### The Ideal Investment for the Citizens of Nova Scotia

INVESTMENT in this Company's Preferred Stock, which makes a yield of 7%, established by legislation, represents a dollar-for-dollar investment in actual physical property.

Under the system of accounting prescribed by the Public Utilities Commission, it is impossible for this Company to make any charge against its capital which are not legitimate capital charges. As a result, there can be no fear upon the part of the prospective investor of over-capitalization or stock-watering.

The history of this Company and its predecessors covering a period of over thirty years, shows that dividends have always been paid regularly and promptly.

Five Preferred Stock, Shares \$10 each  
Maritime Telegraph & Telephone Co., Ltd.  
Halifax, N. S.

### Children Cry for Fletcher's CASTORIA

The Kind You Have Always Bought, and which has been in use for over thirty years, has borne the signature of and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but substitutes that trade with and endanger the health of Infants and Children—especially when they need Castoria.

Castoria is a harmless substitute for Castor Oil, Purgative, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its mild action is guaranteed. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

**GENUINE CASTORIA ALWAYS**  
Bears the Signature of  
*Charles H. Fletcher*  
**In Use For Over 30 Years**

### A Contrast.

And may I say that there is a contrast between the N. Y. Star and the N. Y. Sun. The N. Y. Star is a paper of the N. Y. Sun. The N. Y. Sun is a paper of the N. Y. Star. The N. Y. Star is a paper of the N. Y. Sun. The N. Y. Sun is a paper of the N. Y. Star.

### A Pretty Thought.

Mr. Shaw believes in co-operation between employer and employee. On Friday evening, Dec. 20th, the workers of the Shaw Clay Works, Annapolis, enjoyed a dinner in the cook house at the home of the manager, Mrs. Hughes, who conducts the work of the factory. The dinner was a success and was a most enjoyable occasion in the history of the Shaw Clay Works.

### Dinner at Annapolis.

On Friday evening, Dec. 20th, the workers of the Shaw Clay Works, Annapolis, enjoyed a dinner in the cook house at the home of the manager, Mrs. Hughes, who conducts the work of the factory. The dinner was a success and was a most enjoyable occasion in the history of the Shaw Clay Works.

### Fertilizers on Old Hay Lands.

Nova Scotia farmers buy every year great quantities of fertilizers. To effect this outlay it is of the first importance that the materials used should be used to the best possible advantage. The Nova Scotia College of Agriculture has conducted a series of experiments, the results of which are very interesting and valuable.

### Glory Immortal.

Officers, non-commissioned officers, and soldiers of the Allied armies, after having resolutely barred the way to the enemy, you have for months attacked him without respite and with unwearying faith and energy. You have won the greatest battle in history and saved the west sacred cause, the liberty of the world. In proud, With glory immortal, you have advanced your flag, and posterity will ever be grateful to you.

### Had Headache For Two Years

A Harris Man Tells of Persistent Headaches and Indigestion—Finally Found His Way to Good Health.

### At the Grindstone.

Benjamin Franklin is considered to be one of the wisest men that America ever produced. He has been dead over one hundred years, but his reputation has not declined through the progress of time. Of getting and saving money he said: "A man may say he knows not how to save as he gets, keep his nose to the grindstone, there is now no use of a Canadian keeping his nose to the grindstone, for the fire-drainings plan enables him to save easily. Pay \$4.00 for a War Savings Stamp and in 1924 the Government will give \$4.00 for it. It doesn't hurt to buy a War Savings Stamp, and when you have it of them it changes them for a W.S.S."

### Don't Be Dyspeptic.

The dyspeptic has thought only of the stomach when the real source of the trouble is in the Liver, Kidneys and Bowels. Dr. Chase's Kidney-Liver Pills thoroughly cleanse and purify the digestive and excretory system and in this way put the organs of digestion into splendid working condition. A little patient urging on these organs when sluggish will restore the habit of healthful digestion.

### The Growth of Habit.

Robustness to many is almost entirely a matter of habit, the habit of taking care and the consistent use of

## SCOTT'S EMULSION

The energizing properties of Scott's have been proved in thousands of homes nearly everywhere. The habit of using Scott's Emulsion of Cod Liver Oil is a means of building up strength and increasing vitality.

### Endowment of Motherhood Saving, A National Policy.

Manchester, England, has taken a full step ahead in going ready to do its duty by the coming generation. It has held a conference on the Endowment of Motherhood and has gone much deeper than the wily sentimentalists who charge and counter-charge and counter-charge. The Conference recognized the fact that human life is worth infinitely more than that of the best institution provided that the mother has control.

### A Builder of Health.

Nothing can be of greater advantage in building up the system than Dr. Chase's Nervine Food. For this food cures nerve food, rich blood and nourishes and restores the feeble, wasted nerve cells. Regularly it builds up the body and adds vigor and energy, and you feel again the joy of living which comes only to those in good health.

### Passing Thoughts.

Besides the men who win time and those who have it thrust upon them are those who posthumously receive it from posterity. Nightingale would be terrifying if he hadn't buried faith in the next morning's sunrise. If youth had experience it would be as tiresome as old age.

### When Tears Help.

Tears are a valuable, and incidentally much abused, means of relieving nervous tension. For relief their importance cannot be over-estimated, but when they are allowed to flow to the extent of creating weakness they become a source of danger justifying heroic measures to stop. A little crying at times, is excellent and has often saved the mind of more than one woman, but the crying habit is as much of a danger to be deplored as that of taking a drug.

### The Morning Cup

well begins the day.
