Engineers Decide Sea Level Char

Panama, Feb. 1-Since the cont over a lock or sea level canal ha waged incessantly the present President-elect Taft to the can vas to finally determine wheth work should be pushed forward the plans of a canal lock or a s The question has been canal. setled by the engineers appointe commission to accompany Mr. Ta to report to the president. The failed to find the natural obstacl the advocates of the sea leve claimed were in the way of and they found no reason to cost of construction of a lock the extravagant figure mentio some critics of the plans under the work is being done. In rou ures, the cost of the lock canal w inally placed at \$145,000,000. Th neers may find that this estimate low on account of unforeseen dif which have been encountered, b do not believe that it will reach greater sum, or will in any way ap the figure of \$550,000,000, set by set claim that the cost will reach pendous sum if the present plans : isted in. The vital point in t struction of the lock canal are the and Laboca dam. Both have bee cized as impracticable engineerin positions. The inspection of the c day, with the result that it is a quite feasible, has set aside greatest objections and it is belie the engineers will find the Labor even more feasible than the Gatu URGE COMPULSORY TRAIN
