By ONLOOKER.

28TH LEAGUE MATCH.
STAR vs. K.A.C. Result—STAR 9
Goals: K.A.C. 1—Played on Llewellyn Grounds, Aug. 26, 1898.

The closing game of the League fixtures was played last night under trying circumstances, the continuous downpour of yesterday made the ground sodden, and the dense fog that prevailed at the "kick off" was an inconvenience to all. The K.A.C. team started playing under great disadvantages, only seven men being on the field, and right from the start the Star boys were on the "job." Three minutes from the start, Browning scored the first goal. The next was sent in by Brophy, and the K's goalkeeper, holding the ball too long, was carried over the goal line by the advancing host of Stars. Two more of the K's now turned up and they continued to the close with nine players. The third Star goal was secured by Ned Power, and then the play was kept down on the Star goal for a short time, but very soon, Browning (who at the time was playing off-side) got possession, and passed to Ryan who tallied up the fourth goal. Then the K's had another turn at pressing, and just before the whistle blew for half time, Feaver essayed a long shot from the right wing, and beat Gaul for their only goal of the match. This was one of the prettiest shots for the season and was loudly applauded. The teams

crossed with the score, Star 4: K.A.C. 1. It was now so thick that the individual players could not be distinguished and after one look in at the Star goal by the K's the ball was kept down on the K.A.C. goal for the balance of time; five goals being added to the Star score in rapid succession, and all felt glad when the final whistle sounded, giving the Stars a nine to one victory. The teams were:

STAR—Gaul, English, Marshall, J. Vinnicombe, Collins, Cowan, Brophy, Ryan, Condon, E. Power, Browning.

K.A.C.—Soper, Stranger, White, P. Knowling, G. Knowling, Williams, Comerford, W. Knowling, Feaver.

REFEREE—F. Maynard.

LINESMEN—J. L. Noonan, Jr., J. Larkin.

NOTES ON THE GAME.

It was the final game of the '98 series. The score being the record for the season, and also gives the "Star" second place and silver medals. They also hold the goal record for the season and are to be congratulated.

The final games for the "Tie Cup" put up by the League for the 4 leading Clubs, will now have to be played, but as the C.L.B. and B.S. are equal in points, they will have to play off to decide 4th place, and we understand the match will be played on Monday night, 29th inst.

William Collier Stars in New Select Picture

"THE SERVANT QUESTION."

NOTED COMEDIAN WHOSE STAGE SUCCESSSES ARE COUNTLESS NOW STARRING ON SCREEN.

William Collier, affectionately referred to throughout the country as "Willie," and whose record in stage history discloses that he helped make laughing a pleasure, has capitulated to motion picture. Heretofore only those theatregoers who patronize spoken comedy have had opportunity to see and hear Collier, but beginning to-day he will be shown at the Majestic Theatre for 2 days in "The Servant Question," a Select Picture which transfers the infestious Collier humor from stage to screen.

Collier has been a player since childhood, and made his first appearance in a children's opera company, playing "H.M.S. Pinafore." He was a member of the famous Daly Company at Daly's Theatre. Among some of the successes in which he appeared were "The Man from Mexico," "Take My Advice," "On the Quiet," "The Dictator," "Nothing but the Truth," and "Caught in the Rain." "The Servant Question" is a photo play which gives Mr. Collier opportunity to solve many problems besides that of domesticity in his inimitable, laugh-provoking and rib-tickling manner. He "cleans up" crooked card games, impersonates a butler, runs down some international gem thieves, and wins "the only girl"—and all in his best Collier-esque manner.

More Tariff Revision.

AMERICAN GOVERNMENT'S PROBLEM.

WASHINGTON, Oct. 12th. (By Canadian Press.)—Another tariff revision in two years is the problem that confronts the United States Government. Congress has just passed through the throes of passing one tariff measure but it is recognized generally as temporary. Belief is that another tariff measure will have to be enacted either in the regular session of Congress in the winter and spring of 1924 or an extra session early in 1925. Representative Gren of Iowa, who will be the new chairman of the Ways and Means Committee to succeed representative Fordney of Michigan, frankly says the tariff law will have to be replaced by a new one before long. He thinks it will have to be done in about two years. He says that the changing world conditions made it out of the question that the present law should be kept long on the statute books. While the new law has flexible provisions, they will not take the place of an actual revision of the law in case the new measure is found to be unsatisfactory or conditions materially change. Not on v. is this obvious from the fact that the President under the flexible provisions will be hampered in the future by legislation, but the tariff commission seems disposed to make a little attempt to operate under the flexible provisions for some months until it has larger appropriations. High tariff men in Congress want to see the commission do as little as possible and hope the flexible tariff will prove a disappointment to the country and will be eventually knocked out by the courts. Altogether there are many obstacles in the way of the flexible or elastic tariff and this point seems to point more clearly than might otherwise be the case to another revision of the tariff by Congress at a comparatively early date. The matter of another tariff revision is of the utmost importance to Can-

ada and the question of commercial relations between the United States and Canada. If the present high tariff wall proves a serious handicap to trade between the two nations and is hurtful on both sides of the line, many think it will be, there will be a real opportunity, when another revision comes, of bringing about more liberal tariff relations between the two countries.

The Original and Only Genuine

YARMOUTH, N.S.

Queen Mary and Mary Queen.

(From the London Post.)

A happy incident marked the visit of the Queen to Aberdeen, where she received the honorary degree of LL.D. of the University. Her Majesty's engagements included a visit to the Aberdeen Orthopaedic Sub-Centre. One of the patients at the Centre is the ten-year-old daughter of a soldier who died in the war. The Pensions Ministry had sanctioned her admission to the institute, with the view of the cure of infantile paralysis from which she suffers. When her Majesty came to the child's cot, the little occupant lifted a bouquet of sweet peas from the coverlet and handed it to the Queen. "What is your name, dear child?" asked her Majesty. "Mary Queen," replied the girl. The Queen naturally imagined that the young patient had misheard her question and was greatly delighted when informed that the girl's name actually was Mary Queen. Patting the child on the head, the Queen smilingly remarked: "A coincidence, indeed, and a very nice name, I am sure you will agree."

ONE WAY

Father flung down his book with a bang and glared round at his offending offspring.

"I have been trying to get the room quiet so that I could hear a pin drop!" he roared, "but you make so much noise that it's been impossible to hear it. How do you think I can do it while you children are romping about and turning the place into a bear-garden?"

Cherry Tommy put his head from under the sofa and piped out: "Tis a dumb-bell to the pin, father!"

Just say
Blue-jay
to your druggist

The simplest way to end a corn is Blue-jay. A touch stops the pain instantly. Then the corn loosens and comes out. Made in a colorless clear liquid (one drop does it) and in extra thin plaster. The action is the same.

Pies and Pastry!

The digestibility of Pies has been called into question but, when properly made, pies are as easily digested as anything else.

Until quite recently it has been taken for granted by the majority of people that it was impossible to make good pastry out of Manitoba wheat without using a large amount of shortening—the proper kind of which is very expensive.

They have thought it necessary to keep two kinds of flour—one for Bread and the other for Pastry. This idea is erroneous.

"Windsor Patent" Flour (which is acknowledged all the world over as Canada's best) makes the most delicious pastry when the same amount of shortening is used as with ordinary pastry flour.
