His Honor the Lieutenant Governor and Mrs. McKinnon entertained a large party of ladies and gentlemen at a ball on Wednesday night last. Dancing and progressive whist were enjoyed by the guests and all went merry as a marriage bell.

George Gulliver, a patient in the Homewood Sanatorium at Guelph, Ont., wandered away from the institution on Thursday last, and nothing more was seen of him until his dead body was found in the woods adjoining the Asylum on Monday. He had been a privileged patient around the institution for twenty years.

The operation was performed by Sir Frederick Travers, Surgeon in Ordinary to the King. The Princess bore the operation well and is progressing satisfactorily.

Two young lads named Murray, belonging to Linkletter Road, were coasting in their yard, when their sled ran into a horse which had been let loose to drink. The horse kicked up his heels and struck one of the boys on the cheek, making a severe cut, and the other on the head fracturing the skull. He was rendered unconscious, and a physician was summoned as soon as possible from Summerside. It is considered doubtful whether or not the boy will recover.

The break in the cable between Seattle, Washington, and Valdez, Alaska, which has been out of commission for nearly three months, is now repaired and work of forwarding messages has been resumed. When the Sitka end of the cable was raised by the cable ship Burnside it was found that a whale was attached. The animal's jaws firmly entangled in the wires and rubber insulation and the condition of its body showed that it had been dead for some time. It is believed that the whale was the cause of the break in the cable.

A Vancouver, B. C., despatch of the 28th, says: One of the most comely specimens of humanity in the west is now on his way east to recuperate. W. Finlayson, a Nova Scotian was brought to Vancouver in a launch explosion at Port Simpson. Skin grafting was necessary to save his life. Ery, white resident of the future terminus of the G. T. P., offered a section of hide, and 375 pieces of the populace's skin were grafted on Finlayson, who is now convalescent after his unique experience.

A London despatch of the 28th to the N. Y. Sun says:—The second British cruiser squadron under command of Prince Louis of Battenberg sailed on an eight months' cruise visiting American ports among others. The vessels are of the most recent construction and will be the fastest squadron that has left Great Britain on an extended cruise. The Drake flagship has a speed of 2 knots while the Berwick, Camberlain and Cornwall Essex and another can each make 23 knots.

A despatch of yesterday's date from Vancouver, B. C., says: The Canadian Pacific Railway officials have announced that negotiations between the company and James Dunsinuir, President of the Equinault and Nonaino Railway for the purchase of the latter line have been brought to a conclusion. It is declared that Mr. Dunsinuir gets three million for the Island line, which, it is said will be extended from Nanaimo to Quatsino Sound at the head of Vancouver Island. Quatsino is being made the Queenstown of the Pacific coast.

The performances given in the Lyceum last night and the night before by Prof. O. L. Strocton were most interesting and amusing, as well as refined. It was astonishing to observe the facility, exquisite solo were played on more than a dozen different kinds of musical instruments, many of them new and novel instruments. Nothing but the possession of the rarest musical ability could qualify one for such performances. The exhibition of ventriloquism was in the highest degree admirable and created unbounded amusement. The smoking, jumping and dancing of the trained dog were very much enjoyed. But the most astonishing and most appreciated feature of the performance was the exhibition of sleight of hand. The tricks performed were most laughable, as well as mystifying. Hens, roosters, guinea pigs, squirrels and numerous other things were produced from hats, bags and boxes, which were shown to be altogether empty immediately before. Silver coins were apparently caught in any number from the air, and from different parts of the body. The entertainment was a good one and worthy of patronage. Prof. Strocton has started east. It was his intention to appear at York this evening; at Cardigan Friday and at Georgetown Saturday.

Three persons directly or indirectly, lost their lives in the blizzard, which prevailed in Baltimore last Wednesday. They were Frank Zapp, 25 years old, found dead in a snow drift, and patrolman Matthew Brown, found by his companions unconscious in the snow, and died suddenly, shortly afterwards from heart failure. The Allan line steamer Inonia, from Liverpool with weekly mails and passengers, arrived at Halifax last Friday night at 10.30. When the steamer came up the harbor, the vapor was so thick that it was impossible to see very far ahead, and she did not attempt to make her dock. The temperature was also very low, and the business who went out to the steamer suffered much from the cold. The steamer anchored some distance off deep water, and came in to dock at 7 o'clock next morning.

An explosion of dynamite at the Shoenberger plant of the American Steel Wire Co., Pittsburg a subsidiary of the U. S. Steel corporation on the 27th, brought painful injuries to forty persons who were temporarily disabled. It damaged fifteen residences, and broke at least 2500 windows at Shoenberger. The mill was located at 148 and Pine streets and was surrounded by dwellings of the workmen. The company had 300 pounds of dynamite stored in the shed. A few minutes before the explosion an Italian was seen to enter the shed. The only remnants found of him were portions of his trousers, vest and shirt, hanging to the telegraph wires in the vicinity. The value of property damaged will exceed \$25,000.

At four o'clock Thursday morning, while the storm raged in all its fury, the dwelling house and shop, owned by Mr. J. F. H. Arsenault, M. L. A. at Higgin's Road, about eight miles from Wellington, was burned to the ground, with all its contents. Mr. Arsenault also kept the Post Office, and any mail that happened to be there, was destroyed also. The origin of the fire is unknown. Mr. Arsenault was awakened by the crackling of the flames, and had barely time to escape with his wife and children, there being no time even to dress. The family took shelter in the barn while Mr. Arsenault went to the nearest house for assistance. By the time the neighborhood was aroused, the buildings was a mass of rearing flames. Not a stick of furniture, not even an article of clothing was saved, and Mr. Arsenault will have much sympathy in his loss, which amounts to \$3000.
