What to Do With the Refuse.

Editor Evening Telegram.
Dear Sir,—I understand there is to
be an attempt made to get rid of the
accumulation of filth that at present
disfigures our streets. This is well,
but the question naturally arises.
"What is to be done with the garbage
after it is cleared away?" Is it to
be dumped outside the town where-
ever the sanitary man chooses to de-
posit it, and are the farmers to be
allowed to use it for fertilizing, as
usual? No other civilized country
allows its refuse to lie on the out-
skirts of towns, to be an intolerable
nuisance, as well as a serious menace
to the health of the community.
Last summer a mattress, coming
from one knows not what infected

house, was thrown out at the top of
the LeMarchant Road Golf Links. The
filth with which it was stuffed was
blown hither and thither over that lo-
cality all summer, and was probably
responsible for a good deal of illness.
Another mattress dirty and delapidated
was flung out on the Long Pond
Road, a little past Rennie's Mill.
These things should not be tolerated.
The best way, and the only scienti-
fic way, to treat garbage is to dispose
of it in a crematorium. The
question of expense would, of course,
be raised immediately as an objection,
but it would not be as expensive as
the series of epidemics which periodi-
cally result from our present system.
As it is there seems to be a good deal
of money spent with no visible re-
sult. A crematorium we should have,
we must have eventually, but as a
temporary expedient a large pit could

be dug, at a convenient distance from
town, and in some unfrequented lo-
cality, where the town refuse could
be disposed of, and kept well covered
with chloride of lime which is a cheap
and efficient disinfectant. This has
the advantage of being both inexpen-
sive and practicable, and I urgently
commend it to the Council and the
public generally.
Faithfully yours,
NATIVE.

Here and There.

DIPHTHERIA.—A 14-year-old girl
developed diphtheria at her home on
Duckworth Street last Friday. She is
being nursed at home.

ELEVEN ARRESTED.—The police
arrested eleven persons for drunken-
ness Saturday evening last. There
were let off yesterday morning.

BIG CARGOES OF SALT.—There
are about 17,000 tons of salt from
Cadiz now afloat in the harbor. Three
steamers and one vessel arrived with
this cargo last week.

GLENCOE ARRIVED.—The S.
S. Glencoe arrived at Port aux
Basques from North Sydney at 3.20
p.m. yesterday with a full load of
freight. She will sail for Placentia
to-night.

A LARGE FUNERAL.—The funeral
of the late Mr. Lionel Benning took
place yesterday afternoon and was
largely attended. Rt. Rev. Mons.
Roche, V. G., read the last prayers at
the Cathedral. Interment was at
Belvedere.

Tells Others His Secret

Wants them to know how he was
cured of itching, protruding piles
by DR. CHASE'S OINTMENT.
Doctors usually recommend the
knife as the only cure for piles. They
overlook the risk, the expense and
the suffering of mind and body en-
tailed in a surgical operation.
Dr. Chase's Ointment will bring
relief quickly and will cure thorough-
ly if you will but persist.
Mr. A. Honington, 52 Bronson
Place, Montreal, Que., writes:—"I
cannot help praising Dr. Chase's
Ointment as I suffered many years
with itching and protruding piles,
and was cured by this ointment. I
became tired of the efforts of the best
specialists to cure me, and hearing
of Dr. Chase's Ointment just as I
had of hundreds of other medicines
began its use. But oh, great joy, at
the very start the sharp pains left
me and I was gradually cured. I
hope that every sufferer will follow
my example with the same success.
Every form of piles or hemorrhoids
is cured by Dr. Chase's Ointment. 60
cents a box, at all dealers, or Ed-
manson, Bates & Co., Toronto.

Another Arrest for Theft Saturday.

Saturday afternoon a young chap
who resides on George's Street was
arrested and charged with stealing oil
barrels from the premises of Mr. Geo.
Neal. For some time past a dead set
has been made on this place by youth-
ful thieves who were in the habit of
getting away with casks after steal-
ing them and then returning
and reselling them to the owner. How
often this has been done is not known
but the police think it is going on for
some time past, and this prisoner
with his accomplices will likely be
severely punished, if found guilty.

Young Woman Arrested Saturday.

Saturday night Const. Stamp ob-
served a young woman, one of the
disolute class who frequent Water
Street nightly, acting in a very dis-
orderly and unbecoming manner. She
was admonished at first but paid no
heed to the officer, who had to arrest
her. She was kept in the cells until
to-day, when she was brought before
the court to answer the charge pre-
ferred against her.

Guards Parade.

The first church parade for the sea-
son on the part of the Methodist
Guards was held yesterday morning.
About 100 lads under the command
of Major Hutchings and headed by
the battalion band marched from
their hall to Wesley Church, where
Divine service was conducted by
Rev. J. K. Curtis, who delivered a
very impressive sermon. The
turn-out looked very fine and was
commented on favorably by the
spectators.

THREATENED HIS MOTHER.—
Saturday night Const. Foran and
Stanford were called to a residence
in College Square where a young
man was threatening his mother,
whom he told he would kill. The
police on arresting him were given
much trouble and had to handcuff
him.

Choose Lesser Evil.

Not long ago we learn by the Por-
tia, the fishing schr. "Mary Smith,"
Courage, master, went down to Conn.
in Fortune Bay, for a bait supply.
This harbor is a very small one, and
as the vessel was going in under full
sail with a spanking breeze behind
her, at the rate of about 10 knots;
only after rounding the point did her
skipper notice five schooners anchor-
ed on the regular mooring ground.
Should the vessel continue on her
course she must perforce run over and
sink the smaller craft moored right in
her track and sacrifice more than
likely the lives of several of the men
comprising their crews. To avoid
them there was nothing for it but to
put the ship ashore, and quickly sizing
up the situation and to save life and
property Capt. Courage took the latter

course, altered his helm accordingly
and the vessel struck the rocks with
terrible force. The impact threw the
crew off their feet, and the "Smith"
had her bowsprit and stem carried
away, head gear parted with other
damage and she leaked badly. She
was taken off the rocks and towed to
St. Pierre where she was docked, and
repairs cost more than \$1,400. Had
not Capt. Courage made up his mind
so quickly when he rounded the Point
and saw the schooners in his track
he must have sacrificed several lives
and considerable property, and his
presence of mind and quick decision
which cost him such a sacrifice has
earned for him the plaudits of all the
fishermen and people of the coast and
certainly these he well deserves.

Woman Badly Gored.

Saturday afternoon as Mrs. Ham-
lin, of Belvidere Street, was attend-
ing to her cows, one of them, which
was vicious, turned on her and
gored her severely. The horns of the
beast were driven through the wom-
an's legs in two or three places, in-
flicting serious wounds. Some of the
leading arteries were cut and she
lost much blood. After the accident
the woman had the presence of mind
to seize a piece of brim bag and rap
around the wounds to try and stop
the flow of blood while she cried for
help. Neighbors came to her assist-
ance and helped her into the house,
where she lay prostrate. There was
great difficulty in getting a doctor,
but at last Dr. Macpherson was called,
who responded quickly, and with
the assistance of Dr. Carberry of the
Calypso, who was also called in, put
several stitches in the wounds, and
stopped the flow of blood. Dr. Mac-
pherson complimented the woman on
her thoughtfulness in trying to
staunch the flow, which no doubt
saved her life. Mrs. Hamlin was in
a bad state yesterday, being in a
semi-conscious condition; but with
good care no doubt her physician will
pull her through.
