rev. Fr. McDermott, assisted by Rev. Sears and Pippy. Rev. J. Pippy, Chaplain of the corps, was the preacher, taking as his subject "Moral courage and how to attain it."

The preacher in impressive language pointed out that without moral courage we could not be the citizens the State expected us to be; and to attain the former, the most necessary essential to the latter, we should be true Christians. We could only be true Christians, continued the preacher, by frequently approaching the Sacraments of Penance and Holy Eucharist, and by applying ourselves to these demands of the Church, we could not err against the State and would have the full blessings of God.

The church was filled with a large congregation. Return to the armoury was made via Water Street and Military Road. Thousands of citizens accompanied the brigade through the city, being lighted with the splendid appearance of the lads. The reserves turned out strong and looked fine.

Returning to the armoury the Lt.-Col. congratulated the members on their creditable turnout.

A SUCCESSFUL BUSINESS MAN

Every successful business man can give reasons for his prosperity. Most essential to any success is a careful and ceaseless attention to details. Every well conducted office or store in the world finds that simple and efficient filing systems are an absolute necessity. No employer will waste his own time or allow waste with his staff by using old fashioned methods. The benefits derived from the time and money-saving system which "Globe-Wernicke" devices encourage are self evident. Not a paper can go astray when the "Safeguard" method of this Company is used. And no matter how complicated your filing problem, no matter how peculiar, no matter how small or how large, the "Globe-Wernicke" can provide you with the equipment that will place every record at your finger tips. Why not investigate? Mr. Percie Johnson represents the "Globe" in Newfoundland.

Important Notice!

The Fraser Machine & Motor Co. for the purpose of reorganizing and enlarging their plant, lately went into voluntary liquidation; the organization is now complete, much more capital has been subscribed to meet the growing demands of the business, and this year double as many FRASER engines will be built as last year. There is no other engine so popular in Newfoundland or Canada as the FRASER, and with the new Company we can promise better service and deliveries than in the past, when many had to wait for their engines, as we could not get them from the factory fast enough. All orders now booked we can ship at a moment's notice. FRANKLIN'S AGENCIES, LTD., St. John's, Newfoundland, Agents.—feb28
