The reported change of steamers on the Charlottetown-Pictou and Summerside -Point du Chene routes has proved true. Monday morning the Northumberland began work on the former and the St. Lawrence on the latter route, a change which will continue till the close of navigation.

A few days ago, says the Sackville Post, Hon. Senator Botsford received a request from the bank of Montreal to send a check for two cents, which has been standing in the bank's book to his debit since March 1872, nearly twenty years, and had figured in every monthly balance statement since that date.

The stiff breeze blowing at Summerside, Friday, caused the bark Charles E. Lefurgy, to break her forward moorings, and carry about 100 feet of the woodwork of the Railway wharf,where she is loading, away with her. It was found impossible to moor her safely again until nightfall, when the breeze subsided.

The steamer Worcester, which has plied between this port and Boston, for a number of years has been sold to the Diamond Mail S. S. Co. The steamer is to be refitted, so as to admit of greater freight accommodation, and when finished will run between Boston and Hayti. Capt. Z. It is sincerely hoped that the unfeandly scoundrels who twice raided the residence of Mrs. Artemas Sims, St. Peter's Road, and on one the last occasion tried to fire the premises, will be speedily brought to justice. Of late the family has been living in a constant state of dread, lest their house should be fired while they slept, and a watch has to be kept. Mrs. Sims has offered by offer a reward of $100, a notice of which appears in another column, for any information that will lead to the arrest of the perpetrators of the outrages. Such a state of affairs in the community is appalling; and in the event of the rascals being apprehended, may the most stringent measure of the law be meted out to them.

## THE WORLD OF SPORT.

### THE TURF.

According to the last census there are 13,000,000 horses in the United States.

Belle Bird's (yearling) world's record of 2.26½ was broken at Brooklyn, Cal., on the 26th ult., by the 2-year-old filly, by Sidney, 2.19½, who covered the mile in 2.26. She finished the last quarter in 35 seconds, a mark previous Fron Fron made her first record—2.41.

Fausto, another yearling by Sidney, paced a mile in 2.25¾, beating her weight's record, of 2.25½, made on the previous Saturday. The horse was sent over the course again on Saturday last, and covered the mile in 2.22¾.

C. W. Williams has made public the conditions of a trotting meet he intends holding at Independence, Ia., from August 22nd to September 3rd, 1892. He offers $200,000 in purses. Instead of the 10 per cent. entrance fee, the amount is reduced under the different classes to one-half of 1 per cent. up to 5 per cent. There is to be a $10,000 stake every day, and some day during the meeting there will be a $20,000 stake, without entrance fee, open to all stallions.

The following are all the drivers that have succeeded in giving two or more trotters to the 2.15 list, the two records: Budd Doble, four—Nancy Hanks, 2.09, Dolmarch 2.14½, Jack 2.12½ and Goldsmith Maid 2.14; Orrin Hickok, three—Stamboul 2.11, St. Julien 2.11½, Arab 2.18 and Balkan 2.15; C. W. Williams, three—Allerton 2.09½, Axtell 2.12 and Mary Marshall 2.12½; Ed Bithen, two—Jay-Eye-See 2.10 and Phallas 2.12½; Andy McDowell, two—Sargent S. 2.12½ and Homestake - 14½; Frank Van Ness, two—Harry Wilkes 2.13½ and Rosaline Wilkes 2.14½; Cris Davies, two—Prince Wilkes 2.14½ and Bonnie Wilmore 2.14½; Marvin Shere—Sunol 2.02½, Palo Alto 2.08½ and Direct 2.08½; John Murphy, two—Maxie Cobb 2.12½ and Majolica 2.16.

### THE STALLION CHAMPIONSHIP.

At the close of the season of 1890, says the New York Sun, Nelson stood at the head of the list with a record of 2.10½ to his credit, and his nearest competitors were Stamboul, 2.11; Axtell 2.12; Palo Alto, 2.12½, and Allerton, 2.13½.

Nelson, the stallion from Maine, is now in his 9th year, and his fight this season to uphold his reputation has been a hard and lively one. His record as a 3-year old was 2.26½, and in six years he has reduced it 16½ seconds, and now holds a record of 2.10, under the rule that a record (2.12) remains unchanged; but as a year he will probably be put into training and be one of the strongest stallions contending for the championship honors.

Allerton, as a 2-year-old, did not have a very brilliant outlook, but as a 3-year-old his progress was remarkable, and proved him to be one of the best of his years, and that he could hold his own against good fields of aged horses. In the 2.37 class he defeated a field of nine on July 3, 1890, in 2.27, 2.26¾ and 2.24½. Ten days later, at St. Paul, he was again victorious in three straight heats, and on August 3 he reduced his record to 2.19. On August 23 he defeated eight competitors in straight heats in the 2.27 class, secured a record of 2.18½ and was retired for the season.

He opened his 4-year-old season at Independence, Ia., by knocking a quarter of a second from his record, and continued his good work until November 1, when he cut his time down to 2.12½, and in his four year old form only met with two defeats, that were almost equal to victories.

This season, after serving a short period in the stud, he was again put into training, and reduced his record to 2.12, 2.11, 2.10 and finally to 2.09½, over the kite-shaped track at Independence, on September 19, gaining the stallion championship, which he retained until November 17, when Marvin sent the 9-year-old stallion, Palo Alto, over the Stockton track in the remarkable time of 2.08½.

It is predicted that next season will eclipse any heretofore in the history of the trotting turf: the field will be larger than ever, and there will be several other stallions that have attracted attention this season that have secured very good marks to their credit.

Dexhaven, by Hambrino, who tied Nancy Hanks record of 2.12, will be a formidable candidate. Eghbrook, by Egbert, is another who has reduced his record from 2.24½ to 2.12½. Pat Downing, son of Abe Downing, another green stallion at the beginning of the season was not in the 2.30 list and now has a record of 2.15, may become another competitor for the prize. Candidate 2.15, by Burton Wilkes, who commenced the year with a record of 2.27, will also be in the line that will fight for the stallion championship a battle of greater importance than ever before.

### IN GENERAL.

The executive committee of the Maritime Province Football Union has decided the 16-man-game dispute, between the Wanderers and Dalhousies, in favor of the latter, by awarding the championship trophy to them. The collegians however refuse to accept it, wishing to play another and final game with the Wanderers on neutral ground. The Wanderers however have decided to play no more this fall; and the College will not contest the trophy committee to hold it over till next fall, when it will be played for.

Thursday on Manhattan Field, New York Yale defeated Princeton at football, 19 to 0. Of the 40,000 persons present, fully a third were women. They were intensely interested in the game; and it is refreshing to see so many charming damsel decorated with a big bunch of blue violets, arguing with all the vigor and fervor of an old football player with an equally charming damsel whose principal decoration was a yellow chrysanthemum.

Sir Richard Cartwright has now a personal organ, he having purchased the Montreal Herald. A. M. Miller, late of the Star will be managing editor.

Berlin is suffering from a more virulent type of influenza than that of 1889. Over 40,000 persons have been attacked with the infection since November 1st.

At the parliamentary election in East Dorset, Saturday, Sturt, conservative, was elected over Glynn, home ruler, by 347 majority. At last election the conservative candidate had a majority of 655.

The Minister of Marine has ordered an official enquiry into the loss of the Yarmouth bark Sarah off Vancouver island, on the 5th inst. The local investigation showed that the second and third officers and crew deserted the ship, leaving the captain, his wife and child helplessly adrift for their aid. The crew belong to Australia.

A London despatch says that the trial of the new British protected cruiser Blake has been successful, and that the vessel will surely be commissioned and sent out as the flagship of the North American squadron. She is of 9000 tons burden and 20,000 horse power, and is regarded as the best protected cruiser and the fastest in the world. She is made to carry on her trial without very high pressure.

A conference of representatives of Irish Americans from various states in the union was held at New York, Thursday night. Resolutions were adopted stating the people of Ireland that they can receive no further support from the states until they call a halt in the war of factions, and reunite their forces, and declaring that the confidence of the great mass of Irish citizens of the United States can be restored only by a union based upon a clearly defined, moderate and reasonable programme of Ireland's demand for Home Rule and a policy of independence of all English parties.

## ST. ANDREW'S AT ST. DUNSTAN'S.

The students of St Dunstan's College celebrated the Feast of Scotia's Patron Saint on Monday last with more than their usual eclat. The day's programme was begun by the proclamation of a grand congé by the Rev. Rector. Then followed the usual shouts, clapping of hands and other great noises of general approbation.

Soon the college bunting was flying from the flag-pole over the new ball-ball court, and beneath its folds some of the most expert hitters were striving for laurels with the "lesser sphere;" others repaired to the campus and spent their time practising "drops" "punts" and "places"; while those who claimed Apollo's genial smile repaired to the music rooms, and soon the hum of every holiday was heard on all sides. The shrill notes of piccolo and cornet seemed to vie with the sonorous tones of the organ and the dull sounds of the great drum, while violin and piano lent their notes to swell the general discord and make life as miserable as might be. Thus passed the forenoon, but at 12 o'clock the sound of the bell summoned all to the refectory where the general expectations of the students were more than realized as they beheld with what a munificent hand the economist had spread the festive board. When the period for nuts, grapes, etc. had arrived the toast master rapped for order and proposed the following toasts:

The day we celebrate responded to by J. J. McDonald.
Sister Societies—P. C. Gauthier and P. D. McGuigan.
The Clergy—Rev. A. P. McLellan.
Canada—Jas. A. McDonald.

The speeches in reply to the different toasts were of a very high order, eclipsing everything of the kind on previous occasions.

At night a concert was given in the college hall to a select audience mostly composed of the parents of the students, and a few other invited guests. His Lordship Bishop McDonald was also present, as well Rev. A. McDonald, Fort Augustus, and Rev. Dr. Walker, Rollo Bay. The programme which we subjoin occupied over two hours in rendition and was a rich treat to those who had the pleasure of being present.

R. E. Johnston's baritone solos were up to their usual high standing, while D. Cameron's vocal solos were masterpieces in themselves. T. Campbell's dramatic recitation was well executed; but P. Raftery carried the house by storm by his masterly rendition of the "Irish Jubilee"—Com.

Attention is directed to the important announcement of Connolly & Co. in another column.

It now turns out that Hon. Wilfred Laurier, fearing that Mercier's intemperance with the liberty of any one connected with the Ontario newspapers would harm the liberal leader's cause, expressly ordered that Austin Mosher, Montreal correspondent of the Empire and Whelan's interviewer, should not be arrested. It was a bitter pill for Mercier, but he had to swallow it.

The Kreuzer Zeitung announces that by a secret agreement with France, Turkey has ceded Cape Sisak Shaib in the Persian Gulf, to France. The cape affords easy possibilities for the development of great military and naval advantages. Turkey is said to have taken this step because of uneasiness felt by the sultan at England's action in controlling the occupation of Egypt in spite of the protest of France and Turkey.

### LITERARY NOTES.

Miss Mamie Dickens, who was always known as the favorite daughter of Charles Dickens, has written, for the Christmas number of *The Ladies' Home Journal*, her first story. It is a semi-ghost tale of the romance of an old English manor. Miss Dickey's only piece of literary work previous to this story was the editing of her father's letters for publication. She is said to possess true literary talent.

The Russian Minister of War has ordered half a million pounds of soldiers' blouses delivered by Jan. 1. This order, unprecedented since the time of the Russo-Turkish war, has created a decided sensation. According to an official estimate one hundred million pounds of grain will be needed in Russia from abroad. (A "pood" in a russian weight of about 36 lbs. avoirdupois.)

Intelligence has been received from Aldershot that a corporal of the second battalion of the Prince of Wales Leinster regiment, who by his overbearing and tyrannical manner had become an object of possible revenge to the men, was one night recently seized by a number of privates, who placed a rope around his neck and strung him up to a tree. The corporal was discovered by a sergeant in a short time and cut down nearly dead. The perpetrators of the deed are yet unknown.

The reports from the artesian well at Huron, North Dakota, show that it is the most wonderful well known to exist. The water spouts up to a distance of about 100 feet, and the amount that flows from the well is tremendous, being estimated at from 8,000 to 10,000 gallons a minute. Even at the lowest figures enough water is ejected to furnish every man, woman and child in the State of North Dakota with at least four gallons of water every four hours. As to the pressure, it has not yet been fully ascertained, but from tests already made, it is known to be considerably more than 200 pounds to the square inch.

Mercier has undertaken to muzzle the Quebec press, hoping thereby to prevent exposure of his many bonifing operations. He began by having Richard White, Editor of the Montreal Gazette, and contractor Whelan arrested for criminal and seditious libel. The prisoners were escorted to the station by a band of music; and 10,000 persons cheered them as the train pulled out for Quebec. Their trial was set down for yesterday. His muzzling process has been followed up by the arrest of Senator Tasse and Messrs. Senecal and Pelletais, of La Minerve, and Thomas Berthiaume of La Presse.

Great consternation has been caused among patrons of restaurants, boarding houses and retailers who deal in cheap meat in Chicago, by the arrest of George Youngclaus, on the charge of selling horseflesh labelled beef, to such institutions. At Youngclaus' premises was found a lot of horseflesh in pickle, verifying the report that Youngclaus was shortly to sell on contract a quantity of "corned beef." Youngclaus is said to have a partner who has fled, taking with him a lot of old horses which was to be slaughtered. It is believed the traffic in horseflesh in the city has amounted to many thousands of dollars.
