An Injustice to Women.

BY RUTH CAMERON.

Woman is the weaker vessel; at least so everyone has been saying for the last million years or so, and yet again and again the weaker vessel is called upon to stand the greater strain.

I am thinking especially just now of the home services which working women are so frequently called upon to render. When a woman goes out into the business world and works all day long to earn her living, and turns in part of her wages to the family budget, she ought to receive the same immunity from home care which is given as a matter of course to her father and brothers.

And yet what one of us doesn't know of a dozen cases where women just because they are women, and presumably the weaker vessel, are asked to bear a double burden?

I know a young girl who works at high tension for eight and a half hours a day in a very strenuous business office. She comes home utterly exhausted. Home ought to mean absolute rest to her, but it doesn't; she must spur herself on to the task of helping her mother get the supper and clear it away. A younger brother who is doing some easy office work

which doesn't take half his energy is far more able to help than she, but no one ever thinks of expecting him to. I asked his mother once why Gertrude always helped her with the dishes and Charlie never did. "Why, Charlie is a boy," she said, "why should he?"

Again, at this very moment, I can think of two cases where women are working eight or nine hours a day in business offices and acting as conscientious nurses to some member of the family at night. In both cases there are male members of the family who by reason of their being male, the stronger vessel, are considered immune from such work; and in both cases, although it might be a strain on the family finances to pay an attendant, there is no doubt that that would be done if the choice lay between that and asking the father or brother to do what the daughter is doing.

Sometimes women, both married and unmarried, deliberately and unnecessarily put themselves in the position of holding two jobs by their desire for extra spending money; then they may only themselves blame for the overstrain that is sure to result. But quite as often they are unwillingly forced into this difficult position.

It is surely most unfortunate when conditions in a family are such that it is absolutely necessary that the wage earners should share the care of the household.

It is even more unfortunate when the family sense of justice is such that the burden is placed upon some woman's slender shoulders while the male members go burden-free.

Red Cameron

NO ONE STRONGER THAN HIS STOMACH.

The celebrated Dr. Abernethy of London was firmly of the opinion that disorders of the stomach were the most prolific source of human ailments in general. A recent medical writer says: "every feeling, emotion and affection reports at the stomach (through the system of nerves) and the stomach is affected accordingly." It is the vital center of the body. It is said to live (through) the stomach. He goes on to show that the stomach is the vital center of the body. For weak stomachs and the consequent indigestion or dyspepsia, and the multitude of various diseases which result therefrom, no medicine can be better suited as a purgative agent than

Dr. Pierce's Golden Medical Discovery.

"Several months ago I suffered from a severe pain right under the breast-bone," writes Mrs. G. M. MURKEN, of Corona, Calif. "I had suffered from it, off and on, for several years. I also suffered from heartburn and indigestion. I tried several medicines but they did me no good. Finally, I was told it was my liver. I did not believe it, so I bought a bottle of Dr. Pierce's Golden Medical Discovery. I took five bottles of it, and could feel myself getting better from the first dose. I could eat a little without pain and grew strong fast. To-day I am strong and well and can do a big day's work and have put on flesh wonderfully. I will say to all sufferers write to Dr. Pierce. He has my undying gratitude."

Hr. Grace Notes.

We are sorry to hear that Mr. Edmund Rogers had a very poor night's sleep, being knocked down as reported yesterday, and is swollen quite a lot to-day.

The many friends of Dr. Foster, of the Nfld. Optical Co., will be sorry to learn he is confined to his room suffering from a heavy cold. Dr. W. H. Parsons is attending him.

A cargo of coal is being discharged at the premises of Mr. A. Rutherford, and is selling rapidly at \$7.50 per ton.

The S. S. Solway arrived from St. John's at 6:30 last evening, and after discharging a large quantity of freight were sailed for the northward at about 12 o'clock.

Capt. Thomas Dunn, of Riverhead, is confined to his home with a very sore leg, due to an accident that befell him on the Labrador a few days before leaving for home. We hope the captain will soon be O.K. again.

We are all glad to hear that Mr. John Callahan, of Riverhead, who was so badly crushed about the head at Bell Island last week, is improving and is considered out of danger.

The public message sent to all parts of the Island daily is termed by many people as political sandwich, and Morris dish, expected to be served for the next ten months or so. I enclose a sample.

We are now experiencing delightful—almost summer—weather, quite a contrast to that of this date last year.

The Ladies of Christ Church held their Sale of Work on Wednesday and Thursday which proved very successful financially and otherwise. The very handsome sum of \$215.00 was realized, and the ladies are deservedly receiving the congratulations of their friends.

Our townspeople were all sorry to hear the sad news this morning of the death of Carbonear of Mr. Laurence Barron, who for a number of years was connected with H. M. Customs of that town. Mr. Barron had reached the good old age of 82 years. He was much esteemed by all classes of the population of the sister town.

Prof. Landry's lecture on Poultry, delivered in St. Paul's Hall, last night, was largely attended and very interesting. Some of the young people started to-day to follow out the professor's inspiring, it is evident from this fact that much good will be accomplished by the distinguished visitors.

CORRESPONDENT.
Harbour Grace, Nov. 23, 1912.

Solid Comfort.

The winter may wint as it lists and carry its message of woe; the blizzard may shriek as it twists and piles up its billows of snow; I heed not the elements' ire. I yearn not for summer or spring; I've a book and a pipe by the fire, and life is a bully good thing. The frost's lying thick on the pane, the snow's lying deep at the door, but Boreas threatens in vain, in vain does he bully and roar! I have all the things I desire, I reign in my home like a king; I've a book and a pipe by the fire, and storms are a bully good thing! Some go to a far-off resort, where blue is the midwinter sky, where soft, scented breezes caport, and weather is fit for July. To-night of that sort I aspire; you won't see your uncle take wing; I've a book and a pipe by the fire, and what's a bully good thing. I'm fond of the long winter nights, when darkly the sky o'er us bends, when the windows of houses are bright, and smoke from the chimneys ascends; there's nothing so doleful or dire, I whistle and gambol and sing; I've a pipe and a book by the fire, the world is a bully good thing!

Fairbanks' Motor Engines

When you need to buy a motor for your boat, and one that none can equal in speed—One hundred thousand purchasers can note that Fairbanks is the very kind you need.

In the Provinces, that we call the Maritime, we know there's hundreds truly can attest: Of all the many motors in that clime that the Fairbanks manufacture leads the rest.

Though the praise of other motors you may read, and are told their speed and style is something grand, yet it won't be long e'er Fairbanks make will lead. All the others now in use in Newfoundland.

They are durable, reliable, and strong. Believe us for we tell no fairy tales, it's impossible for motors to go wrong. When made by those who make the Fairbanks scales.

Those who use them know how excellent they are. They say they're far superior to the rest. So send an order to their Agent, Mr. Barr.

For the Fairbanks Motor Engines are the best.
GEORGE M. BARR, Agent.

Why Who's Who.

BY H. L. RANN.

If it is a rare thing nowadays to find a base ball player who surrenders to anything but old age, they usually retire full of years, loaded with honors and Charley horses, a few of which they open a saloon and hold post mortems over the conflicts of past days. A startling exception to this rule is the Rev. William A. Sunday, who prefers to be introduced as "Billy."

William A. Sunday, who prefers to be introduced as "Billy," was a graceful fiddler, with Chipperfield legs and lean, eager fingers which seldom pulled off any historic muffs. Whenever the manager wanted somebody to run the bases and get back the same day, he would pick out William and urge him on with some double-yoked profanity. It was an inspiring sight to see William execute a long spiral slide for third base with the aid of his stomach.

A number of years ago William retired from base ball in order to become an overworked and underpaid vangelist. There is a good deal of skepticism about William's pay check, but there is no question about his industry. He works nine months in the year, and takes three months to put new plastics in his vocal chords and think up a few original definitions of the bottomless pit. Some of these definitions have a very soothing effect upon people who have arranged to go the other way.

William does not use any pink tea methods in his work. He is equipped by nature with a set of eloquent hands and feet with which he punctuates his remarks. When William is about to get rid of a remark which ought to be good for the first page, he will seize it firmly about the neck and throw it at the audience from the top of a four-legged table. When a man has been hit by a few of these undressed remarks, delivered by a human catapult in shirt sleeves, he will make up his mind to come in and be good.

Some critics object to William's vocabulary, which is provided with a full set of teeth and at times sounds like a vocal rip saw, but they lose sight of his expurgated sermons, which are masterpieces of word painting. William makes people mad, but the madder they get the faster they come, and William says that is what he is here for.

Feel Bully? Take Cascarets Tonight.

A 10 cent box will keep your liver, stomach and bowels clean, pure and fresh for months.

Sick headache, biliousness, dizziness, coated tongue, foul taste and foul breath—always trace them to torpid liver, delayed fermenting food in the bowels or sour, gassy stomach. Poisonous matter clogged in the intestines, instead of being cast out by the system is re-absorbed into the blood. When this poison reaches the delicate brain tissue it causes congestion and that dull, throbbing, sickening headache.

Salts, cathartic pills, oil and purgative waters force a passage way for a day or two—yes—but they don't take the poisons out and have no effect upon the liver or stomach. Cascarets immediately cleanse and regulate the stomach, remove the sour, undigested and fermenting food and foul gases, take the excess bile from the liver, and carry out of the system all the constipated waste matter and poisons in the bowels.

A Cascaret to-night will surely straighten you out by morning. They work while you sleep—a 10-cent box from your druggist means your head clear, stomach sweet and your liver and bowels clean and regular for months.
