

PREMIER SAYS REPORT IS FALSE

Quebec, Oct. 11.—The Quebec Telegraph today says that the much debated regulation xv11, which for years has been the subject of polemics between Quebec and Ontario will be repealed with in a year, according to Premier Veniot's declaration made last evening at the Reform Club, in connection with a conversation he stated he had had here with Premier Howard Ferguson, of Ontario.

"I am convinced that Hon. Mr. Ferguson with whom I discussed the Ontario situation for French Canadians was sincere and as long as he was I am sure that within a year regulation xv11 will have been repealed. What he told me was very satisfactory. So the French Canadian children in Ontario will be able to learn French in schools as they do in old Quebec."

Referring to liquor legislation, Premier Veniot stated that he was in favor of adopting the system in force in Quebec.

"I believe we will soon have in N. B. the control of liquor by the state and that we will create a liquor commission as exists in Quebec province," he said.

Premier's Important Announcement.

A special dispatch to The Telegraph-Journal in reporting Premier Veniot's speech, said:

"Another important announcement made was that the province of N. B. was preparing to adopt liquor legislation similar to that in force in this province.

"I had, this evening, a chat with Mr. Ferguson and what he told me greatly pleased me, Veniot

said. If he is sincere, and I am convinced he is, within a year there will be no regulation xv11, in Ont. and the French-Canadian will be allowed to learn their language as they do in old Quebec.

Regarding the liquor question Mr. Veniot stated: "What we intend to do in N. B. is to adopt the policy in force in Quebec and permit and regulate the sale of liquor and create a liquor commission."

Premier Denies State

Premier Veniot in a telegram to The Telegraph-Journal last night in connection with his reported statement, at Quebec, carried by the Canadian Press and published yesterday, said: "The press despatch from Quebec quoting me as saying that in a speech before the Reform Club I favored Quebec liquor law for N. B., is absolutely false and without any foundation, whatever. The only reference made by me at that meeting to liquor law was to the 'wet condition' existing there.

"Prohibition in N. B. was not discussed by me in private or public. The statement in the despatch touching regulation seventeen of Ont. school law is equally false. I discussed informally with Premier Ferguson the question of teaching French in schools generally, but he never pronounced himself to me on the

regulation in question. I was very much impressed by his broadness of view touching the relations that should exist between English and French people in Canada and when I spoke at the Reform Club I felt it my duty to refer to his attitude in this respect.

"I said nothing that could be interpreted as referring to the Ontario school question, much less the repeal of regulation seventeen. I entirely refused to give interviews on any subject while in Montreal or Quebec city. (Sgd.) "P. J. VENIOT."

Thanksgiving Turkeys To Vanish In 30 Years

Chicago, Oct. 8.—Twenty years hence—thirty at most—there will be no turkey for Thanksgiving dinners, no white meat for guests no drumsticks and gizzards for little Willie and no neck and wings for mother nothing but a papier mache gobbler for a centerpiece.

This gloomy picture was drawn by delegates to the National Poultry, Butter and Egg Association, which opened to-day. It is pointed out that in the East and Midwest states, turkey production has fallen off 50 per cent since the war, and in Texas, the chief source of the Thanksgiving bird, the ranches are being cut up into small parcels.

The chief hope of the United States for the few remaining years of turkey meat, lies in New Zealand, Austria and the British Isles

BEWARE OF ACCIDENTS

Every season seems to have its distinct type of danger. Now that the hunting season is upon us we must expect to hear of shooting accidents. The most that can be hoped for will be that hunters will make a firm resolve to exercise every precaution against accidents. There will be tragedy enough at the best.

KEEP THEM WORKING

Kendall's Spavin Treatment is the old reliable, safe remedy for all cases of spavin, splints, curbs, ringbones, hony growth and lameness from other causes. It keeps the horse working—no holding. What it has done for others, it will do for you. Keep a bottle of Kendall's Spavin Treatment handy as you use it equally when the need arises. A bottle only save a horse for you. It's worth while to be ready. Ask your dealer the next time you are in town. Your subscription must be renewed you. Hold everywhere. Get a free copy of "A Treatise on the Horse" at your druggist's, or write us. "Kendall's" for horse treatment also "Kendall's" for human use.

GEOGRAPHY TAKES NEW IMPORTANCE

London, Oct. 6.—Geography has assumed a rapidly increasing importance in connection with commerce and science in recent years and now raphy in Manchester University. Geo. there is in honor school for geography ranks accordingly with other subjects in which one may specialize in the faculty of arts and possibly graduate with honors, and for those university students who do not wish courses of instruction in geography to specialize in the subject there are connections with the courses for the ordinary degree of B. A. For the needs of commerce students the university authorities have provided a special one-year course in geography.

Emphasis is placed by the prospectus of the new school in the commercial value of its courses in geography. It states that there is a steady recognition that in these days it is advisable to send out into foreign fields, either as traders, administrators or missionaries, only those who have the geographical knowledge of the region or whose training permits them readily to acquire it. Business houses with foreign connections, following the lead of the United States and Germany, are finding that it is essential that those who occupy posts of responsibility should, in addition to their technical knowledge, have a sound knowledge of the area with which they do business and to which periodically, it is desirable to send representatives.

BETTER REMEDY THAN INSULIN

Dr. F. G. Banting, discoverer of insulin, will within the next few weeks announce another discovery of even greater importance than the diabetes cure, Hon. Dr. Forbes Godfrey, minister of health for Ontario, announced at a dinner of medical men.

Hon. Dr. Godfrey said that he was not at liberty to say anything further on the matter. He had conferred confidentially with Dr. Banting.

"Dr Banting is a real genius," said the speaker. "He has now something better than insulin to offer the world. It is a marvelous thing, but I am not at liberty to make further mention of it. Dr. Banting has about completed work on his discovery and announcement will be made very soon."

MANY KILLED AND HURT AT CROSSINGS

Seventy-three persons were killed and 223 were injured in railroad crossing accidents in Canada last year. Of the total of 183 accidents, automobiles suffered in 109 cases, horses and rigs in 46, and pedestrians in 28. In the past five years 9,101 persons were killed on railroad crossings in the United States and 24,208 were injured. Fully ninety percent of these accidents were avoidable.

The above facts and figures were provided by George A. Kell, Toronto safety engineer of the Canadian National Railways. In a paper read before the Canadian Railway Club he advocated elimination of reckless drivers of automobiles by withdrawal of drivers licenses.

Mother and Her Baby Are Relieved of Eczema

Mrs. Peter A. Palmer, Salt Burn, Sask., writes: "Dr. Chase's Ointment has completely relieved me of eczema and piles. I also used this Ointment for my baby, who broke out in eczema. A few applications were all that was necessary in her case. Dr. Chase's Ointment has been worth a hundred dollars to me—before using it I had spent a great deal more than that in unsuccessful treatment from doctors. We have also used Dr. Chase's other medicines, the Nerve Food having restored my health after suffering from severe nerve trouble when a girl."
