Feat of Taming Fishes.

The problem as to whether fishes may be tamed in the state of liberty may be tamed in the state of liberty has recently been solved affirmatively by a Swiss physician, Dr. R. Fasten rath of Herisau. The doctor availed himself of a recent sojourn at the lake of Lugano to carry out some interest ing experiments in the matter. He would sit down near the shore with only his head emerging from the wa ter for fully an hour, resting his lahds on his knees' and keeping in each of them a large piece of bread which was soaked thorougaly by the water. This them a large piece of bread which was soaked thorougnly by the water. This process he carried out for some days both in the morning and the evening sitting motionless like a living statue. Whereas all the fishes had been averse to touching the bread in the begin hing, some members of the very young est broods would finally come near the doctor and pick up some of the bread but would immediately make a hur ried flight. As days went on, however, they became more confident, and the ried flight. As days went on, however, they became more confident, and the older members of the fish family would by and by follow their example until all the fishes swarmed freely around the doctor, undisturbed by his motions, enjoying the meal offered by him.
