A REMARKABLE **STATEMENT**

Mrs. Sheldon Spent \$1900 for Treatment Without Bene-fit. Finally Made Well by Lydia E. Pinkham's Vegetable Compound.

Compound made her well, so I took it and now I am just as well as I ever was. I cannot understand why women don't see how much pain and suffering they would escape by taking your medicine. I cannot praise it enough for it saved my life and kept me from the Insane Hospital.'—Mrs. E. SHELDON, 5657 S. Halsted St., Englewood, Ill.

Physicians undoubtedly did their best, battled with this case steadily and could do no more, but often the most scientific treatment is surpassed by the medicinal properties of the good old fashioned roots and herbs contained in Lydia E. Pinkham's Vegetable Compound.

If any complication exists it

If any complication exists it pays to write the Lydia E. Pink-ham Medicine Co., Lynn, Mass., for special free advice.

in this land of

Nature lovers mourn the passing of wild life under the iron heef of industrial progress and the product concern of these lovers of order of life would certainly be justified if there were no national reserves within the broad Dominion.

Among the most popular of these glorious national heritages of the people is the Algonquin Provincial Park, 1.754.473 acres in extent, situated two thousand feet above the level of the sea, up in the "Highlands of Ontario." This lovely region, set apart by the Ontario Government in 1892, remains today unspolled, a perfect refuge for the creatures of the forest, and an ideal pleasure-ground for the people.

It is almost impossible to walk for half an hour from any of the campeor hotels without seeing one or more deer, or coming across a beaver dam or other evidence of the existence of wild things.

At the time this territory was set aside for a breeding ground and preserve, all kinds of fur-bearing animals in this section had become almost extect. Today they have not only filled boundaries this live was a overrun its being sen now well where well and the park there is undistant. It is estimated that the increase in beaver for 1916 will be several thousands. Other fur-bearing animals have increased in proportion, and a number of peits of beaver and other animals are now being taken out annually without any apparent decrease in heier numbers. It is expected that a considerable revenue will be resulted a considerable revenue will be presulted by the Ontario Government in the future from the source.

Included among the fur-bearing saminals to be found in the park, bethough the decrease of the constitution of mounted specimens of the proposition of mounted specimens will seminal to be found in the park, bethe constitution of the park in the sure

Algonquin Park

since the wild creatures are much more approachable than in localities where they are persistently hunted. To the excellence of the fishing to be enjoyed in the park there is undisputed testimony. Fish caught in the waters of the park have won each year many of the national competitions open to the anglers of the continent.

At the Park Headquarters, at Algonquin Park Station, there is a private collection of mounted specimens of animals and birds that represent an the fur-bearing animals and feathered denizens in this section, and war always glad to have visitors call in and study them during the summer some fliving specimens will generally be found in the large house erected for the purpose at headquarters by the Government.

The accommodation in the park is such that the most varied tastes can be pleased. There are hotsis for those who want to be in the wilder-

6000 Canadians Fell in a Week

In presenting the clors to the 77th Regiment in Ottawa last Thursday. General Sir Sam Hughes made the statement that within a week upwards of six thousand Canadians have been killed or wounded.

Anglicans Favor Conscription

Amid vociferous cheering, fcllowed by the singing of God Save the King, the Anglican synod of Toronto diocese on the 8th instant, endorsed a resolution involving conscription in

NEEDS NO PAINTING

Amatite stands alone in the ready roofing world. It is the one roofing you don't have to paint. Once laid, it will last for years without any attention from you. For sidings and steep roofs it is supreme. If you could only see how it is made—see the tough, fibrous felf, the dense, non-volatile saturating compound that keeps it water-tight, you would understand our claims. Try some.

A Roofing Triumph The durability of Amatite is only one of its fine points. The same structural feature which makes it unnecessary to paint Amatite, the same structural feature which makes it unnecessary to paint Amatite, put appearance of any appearance, mineral surface. In-proves the appearance of any building. The best billy in the ready roofing market.

WHAT HE MEANS BY MACHREE The Springfied Republican recently rinted the following lines, no menion being made of the author:

Pray come and interpret this Gaelic And tell what an Irishman means b

"Machree." What an Irishman means by "Ma chree?"

'Tis the white of the day. And the warmth of the sun The ripple of waters that laughingly

The sweet bloom of youth, And the harvest of years; The gold of all smiles, and the salt of all tears.

'Tis the thrill of the hand. And the light of the eye, The glow to the cheek, and the lips

parting cry; 'Tis father, 'tis mother, 'Tis brother or wife,

e music of woman's the wine of man's life. 'Tis all that he lives for,

And hopes for above. Tis an Irishman's heartm aking vo cal his love,

Tis the whole of creation One isle in the sea; And that's what an Irishman means

by "Machree What an Irishman means by "Ma chree!

Clean to handle. Sold by all Drug-gists, Grocers and General Stores.
