DENSITY OF LIQUIDS.

A Homemade Hydrometer and a Little Experiment.

The instrument used for measuring the density of water or other liquids is called a hydrometer, and it is a very simple affair, consisting of a glass or metal float with a stem projecting out of the water. The hydrometer sinks deeper in light liquids than in heavy ones, and as the stem is graduated or marked off by lines like a thermometer the mark to which it sinks gives us the density of the liquid. The principle of the instrument is easy to understand. A floating body is held up or kept from sinking by the weight of the displaced liquid—that is, by the weight of a quantity of liquid equal in bulk to the submerged part of the body.

No matter in what liquid the body is placed, the weight of the displaced liquid must be the same, equal to the weight of the body itself, if the latter

WAITING FOR THE EGG TO SINK.

is to float at all; hence it will sink deeper in a light liquid than in a heavy one, because it must displace a greater bulk to make up the required weight. Of course if the liquid is too light the body will be entirely covered and will then sink to the bottom. This brings us to the very pretty and simple device by which, without using a regular graduated hydrometer, you can test the truth of the statement that water is heaviest at 39 degrees.

This device is merely a blown out eggshell, with the holes in its ends stopped with wax and weighted with a bit of wire or a coin or two. You have a vessel, preferably a tall glass jar, filled with water, which you can bring to the temperature of 39 degrees or thereabout by adding a bit of ice, then a dash of warm water and so on till you get it right, testing it all the time with a thermometer. Then adjust the weight on your egg so that it just floats with a little bit of the shell peeping out of the water. Now add cracked ice to cool the water. Very soon you will see the egg sink to the bottom of the jar.

The next thing to do, supposing that you are experimenting in a warm room, is to do nothing. The water gradually warms. When it reaches 39 degrees again up bobs the egg, but in a little while, as the water continues to grow warmer, it sinks once more. By adding more cracked ice you can repeat the experiment as often as you like.

The Wise Elephant.
A gentleman once went away for a long time leaving his elephant in charge of his keeper. He asked a lady to see that the elephant had a certain amount of rice every day, and that the keeper did not retain any of it for himself. At first all was right, but soon the lady thought the rice was getting less every day, so she asked the keeper whether he gave the animal enough rice. The keeper, patting the elephant, said: "Madame, I treat my elephant like my child, and do you think I would rob my child?" The elephant seemed to understand, and with his trunk he pulled down the cloth round the keeper's waist, and a quantity of rice fell out which he had stolen.

An Amusing Trick.
Say to a person, "If you will stand on a chair in this room I can make you come down the very first time I tell you." The person will probably say you can do nothing of the sort. However, he will get on to the chair just to show you that he doesn't mean to come down directly he's told.
As soon as he is up on the chair say, "Come down." He will of course say, "I shan't do anything of the sort." Then you answer, "Very well, then; unless you wish to remain there for the rest of your life you will have to come down off that chair the first time I tell you, because I do not intend to tell you a second time."

Tomorrow.
Molly—Is this today or tomorrow?
Nurse—Today, of course. Molly (disconsolately)—I don't suppose I'll ever get the chocolate mother promised me when tomorrow came. It always seems to be today.

A Nursery Tea.
When I have cake and jam enough for two or maybe three I beg Louise or Grace to come to supper here with me. But when there isn't very much, I'll tell you who's the nicest one. The pleasantest and best: It's my dear Angelina Maude. For two or maybe three I beg her to come and set for her a plate and spoon and cup and things to eat she sits right there. And not a bit of appetite! And when a long, long while has gone and still she doesn't touch a morsel, then I say, "I'll eat your share to save it." And she smiles and smiles away! Elizabeth Lincoln Gould in Youth's Companion.

SCOURGE OF THE AGE IS KIDNEY DISEASE

Terrible Increase in the Number of Deaths from This Ailment

It is Common to All Classes and Conditions of People

It Creeps Stealthily Into The System And Develops Into Many Diseases

Bright's Disease, Heart Disease, Diabetes, Dropsy and Rheumatism, are Among The Forms It Takes.

Dodd's Kidney Pills. The One Remedy That Never Fails To Cure It. No Matter How or Where It Is Found.

Of all the diseases the human body has to combat in its struggle for health, the one that is steadily growing in strength and terror is Kidney Disease. Quietly, stealthily as a serpent, it creeps on its victim till the latter is enveloped in its folds, and the greatest physician the world has ever known stand helpless before it. As the last fold goes around the struggling victim and the doctor shakes his head and whispers "Bright's Disease," hope fades to nothing, and the sorrowing friends feel that death has marked their loved one for its own.

The alarming increase in this terrible disease is making its presence felt by the columns of almost every newspaper. For not among the lowly of the earth alone does it look for its victims. Statesmen, judges, eminent lawyers, and honored divines are numbered among those who in recent months have gone down to their graves with the tell marks of this dread disease upon their bodies. In fact, so prevalent has the disease become that a celebrated New York specialist stated recently that not one person in a hundred was free from some latent Kidney Disease.

WORKS IN SECRET.

It is the secrecy of Kidney Disease that makes it the more dreaded. You can fight an enemy in the open with some chance of success, but if he is lying in wait to take you at an unwary moment your chances of successfully fighting him are terribly diminished. So it is with Kidney Disease. Its first warnings are so faint as to be hardly noticeable, a slight pain in the back that is charged up to over exertion, a slight discoloration of the urine or a burning sensation while urinating that hardly attracts attention. That is all. But that means that Kidney Disease is at work gradually eating its way into your system. The pain in the back grows more severe, the urine becomes cloudy, the face swells under the eyes and of the limbs denote the coming of Dropsy, sharp shooting pains in the joints and muscles tell that Rheumatism has you in its grasp, or perhaps a day or two's illness leads to the calling of the doctor, and suddenly the terrible truth is forced upon you. Bright's Disease has you in its grasp.

WAY OF ESCAPE.

With this silent, relentless enemy slowly but surely eating its way into your system, making that progress by a yearly increase in the length of its death list, the demand of the day, of the hour, is "Show us the way of escape." Nature never put mankind in a critical condition without providing a way of escape. "Proving mankind weak enough to take the way provided. In this case the way of escape is a simple vegetable remedy. It has been before the people of Canada for thirteen years, and like all the great relievers of nature, has been first received and first appreciated by the lowly in life, those known as the common people of Canada.

Is it the common people of Canada who die of Bright's Disease? No, it is the bright and shining marks, those who are stationed above the heads of the masses. Ask the reason of that. Go to the people who are practically exempt from Kidney Disease in its worst form, and ask them. With almost a single voice they will reply: "We cure our Kidney ailments with Dodd's Kidney Pills, and they never get a chance to develop into that terrible disease that carries so many prominent men into the grave."

ON WITH HIS WORK.

And so it is; the man who does manual labor must heal his slightest aches or they hinder him in his work. When he has backache he cures it with Dodd's Kidney Pills, and goes on with his work; when he feels a twinge of Rheumatism he drives it out of his body with Dodd's Kidney Pills, and goes on with his work. Necessity has taught him that he must cure his Kidneys to get rid of his pains, for he must work to live. He has not been educated to that standpoint where a prescription to cure must be written by a specialist at a cost of dollars to every letter. He may not even know that there never was a disease that took in all classes of the community but what nature provided a cure within the means of all classes of the community. What he does know is more to the point than all this. He knows that Dodd's Kidney Pills will cure all aches which experience has taught him come from the Kidneys. He takes Dodd's Kidney Pills, and goes on with his work.

SOME EXCEPTIONS.

Of course, there were exceptions to every rule. Even among common people there are those who neglect the early warnings of Kidney Disease. It takes exceptions to prove the rule—but many of these exceptions prove more—the more that no case of Kidney Disease is too far gone for Dodd's Kidney Pills to cure. Bright's Disease, Diabetes, Dropsy, Heart Disease—all the varied forms of Kidney

Disease in its advanced stages—have been met by Dodd's Kidney Pills, and never once has Canada's great Kidney Remedy had to admit defeat. From the Atlantic to the Pacific, and from the Great Lakes to Hudson Bay, Dodd's Kidney Pills are used, and wherever used they have triumphed over Kidney Disease in its every form. Thousands of Canadians are shouting their praises of the conqueror.

Just a few of those who have neglected the early symptoms, reached the more advanced stages of Kidney Disease, and found a cure in Dodd's Kidney Pills are given below. There are thousands of others. Ask in your own immediate neighborhood. You will not have to go far to meet men, women and children who have either ward off or cured the terror of the present age by using the old Canadian stand-by—Dodd's Kidney Pills.

BRIGHT'S DISEASE CURED.

Bright's Disease has invariably yielded to a treatment of Dodd's Kidney Pills, no matter how firm a hold it has secured on its victim. Possibly the most talked of case of recent date is that of Alice Maud Parker, of Shubenacadie, Hants Co., N. S. The full story of this case will be found in the current number of Dodd's Magazine. Herewith a short statement from the young lady's mother is appended:

Two doctors pronounced my daughter's illness Bright's Disease, and gave her up to die. Her eyelids swelled till she could hardly see; her legs from her ankles to her knees swelled. Her belt in health in health was 20 inches, when she was at her worst it was 48 inches. Then she gave up another treatment and started to take Dodd's Kidney Pills. By the time she had taken the first box I saw a change. It took a long time to bring her back to perfect health, but Dodd's Kidney Pills did it. To my daughter is in perfect health.

Mrs. T. G. Parker, Shubenacadie, Hants Co., N. S.

DIABETES CURED.

Diabetes is another of the most fearful and fatal forms of Kidney Disease that has been cured by Dodd's Kidney Pills, and by no other medicine. Among those cured of this terrible ailment is Mr. Charles Gilchrist, of fifteen years Chief of Police of Port Hope and afterwards for twenty-two years Fishery Overseer under the Dominion Government. He makes the following statement:

I was a sufferer for ten years with Diabetes and Kidney Disorder. At times my urine was of a dark brick color, and I would suffer something awful while passing. I tried doctors and medicines, but could get no help till I tried Dodd's Kidney Pills. They have made me a new man. The citizens of Port Hope all know me, and can vouch for the above.

Chas. Gilchrist, Ex-Chief Coast and Fishery Overseer, Port Hope.

HEART DISEASE CURED.

Heart Disease is a result of Kidney Disorder. Bad Kidneys mean impure blood, the action of impure blood on the heart causes Heart Disease. Dodd's Kidney Pills cure it.

I suffered for years with Heart Disease, Bright's Disease and Rheumatism. I was so feeble I was unable to do anything. There were three months I abandoned all medicines, and resolved to let myself die. Then I was led to try Dodd's Kidney Pills, and the good the first box did me surprised me. I have taken twenty courses in all, am well of my Heart Disease, my Bright's Disease and my Rheumatism.

Dame Louis Provost, St. Magloire, Que.

DROPSY CURED.

Dropsy, another disease caused by diseased Kidneys failing to do their work and remove the surplus water from the blood, is another ailment Dodd's Kidney Pills always cure. Here is an example:

I was a total wreck before I started to use Dodd's Kidney Pills. In the mornings before I got out of bed I could hardly put my feet to the floor they were so much swollen with dropsy. My arms used to swell at times so that I could not put on my coat. I had to be tapped to be relieved from my terrible pains. On the advice of a friend I started to use Dodd's Kidney Pills. Before I had finished the second box I felt much better. Seven boxes cured me completely. I don't know what it is to be sick since I used Dodd's Kidney Pills.

George Robertson, 392 St. James St., Montreal, Que.

RHEUMATISM CURED.

Rheumatism and kindred Kidney Diseases, such as Lumbago, Sciatica, and Gout, are caused by uric acid in the blood. If the Kidneys are put in working order they strain all the uric acid out of the blood, and the Rheumatism goes with it. Take the case of W. G. Cragg, of Dresden, Ont. Here is his statement:

For eight years I was troubled with inflammatory Rheumatism. I could scarcely get around to do my duties in my store. I had some of the best doctors I could get, but nothing I tried would ever give me relief. I started using Dodd's Kidney Pills and had only taken six boxes when I was completely cured.

W. G. Cragg, Ex-Rector of Dresden, Ont.

ALL KIDNEY DISEASES CURED.

These are only a few cases taken from thousands to show the efficacy of Dodd's Kidney Pills. In other forms of Kidney trouble, such as Urinary troubles, Gravel, Female Weakness, etc., Dodd's Kidney Pills have the same record. They always cure. As for pain in the back—the first symptom of Kidney trouble—ask your neighbors. You'll find the majority of them look on Pain in the Back as a danger signal, and on its first appearance safeguard themselves against this terrible fatal Kidney Disease by driving it away with the old Canadian stand-by—Dodd's Kidney Pills.
