This cry of the leaders of great ventures into the frozen zones has sent our heroes into the white fastnesses with the confidence that wins, borne out of being well outfitted.

JAEGER wear has been chosen for over a quarter of a century as the only dependable protection for those exploiters of courage who race for honour to the Poles, when every life is valuable.

No time to risk experimenting with unknown brands. This is a TEST for the BEST.

It is certain that a great measure of the success of these expeditions must have been due to the reliability of the JAEGER products worn.

To-day the ordinary man may obtain in JAEGER everyday under and outer wear the same materials and scientific construction of garments that sustained the men in these historical expeditions.
