

BOERS CAPTURE A CONVOY

And by a Clever Trick Burn the Wagons and Food

BUT LOSE CONSIDERABLY.

Made Another Capture of Boers—The Enemy Repulsed Trying to Cross Railway Line—Col. Steele and Canadians Disastrous—System of Blockhouses Effective.

Bloomfontein, Jan. 2.—Four hundred men of Driscoll's Scouts left Springfield on Dec. 20 with the object of clearing the country in the Philipopolis district of armed Boers. On Christmas Day the Scouts sighted a number of burghers attached to Herzog's command. When the Boers saw the Scouts they took flight. Col. Driscoll, with the greater part of his command, gave chase. The rest of the Scouts were left to guard the wagons. These were soon attacked by another body of burghers from the rear, and a stiff fight ensued. Before Col. Driscoll's main body could return to assist the escort, the Boers captured and burned the wagons and their contents, saving only the food. When the Boers saw the Scouts turned the Boers scattered. The Boers had five killed and many wounded. Eight prisoners were taken.

A commando of 400 men under Chas. Newhouse, Mank Herzog, Pretorius, and Thennissen, is now hovering in the Kaunsmith district. This force is being looked after by Weston's, Hamilton's and Driscoll's commands. While a fight was proceeding on Christmas Day between the British and Driscoll, and a Boer force, under Herzog, Commandant Newhouse, with 200 men, watched the operations from the top of Henever's kop, near Kaunsmith. His men shared in the capture of some burghers. Col. Juncosin recently captured twenty-eight prisoners near Elengburg. Of this number twenty-four, including Field Cornet Luyt, arrived here on New Year's Eve.

Major Bolton, of the Witwaters, has been appointed provost marshal of Bloomfontein, who left for Cape Town yesterday.

A force of Boers, attempted to cross the railway line between Springfield and Kuitfontein Monday night, but were repulsed by the blockhouse garrison. The Boers came from the direction of Bethlehem.

Canadians Disfatisfied. London, Jan. 2.—The Daily Express today says that letters from Canadians at the front who have joined Baden-Powell's Constabulary show that there is great dissatisfaction among the men on account of the Canadian troops being split up, making them half English and half Canadian.

It was understood when Col. Steele left Canada that he would command all of the 1,200 Canadians that went with him, but instead he was given command of B division only, one which had no Canadians in it. He was refused three Canadian troops that were in A division, and soon after, the colonel, being ordered north, transferred his resignation rather than go away with unreliable recruits. Instead of his own reliable Canadians.

One letter declares that a storm is brewing, and will come before long, and still Col. Steele and his good few of the Canadians will go back to Canada inside of six months. Col. Steele will have his own way and get control over the men from the Dominion.

The Blockhouse System. London, Jan. 2.—The Times correspondent at Pretoria, considering the efficiency of the blockhouses, states that the blockhouse lines do not keep the enemy away altogether unless they are built on the highest model, as on the Standerton-Ermelo line, about 600 yards apart, with barbed wire entanglements from end to end. A Boer prisoner brought from Standerton along this line was asked what he thought, and replied: "Well, if my last bullet had hit me, I should have to go round Ermelo to get to Standerton at wider intervals serve to locate and to intimidate the enemy. They also prevent free passage, but the Boers, if fully determined, can effect a crossing by night."

Delagoa Line Reopened. London, Jan. 2.—A Reuter despatch from Lorenzo Marques reports that an agreement has been signed there by representatives of the High Commissioner and the Governor-General of Mozambique providing for the reopening of the Delagoa line of civil traffic at the rates prevailing before the war and for the importation of natives for the mines from Portuguese territory. The agreement takes effect immediately.

Sight Restored by Lightning. London, Jan. 2.—A correspondent writes to the Natal Witness that recently a private of the York and Lancaster Regiment, stationed at Charlestown, was struck by lightning, and rendered totally blind. Three days later he was struck by another flash, and his sight was completely restored.

Plague Among Trains. Cape Town, Jan. 2.—A private of the Scots Greys, stationed at Green Point, a suburb of Cape Town, has contracted bubonic plague.

57-62 The Critical Age. Height of vigor past—nature's power slowly down, vitality less, recuperative power less. Endurance less. Stop the progress of decay, tone up the weakened nerve centres, impart vigor to the brain, prepare for the crisis. A means of remarkable potency in the renewal of decreasing vigor is found in Ferrozene. It brightens up the whole system, imparts a sense of power and strength. By the use of Ferrozene old age is pushed back 20 years. Ferrozene gives strength, vigor, endurance, vim. Your druggist has it. Get a box to-day. Price 50c.

REVOLUTION CRUSHED.

Castro Wins Fernandez Defeated and Pioltri Prisoner.

New York, Jan. 2.—The Yarevela Cosmopolitan in this city today received the following cablegram: "Caracas, Jan. 1.—Fernandez defeated. Pioltri prisoner. Revolution crushed. (Signed) 'Castro.'"

(Signed) "Castro."

THE SOCIALIST CONVENTION.

Prussia's Treatment of the Poles and the Boer War.

London, Jan. 2.—The International Convention of Socialists, says the Brussels correspondent of the Times, has denounced the Germanization of Poland in Prussia. Barbarous methods are alleged, and the resolution points out the hypocrisy and duplicity of the governing classes, who show indignation at British barbarism in South Africa, and yet approve and encourage the scandalous oppression of the Poles. The latter are exhorted to seek protection and economic independence in social democracy.

The South African war, Argentinian laws, French Caesarism, and the American trusts are equally denounced in the convention, and the inadequacy of trades unionism in England as a social force is deplored.

A NORTHWEST BIG BLAZE.

Very D'strous Fire Ravages Portage la Prairie.

Portage la Prairie, Man., Jan. 2. 3.30 a. m.—The most terrible fire for many years is raging at this hour. The blaze originated in the cellar of the Grand Central Hotel, on Saskatchewan avenue east at 230 a. m., and although the brigade responded quickly, the flames, fanned by the high northwest wind, became uncontrollable, and in a few minutes the building adjoining the hotel to the east, occupied by A. W. Bailey, harness and shoe-maker, was enveloped in the very same, and the confectory store of J. Costigan was almost immediately afterwards within the flame. The fourth store east, the brick block of C. Newman and Bros., wholesale liquor store on the corner, was next attacked by the flames.

LOSS WILL BE ABOUT \$60,000.

Portage la Prairie, Man., Jan. 2. 3.30 a. m.—The most terrible fire for many years is raging at this hour. The blaze originated in the cellar of the Grand Central Hotel, on Saskatchewan avenue east at 230 a. m., and although the brigade responded quickly, the flames, fanned by the high northwest wind, became uncontrollable, and in a few minutes the building adjoining the hotel to the east, occupied by A. W. Bailey, harness and shoe-maker, was enveloped in the very same, and the confectory store of J. Costigan was almost immediately afterwards within the flame. The fourth store east, the brick block of C. Newman and Bros., wholesale liquor store on the corner, was next attacked by the flames.

To the left of the Grand Central, in the opposite direction to which the wind was blowing, were several large buildings, and these also began to burn. The building and construction rooms of H. G. Alton were the first to take fire, and several smaller stores followed, including George Hart's tailor and repair shop, a vacant shop next it, Miller's barber shop, and the premises of J. S. Tovey, photographer, are now burning.

J. Ward, who is in charge of the Grand Central Hotel, and the residence of the proprietor, Mr. Fitzgerald, who is in the East, had his home and hands burned. He was faint when being taken from the burning building. It was with difficulty Mr. Ward got out his personal effects.

The loss is estimated at about \$60,000.

SWEET CAPORAL CIGARETTES.

MARCONI'S SCHEMES.

Ottawa, Jan. 2.—Signor Marconi is still in the city, and does not expect to leave for two or three days yet. He has been visiting the Minister individually, but has had no formal interview with the Cabinet. Signor Marconi has been favored with a second invitation to dine at Government House to-morrow evening. The young inventor is not enamored with the idea of leaving a station for transatlantic messages in cable, but expects, as already stated, to establish one at Cape Breton, which will cost between \$60,000 and \$70,000. Asked to-day why wireless telegraphy was just as practicable on land as on sea, Signor Marconi replied in the affirmative, but explained that on land more power was required. He stated that wireless telegraphy was being introduced in the Congo, where messages would be sent for a distance of one hundred miles.

GIFTS FOR MISS BRODIE.

Grimsby Young Lady Gets an Address and a Gold Watch.

Grimsby, Jan. 2.—A company of townspeople assembled last evening at the house of Mr. James Brodie, Town Clerk, and presented Miss Brodie with an address and a beautiful gold watch. For thirteen years Miss Wilens Brodie has been associated with Mr. L. Woolton, as assistant secretary-treasurer of the Ontario Fruitgrowers' Association, and now that Mr. G. C. Greenman has been made secretary-treasurer, Miss Brodie's duties will be removed to the Parliament buildings, Toronto. The young lady's excellent musical ability, so generally acknowledged, has all combined to win for her the highest esteem of the townfolk.

Mr. J. U. Drown was nominated for the Commons by the Liberals at the St. James' division of Montreal.

PRINCESS CHIMAY'S TIRED

OF RIGO'S TATTOOED PICTURE.

Paris, Jan. 2.—Princess Chimay is not dead. She is not dying. The only thing dyed in her hair, which is now a jet black, while formerly it was a golden blonde, she is not growing fat, she is not sinking in health. She on a regimen which is rapidly reducing her proportions to the same graceful outlines familiar to all the world who have known her through the medium of the Paris photographs.

The gay Princess is staying at the Terminus Hotel, which is one of the most expensive in Paris, and there she has a suite of rooms and Rigo. The Princess has come here for rest. Egypt was?

Too Much for Her Nerves, and the soft lassitude of eastern climes was causing her to lose the classic lines of beauty. And so, ere yet too late, she has fled to this bracing capital and entered upon a course of anti-fat.

Charming as ever, polished in manner, with the air of a grande dame and the voice of a queen, kind, solicitous, authoritative, in turn—the Princess remains true to Janzi, and the quiet domesticity of her society sheds the same warm radiance and corruption that she met with in the circles of kings. She is staying in Paris all the winter, beyond a daily constitutional she is rarely to be seen in the street. It was at Barnum & Bailey's, in the box of a New York journalist, that I beheld her again, beaming on the multitude of the loved one.

Rigo's Picture on Her Arm. In the first wild intoxication of her love for Rigo she had his image imprinted indelibly near her heart—in other words, she had Rigo's portrait tattooed on her left arm. And now, tell it not to Janzi, she has become tired of this pictorial token, which amongst other things, prevents her from wearing an evening dress, and she is undergoing a course of treatment which will gradually obliterate the features of the loved one.

Rigo has the portrait of the Princess tattooed on his left forearm. It is the most wonderful piece of tattooing work ever performed by the accomplished artist who undertook it, and looks like a miniature printed on vellum. The Princess, however, of her own work, and it is said that he has made arrangements to secure Rigo's arm after his death. The Princess, however, of her own work, and it is said that he has made arrangements to secure Rigo's arm after his death. The Princess, however, of her own work, and it is said that he has made arrangements to secure Rigo's arm after his death.

BELOUGO IN CONGO.

Conditions in Congo State a Disgrace to Civilization.

London, Jan. 2.—Capt. Jay Burrows, who has just retired from the employ of the Congo Free State Government after six years' service, declared, in an interview to-day, that the conditions prevailing in the Congo Free State were a disgrace to civilization, and far worse than ever before. He pictured atrocities and the most horrible character perpetrated on the natives by officials and whites who had concessions of rubber lands. As a typical case of the means employed by the Free State Government, Capt. Burrows corroborated the statement of a missionary, a missionary, to the effect that the officials employed five hundred cannibals, to whom they issued rifles, to "massacre and capture unwarmed natives who had rebelled against their brutal methods."

"I have sworn testimony," said Burrows, "of the Belgians, handing over natives to cannibal tribes for the express purpose of being eaten. Forced labor prevails everywhere, and shot-gun rule is the trust of the present administration. The companies deriving wealth from the collection of rubber are all more or less State enterprises, as a third or half the shares in them are invariably held by the government."

The King Leopold, who the Government have made some show of action against the agents of some of the Upper Congo companies, but only small results are over to be seen. The so-called reforms are merely intended to dust in the eyes of the public, and indignation has been kindled by the stories of the reign of terror. While the present systems for the collection of rubber and the recruitment of natives continue the Congo Free State is a main disgrace to the white man's work in Africa."

PONTIFICAL COMMISSION.

Will Consider All Questions Connected With Biblical Studies.

London, Jan. 2.—The Tablet announces as a matter of the profound interest to the whole Christian world that the Pope has appointed a special Pontifical Commission to consider all questions connected with Biblical studies. Catholic scholars throughout the world will have the fullest opportunity of stating their views and difficulties, bringing them to the direct notice of the Holy See. Cardinal Perron, dean of the Sorbonne, is president of the commission, and Cardinal Segna, prefect of the Vatican Archives, and Cardinal Vives y Toste are assessors. There will be 11 consultants chosen from different countries.

WESTERN LAND SALES.

C.P.R. Estimates Total for the Year 40,000 Acres.

Montreal, Jan. 2.—The Canadian Pacific Land Department estimate that their sales in 1901 will total 40,000 acres, representing \$2,700,000, and representing the figure of the story of the Department. The Canadian Northwest Company sales have also been exceptionally high, and the annual statement will show that the company has disposed of over 100,000 acres.

The rush of American land agents into the Canadian Northwest continues. These men are securing large tracts, which they are selling in Illinois, North Dakota, Michigan, and the Western States in farm lots to intending settlers.

Alex. Gibson's Majority.

Frederick, N. B., Jan. 2.—Alex. Gibson was officially declared elected M. P. for York to-day by a majority of 824 over Rev. Dr. McLeod.

A committee of Cleveland bankers has taken charge of the properties owned and controlled by the Everett Moore syndicate, including many electric railways and telephone lines.

It is reported that the Manitoba Government contemplates adopting the Gothenburg system in preference to the prohibition law.

Saves Others.

When one of the children has diphtheria, scarlet fever, or measles, why not keep the others from having it? You can do so with our Vapo-Cresoline. Put some Cresoline in the vaporizer, light the lamp beneath, and have them breathe in the vapor. This vapor destroys all the germs of disease. The contagion can't spread—you save others. It is the only known specific for whooping-cough. Ask your doctor about Vapo-Cresoline.

Vapo-Cresoline is sold by druggists everywhere. A Vapo-Cresoline outfit, including the Vaporizer and Lamp, which should last a lifetime, and a bottle of Cresoline, complete, \$1.50; extra supplies of Cresoline 25 cents and 50 cents. Illustrated booklet containing physicians' testimonials free upon request. Vapo-Cresoline Co., 100 Fulton St., New York, U.S.A.

IN DEATH UNITED.

Aged Wife "Shipped Away" to Join Her Mate.

New York, Jan. 2.—Through shock, brought on by the sudden death of his favorite niece, and exposure in rushing to her bedside, John P. Hillard, of No. 222 West Twenty-second street, died Monday of pneumonia, and his wife, Margaret, when informed of her husband's death, became semi-unconscious, lingered a few hours and died the next day.

"It was one of the most pitiful and yet beautiful things that I have ever seen in my long medical experience," said Dr. Willard H. Rogers, of No. 225 West Twenty-second street, when speaking of Mr. and Mrs. Hillard's death, upon each other. Never have I seen such a loving couple, ever thinking of each other's wants and comforts. "When Mr. Hillard died on Monday, Mrs. Hillard, after the first burst of grief, lapsed into a semi-comatose state, from which, despite all our efforts, we could not rouse her. She simply slipped away. She wanted to die, for when I tried to give her stimulants she shook her head and had to force whiskey down her throat. "As they lie side by side now in their coffins each face wears a contented smile."

Many friends of Mr. and Mrs. Hillard died yesterday that their aged wife, who was looking for her husband, had been much abated when they heard that his wife, so dependent upon him, had not been left alone.

OH, THOSE OLD GIRLS.

Dr. Vann Objects to Army of Wrinkled Dames.

Wellington, Jan. 2.—The new factories act proves rather difficult to carry out. Former factories acts, while taking charge of the sanitation and guarding machinery in all factories, only interfered with the working hours and wages of women and boys. The new act fixes a 48-hour week, and the minimum rate for overtime, and how the matter is to be kept in hand it is difficult to say so far as inspection goes.

WHO SEEK TO MARRY HIM?

Goshen, N. Y., Jan. 3.—Dr. James Nicholas Vann, who is looking for his fourteenth wife, is so bothered by lonely women who want to marry him on the spot that he is becoming a bit of a prey. I shall greet them as such.

Dr. Vann was a famous hunter at one time and devoted years to the capture of wild animals for Dr. Rice, the circus man.

Dr. Vann was attired as usual in a silk tie and frock coat to-day, as he stood in the midst of his preparations to repel invaders. He is a little man, wiry and nervous, but very humble despite his ninety-four years. His skin is tanned and darkened by the sun's many summers. His armament consists of many deadly weapons, which he used in his career as a hunter. The gun boots are for wading through the mud. The doctor thinks his determined attitude will scare away all the old girls.

"My first twelve wives were fair and lovely women, and are undoubtedly now with the angels," said Dr. Vann. "The gun boots are for wading through the mud. The doctor thinks his determined attitude will scare away all the old girls."

ANGRY AT BISHOP POTTER.

W. C. T. U. Woman Classes Him With Salfon Men.

Chicago, Jan. 3.—Bishop Potter has stirred to wrath the national officers of the W.C.T.U. by his address before the Church Club of New York, on Monday evening, when he declared that prohibition in farm lots was false, and that prohibition had produced a race of hypocrites.

Mrs. Clara Hoffman, of Missouri, who is now at Rest Cottage, Evanston, at times denounces the temperance organization, acting as spokesman for the officers of the organization, declared that Bishop Potter had placed himself on a level with saloon imbibers. Mrs. Hoffman, who recently made a stir by declaring that women were doormats and dishwashers of church affairs, said:

"Bishop Potter has arrayed himself with the saloon element. When he opposes prohibition he takes the part of the rummer, and places himself on a level with the people of the saloon, which he champions. There is a Sunday closing law in New York, and when he opposes Sunday closing, as he did in his address, he becomes a lawbreaker as well as an equal of the criminal who frequents the saloon."

MISS STONE RELEASED?

Unconfirmed Story in Sofia—Secrecy Demanded by Brigands.

London, Jan. 3.—The Sofia correspondent of the Daily Telegraph has cabled an unconfirmed rumor to the effect that Miss Stone and Mrs. Tulk were liberated in Turkey on Jan. 1st, and that the Americans who conducted the negotiations releasing them had agreed to maintain absolute silence concerning the capture. If this promise is broken, the correspondent, vengeance will be wreaked on the American mission.

NEW FACTORIES ACT.

New Zealand Law Will be Hard to Carry into Effect.

Wellington, Jan. 2.—The new factories act proves rather difficult to carry out. Former factories acts, while taking charge of the sanitation and guarding machinery in all factories, only interfered with the working hours and wages of women and boys. The new act fixes a 48-hour week, and the minimum rate for overtime, and how the matter is to be kept in hand it is difficult to say so far as inspection goes.

The rule used to be that before overtime could be worked by the women and boys an inspector had to give written permission, and the permit was hung up in the workroom, so a check on the number of hours worked was thus created. The overtime of men cannot be treated in this way, as in the rural districts the working places are so many miles away from an inspector, so that trust will have to be placed in the employers' overtime books, and many a squabble there will be over them.

Deaths in St. Catharines.

St. Catharines, Jan. 2.—Storrs Robinson, who was perhaps one of the best known men in the district, died here Monday night of pneumonia. He was 71 years of age, and had lived here 65 years.

Eliza Berkaw, aged 98, died at her residence here yesterday.

Deceased was born in Lunenburg, N. Y. She leaves 13 grandchildren, 23 great-grandchildren and one great-great-grandchild.

Eczema's Itch Is Torture

The Most Exasperating of All Skin Diseases—The Most Difficult to Cure—Dr. Chase's Ointment Proven to be an Effective Treatment.

Eczema's itch is torture, the skin seems on fire with the burning, stinging humors; at times it became almost unbearable, and in desperation you could tear the skin to pieces. You dare not exercise for fear of aggravating the itching, neither can you sleep, for no sooner does the body become warm than the trouble begins and instead of restful, refreshing sleep, it is scratch, scratch, scratch, all night long. There is scarcely a moment's respite from this maddening malady at any time. Of course you have tried nearly all the washes, salves, lotions and medicated soaps, but like thousands of others, have been disappointed and disgusted.

Mrs. Ann McDonald, Kingsville, Ont., states: "For about three years I have been a dreadful sufferer from Eczema. At times the patches of raw, itching flesh would extend from my waist to my neck and from the knees to the ankles. The intense itching almost drove me crazy and though I tried all the local physicians, they could not even relieve the suffering. The flesh would crack open, and I don't believe anyone ever suffered more than I did."

"I was told of Dr. Chase's Ointment, but did not believe that it could help me. After the fifth application of this preparation I began to feel the benefit of its soothing, healing effects, and now attribute a cure to the use of this preparation. It is truly 'worth its weight in gold,' and I never tire of recommending it to other sufferers."

You may be skeptical regarding the ability of Dr. Chase's Ointment to cure you. Most people are, after trying in vain to get relief from a host of remedies, but Dr. Chase's Ointment will not disappoint you. You will be surprised at the marvelous control which it has over all itching, burning inflammation of the skin, and the various eruptions of the skin.

Every home for every form of skin irritation and eruption, chapped skin and chilblains, 60 cents a box, at all dealers, or Edmonson, Bates & Co., Toronto.

FOR TUBERCULOSIS PATIENTS

Money Given the King to Build a Consumptive Sanatorium.

London, Jan. 2.—The British Medical Journal announces that £200,000 has been placed at the disposal of King Edward for charitable or philanthropic purposes by a philanthropist who does not wish to have his name published. The money will be devoted to the erection of a sanatorium for tuberculous patients in England. This institution will accommodate 50 male and the same number of female patients. Twelve of the beds will be reserved for wealthy patients who are able to pay for treatment. The special beds will be for poor persons, who will be expected to contribute a small amount. The King has approved of an expenditure of £200,000 out of this fund in prizes for the best essays and plans for a model sanatorium. In furtherance of the plan, King Edward has appointed an Advisory Committee. Sir William Henry Broadbent, Sir Richard Douglas Powell, formerly physicians-in-ordinary to the Queen; Sir Herman Weber, of the Royal College of Physicians; Sir Francis Henry Laking, Household Surgeon; and Charles Theodore Williams, consulting physician to the Hospital for Consumptives at Brompton, and President of the Royal Meteorological Society.

The Daily Mail asserts that Sir Ernest Cassell, a merchant, is the donor of the money.

The Daily Telegraph says that Dr. Broadbent states that the open-air treatment will be followed. The scheme, he adds, is based on that treatment, which is unique and the most efficacious known in all cases of consumption.

DUELING IS A NECESSITY.

Hungarian Statesman Favors its Continuance.
