

THE TIGER

is one of the most destructive of animals, and is a source of much danger to life.

Sunlight Soap

preserves and lengthens the life of your clothes, but it is a source of destruction to all dirt and uncleanness. The amount of destruction wrought by a tiger in a single night, cannot be compared to the amount of destruction wrought by inferior soap in a single wash-day. SUNLIGHT SOAP is an absolutely pure Soap, that saves your clothes, time, money, and labour.

Divorced Life

An Opportunity on the Train

First call for luncheon in the dining car—first call for luncheon! Marian was aroused from her slumber by a delicious sense of hunger. Presently she was conversing with her table companions, ageably and vivaciously. Their exchange of pleasant commonplaces established the fact of their common destination, and soon they knew each other's names. Mrs. Van Dine was the woman who sat opposite Marian with her daughter. "We were wishing for a congenial companion," said Mrs. Van Dine, cordially. "Thank you. It's good of you to say," said Marian with a happy flush. While she had always been averse to talking to strangers, she realized now that she had lost some of her conventionalities. But she did not regret it. Something of an air of chicness, about her vis a vis aroused her interest and admiration. "My daughter has been admiring you all morning. She has decided that you are an actress," pursued Mrs. Van Dine. "An actress! What on earth made her conclude that?" Marian's rather wounded pride reflected itself in her tones. For, despite her stage ambitions, a certain shrinking, instinctive and invariably, always filled her when she thought of herself as an actress. "You know how young girls idealize the people of the theatre," replied Mrs. Van Dine, "and how anyone who conforms to their ideas of beauty must be an actress. You're not offended?" she asked with frank kindness. "The woman's smile was so genial, that Marian, who regarded herself as a fair judge of the other's undoubted social position, was unable to take offense. Besides, hadn't she tried her best to become an actress? What was there about the word that should offend? And later she thanked her stars for this chance encounter. It led her to the brink of an important event. (To-morrow—"The Future Grows Bright.")

The game, which was an exhibition one, was witnessed by a large gathering of onlookers and resulted in a win for the Red Lions by 5 to 2. On Sunday evening the B. I. S. Baseball team crossed to Bell Island and yesterday played a game of ball with the Islanders.

Lame Back Strengthened Stiffness Taken Right Off.

Was Relieved in an Hour, and Cured Over Night.

A lame back? Quite unnecessary. All you have to do is to rub on Nerviline. It's simply a wonder for back-ache—relieves after one rubbing. "Nothing possibly could cure an aching back faster than Nerviline," writes Mrs. Arthur Kobar, of Lower Chelsea, N.S. "I caught cold and was so prostrated with pain I could not bend over. We always have Nerviline at home, and I had the painful region rubbed thoroughly with this grand liniment. At once the pain departed. The emmons was rapidly reduced and in an hour I was able to be about my housework. I was rubbed again just before retiring, and awoke as usual in the morning with out a sign of my back trouble."

There is no sort of muscular pain that Nerviline won't cure quickly. Thousands swear by it for rheumatism, neuralgia, sciatica and lumbago. It sinks to the core of the pain—right through muscle, tissue and nerve—it penetrates where no oily, greasy liniment can go and invariably cures quickly. If you have an ache or a pain anywhere—use Nerviline—it will cure you. Family size bottle, very large 50c.; trial size 25c. at all dealers.

Pellaventure Back Met Much Ice.

The s.s. Bellaventure, Capt. Randall, arrived back yesterday morning from Botwood. The "Bell," after a difficult task of butting reached her destination. After leaving her Capt. Randall took a round about course to avoid meeting the heaviest of the ice. The ship went through Stag Hr. Run where she was jammed for a couple of hours, the heavy ice there proving too much for her. She reached her destination at 11 o'clock Sunday night and the work of discharging the coal began right away as the coal. Capt. Randall told us, was very badly needed at Botwood. There is a great deal of ice in the Exploits yet and the chances of the Donaldson, Liner Marina getting there early are not at all bright.

Where Responsibility Lies.

No matter how large, or how small, a business may be, nobody can deny that its Office is the nerve centre of the firm. Every transaction, important or trivial, must be recorded at the Office. An order is received at the Office, and finally payment is received at the Office. If the Office makes an error the firm stands the loss. That's why you must be sure that your office is modernly and dependably equipped for the care of all important papers. To do this effect you need the up-to-date equipment of the "GLOBE-WERNICKE CO." When sixty offices in St. John's have found this necessity this equipment can surely be of use to you. Mr. Percie Johnson represents this world known firm in Newfoundland.

New C. L. B. Armoury Opened

Yesterday the new C. L. B. Armoury on Bell Island, was formally opened at Bell Island in the presence of a large gathering of people. Over one hundred people from the city, including the officers and band of the regular battalion went over from the city to witness the ceremony. The new Company recently launched on the Island held their initial parade after the opening. The hall is well built and well finished, is spacious and has a neat appearance.

MINARD'S LINIMENT CURES GART IN COWS.

Send for the R. J. & W. Report TODAY!

We have used this space daily for the past fortnight to tell you something about the great fishery house of Robin, Jones & Whitman, Ltd.—whose history dates back to the year 1776, and whose control of the dry fish industry in Eastern Canada is to-day complete. Incidentally we have referred to the Company's 6 p.c. Preferred Stock as a very desirable investment; inasmuch as it can be had on a 7.07 p.c. yield basis, and in addition a 25 p.c. bonus of valuable Common Stock on which a 2 p.c. dividend was paid last year and on which an average of 6 p.c. was earned yearly for the past five years.

BUT--

this space is much too small to do justice to our subject. Therefore, we urge you to send for our review of the Company which tells its interesting story fully. No investor should be without a copy.
