FIRE RAZES BARN AT SUNNY CORNER

Fire said to have been caused by sparks from the kitchen chimney Monday destroyed the barn of Robert Nowlan, of Sunny Corner. All the contents including 2 1/2 tons hay, oats furniture, hens and chickens were burned.

The loss, supposed to be about \$1,000, is partly covered by insurance. An adjoining barn belonging to Mrs. Walter Matchette caught several times but was extinguished by neighbors.

RIDEOUT AFTER THE POSITION OF CHIEF INSPECTOR

George Rideout of Moncton, formerly Chief of Police in that city, and also connected with police work in Fredericton and other towns in the Maritime Provinces has announced himself an applicant for the office of Chief Inspector under the Prohibition Act, at present held by J. B. Hawthorne, High Sheriff of York.

The advent of a new provincial government is expected to create a vacancy in that office.

William H. Finley, of Fredericton, now with the C. N. R., formerly chief of police, and prior to that on the police forces of Newcastle and Saint John, also is mentioned in connection with the chief inspectorship under the new government.

In connection with the administration of the Prohibition Act under the new government the report is current that a change in the system of distribution will be made, a warehouse being established in Saint John from which distribution will take place. Present distribution is from the liquor commission headquarters in Queen street barracks. One report is that the Saint John warehouse is to be an addition to the commission's headquarters.

PREMIER DENIES REPORT

Premier Veniot emphatically denied a Fredericton report that he proposed to retire from provincial politics. He specifically repudiated the suggestion that he proposed to enter the federal field also, concerning the allegation that he had ambition to become Senator. Dr. Veniot stated that he would continue to represent Gloucester in the provincial parliament, that the next session of the legislature would undoubtedly prove a most interesting one and that the Liberal party is still strong and important factor in the affairs of New Brunswick.

N. B. LUMBERMEN HOLD MEETING

The lumbermen of New Brunswick met at Douglastown on Tuesday in conference as to ways and means they can best adopt to not only carry on but if at all possible, increase operations in order to give employment and assist in restoring prosperity to the province. The consensus of opinion was that it was absolutely necessary to obtain relief from the present heavy taxation now in force, in order to be able to secure the necessary banking accommodation to carry on their operations. Further, it was the unanimous opinion that under present conditions it is not possible to increase operations in any way, or even to continue making lumber with the unfavorable competition now facing the industry in this province. A committee was appointed to deal with the stumpage and other dues, and report back to a later meeting of the Association.

It was moved by W. B. Snowball, N. P., seconded by Richard O'Leary, and carried:-

Resolved, That in the opinion of the New Brunswick Lumbermen's Association, all goods and supplies required in the production of logs, lumber, paper, pulp, and other wood products should preferably be the manufacture of the Province of New Brunswick and purchased from New Brunswick dealers, and failing this should be of Canadian manufacture.

ELECTION DATE MAY BE NAMED AT NORTH YORK

L'Action Catholique states that the feeling in political circles is that Premier King will announce the date on which Parliament will be dissolved at the big meeting to be held at Richmond Hill, in North York, on September 5. The paper also states that the federal cabinet will sit this week, but at this meeting a final decision will be reached regarding the election date. It looks more and more certain, states L'Action Catholique, that the people will go to the polls in the last week of October.

In announcing the dissolution of Parliament, Premier King will issue a manifesto, in which he will hold out as his principle plank the amalgamation of Canada's railroads, which will mean a reduction of \$50,000,000 in the cost of railroad administration, and will permit a similar reduction in the taxes, which are burdening the ratepayers of Canada. The railroads and the question of the tariff will be the two principal problems before the electors in the campaign, L'Action Catholique concludes.

TRAFFIC EXPERT APPOINTED FOR THE MARITIMES

A. P. Paterson, chairman of the committee appointed at the Maritime Conference in Moncton to prepare the case for the Maritime Provinces in connection with the hearing on freight rates before the Board of Railway Commissioners, has announced that the services of F. C. Cornell, Montreal, had been secured to prepare the brief for these provinces.

A meeting of the committee was held recently in Moncton at which the Halifax and Saint John members of the committee met Mr. Cornell and talked over the matter with him but a definite engagement was not made until the approval of the Prince Edward Island government had been secured. This has come to hand and the chairman wired Mr. Cornell to begin his duties.

He will prepare the brief and in doing so will act with an advisory committee composed of the leading freight rate experts in the Dominion. Mr. Cornell is one of the leading traffic men in Canada and is one of the men called in as an expert during the Peterson hearing.
