Is there any place or anything that can put people on equality like a day

A TRUE ACCOUNT.

(Continued.) There is no loneliness can hold a candle to being lonely in the woods. A kind of a silent whispering, like a gang of old men deciding on what punishment they will inflict upon you is heard around. Sometimes you think you hear people talking quite near, but when you investigate you discover it is imagination. I started in bawling out for Tucker, but the echo came back as if to mock me. Through the woods I kept agoing, doing my best to keep in a straight direction, but every one or any one who has been in a strange locality like this and has lost his chum, knows the sickening feeling that takes charge of you. The more you bawl out without getting an answer the more discouraged you become. I was nearly hoarse from shouting Tuck-er, and I was covered with bog to the knees. The flies had played havoc with me, for in my excitement I forgot to pay any attention to them. But just as I trying to keep up with him I worked rounded a big clump of bushes and as I had never worked before. You scaled a slippery rock, to take a look know you hate telling a man like that around, I was agreeably surprised to that he is going too fast for you; see in the distance a man scated on there's a certain pride in every on a rock, fishing and smoking. It didn't that won't allow him to give in, and take long for me to reach the spot there was a little of it left in me. At and ask him how he had done with

"But surely," said I, "when you put your horse out on the commons, when you let him go where he likes to go, you can't expect he is going to stand still, just where you left him. I think 'tis a very foolish practice." He looked at me with eyes ablaze and I discovered I had made a mistake, and to

"Don't talk to me of gullies," said "Tis to-day only, after all my years. I have discovered what trouting really means. You don't want to meet any gullies to have a good day trouting. What do you say for a game of forty-fives?"

Soon we were thumping the table and fogging our pipes, as jolly a crowd as ever passed Torphy's house without running into it. So the hours spent on till seven o'clock when, after partaking of a square feed set up in good old-fashioned style, we accepted a seat in one of the carriages of our newly made friends, and as we made our way to town music. coarse but whole-hearted, rent the air, and the best of good fellowship such as only a trouting excursion can afford prevailed.

Encouragement to Agriculture.

Editor Evening elegram:

Dear Sir,-We received by the S. S Home, Thursday, June 9th, ten sacks of seed potatoes to distribute among the people of the District. Well done, Morris, and your Tory Government! Why, my dear sir, we have potatoes ur here "trenched up" long ago. Do they think we are so slow as that as to sow potatoes in the middle of June? 'Tis a wonder they hadn't waited till September to send them, then we would have been able to sow them in "hot houses" for the winter. No

doubt we have a smart Government now! That's their first move, so how slow will they be before four years time? Why, they'll be too slow to stop quick. What a time to send seed potatoes! No doubt that's great encouragement to farmers. They've been on the way so long that they are half rotten; of course, just a sample

There'll be no scarcity of turnips and cabbage up here next winter, either. We got half an ounce divided among seven families from the Agricultural Society here. Of course twas the best they could do, and to make the thing better we were required to give a receipt for every onefourteenth of an ounce we received. A fine thing, no doubt, for the paper manufacturers to supply all the paper needed. I think it would be a good olan for the Bankers and Labrador men to stay home this summer and go farming, because certainly the women won't be able to attend to all the crops

they raise from these seeds. When Mott comes around here again looking for votes we'll give him | 5 just about the same amount as they gave us seeds, and, of course, his board won't cost him anything bepotatoes and cabbage, and we'll drive him around with a pair of those ponles we're going to get. I would like to advise the Government to send them along as soon as they "parcel them up," because if they stay over t Bay of Islands, like the potatoes, they may get spoiled. I s'pose twont do, Mr. Editor, to say too much or we mightn't get those ponies, so I'll have to close. Wishing them a "good old time of

it," Mr. Editor, in their four years reign.

"REX."

I remain, yours truly,

Bonne Bay.

Worst Case Of Eczema

Ours only same when doctors gave up and DR. CHASE'S DINTMENT was used. Mrs. Wm. Miller, St. Catherines, Ontowrites:—"My daughter Mary, when six months old, contracted eezema and for three years the disease baffled all treatment. Her case was one of the worst that had ever come under my notice, and she apparently suffered what no pen could ever describe. I had three different doctors attend her all to no purpose. Finally I decided to try Dr. Chase's Ontment and to my snrprise she immediately began to improve and was completely cured of that long standing disease. That was four years ago when we lived at Corawall, Ont., and as not a symptom has shown itself since, the cure must be permanent."

The record of cures which Dr. Chase's Continent has to its credit have placed it alone as the standard cure for eezema and all forms of itching skin disease. Do not be satisfied with imitations or substitutes, 60 cents a box of all dealers or Edmanson, Bates & Co. Toronto.
