### THE ACADIAN

WOLFVILLE, N. S., OCT. 8, 1886 CANADA AND AUSTRALIA

Australia is to held an International \*xhibition at Adelaide in June 1887. It will also partake of the nature of a ratal jubilee, South Australia being fifty years old on that occasion. Canada, which has done so well at the Colonial and Indian Exhibition this year in London, and which has awaked to the importance of securing a share of the Australian trade, will n doubt send a choice collection of her

and in fact the same can be said of the United States, is that the time is now rapidly approaching when the ignor question will take a far more active part in the politics of the country than it has done in the past, and that the question of prohibition is more and more taking firm hold on the hearts of the people. That the different term perance organizations are all taking an active part, as they should do, in this and the Scott Act as it is now carried ont in most of the places where it is in force, is also leading the public mind to think that prohibition is a measure that can be carried out to a successful issue, and that in the near future. The leading Liberal-Conservative paper in the Dominion, the Toothe total prohibition of the liquor traffic, and the Liberal-Conservative government, if they pass such a measure, will be adorning their erown with a question worthy of consideration as to

We hear the cry raised, and see by day, and completed its work by signing We hear the cry raised, and see by some portions of the press, that Nova a basis for reunion. The Independent Scotia is having a series of hard times factories shutting down, and business stagnation generally. But evidently the proprietors of the Amherst Boot & Slee Factory think otherwise. Reitish and their associates separated the proprietors of the Amherst Boot & Shoe Factory think otherwise. They have now employed one hundred and fifty hands—a larger number than they ever had before; and they are working extra time to fill their orders, The company's sales this year will amount to a quarter of a million dollars. If they had only Nova Scotia for a market for their products and were shut out of the other provinces by high duties, they would be fin a sorry plight, and that's what secession sorry plight, and that's what secession from the former that steps for the setwould do for them. The Windor tlement of the color question would best returns will be obtained from plants would do for them. The Wind or Cotton Factory, too, does not seem to share in the hard times. This mill assurances were made on behalf of the has orders ahead for gray cloths that will last until March. Forty machines, which have been idle for nearly two years, were started this week, making now two hundred and sixty machines ference was accordingly arranged, and it time to grow and form fruit growns, and now two hundred and sixty machines ference was accordingly arranged, and it time to grow and form fruit crowns, and in operation sltogether.
