LONDON, Nov. 3.

The latest of parliamentary candidates in the approaching elections is a list of one thousand and seventy nominated candidates. Conservatives, generally, are the most numerous, followed by the Labour party, and then the Liberal party. The list includes many names of note, including Mr. Lloyd George, who is recovering from his throat trouble.

London tomorrow. As the time limit for nomination expires tomorrow, keen curiosity exists over what the former Premier is going to do about his threat to "spread the war."

**ANGUS TURNS DOWN MAYFLOWER
CHALLENGE.**

HALIFAX, Nov. 4. Capt. Angus Walters, of the international champion fishing schooner Bluenose, replying tonight to a challenge from Captain Henry Larkin, of the schooner Mayflower, for a matched race between the two vessels, tells the Boston vessel's skipper that the Bluenose's offer for an ocean voyage race from Newfoundland to the West Indies and back, has been ignored for the past year. The Bluenose's share of the ten thousand dollar side bet has been idle in the meantime. Capt. Walters says, and adds, "let us stick to the original proposition of 1921, a proposition that appeals to fishermen with red blood in them. After that is disposed of, we will consider your hollywood proposition." Referring to Capt. Larkin's statement that the Bluenose, previous to her own victories, was twice beaten by the Henry Ford, and apparently

the Lunenburg vessel had not the courage to enter for a fifth race Capt. Walters' telegram says: "If the performance of the Ford meet your idea of what a fishing vessel should do in a twenty knot breeze, I suggest you race the Ford and forget all about the Bluenose, a vessel, by the way, that can win from the Ford any time a fisherman's chance offers."

CALIPHATE SUCCEEDS SULTANATE.

CONSTANTINOPLE, Nov. 3.

An end to the Sultanate in Turkey was unanimously decreed to-day by the Grand National Assembly at Angora. The Executive and Legislative powers of the country have been conferred by the Assembly upon the nation and the palace of the sublime porte, which "through corrupt ignorance for several centuries provoked numerous ills for the country, has passed into the domain of history." The Caliph is to be chosen by the Assembly from members of the Ottoman dynasty to succeed the Sultan, but the resolution of the Assembly announced that the Turkish Government would remain the keystone of the Caliphate. The Assembly also decided that all treaties entered into by the Constantinople Government since March 16, 1920, were null and void. While nothing definite is ascertained, it is reported in high quarters that there is good reason to believe the Sultan has disputed the legal character of the National Assembly's decision, it being declared that the Assembly was elected under abnormal circumstances.

NTED.**

BRUSSELS, Nov. 2.

The Belgian Government has sent a note to France, Great Britain and Italy, expressing a desire to be represented at the Lausanne Peace Conference during all the financial and economic discussions in order to protect Belgium interests. It has no wish to be included in the political and territorial discussions, but insists it should be heard in the modification of the economic provisions of the Sevres Treaty which Belgium signed.

**"The Sample Alone
Healed Me After
Years of Suffering."**

I had been a sufferer from facial eczema for about ten years. I was treated unavailingly by several doctors and remedies. About two years ago I saw D.D.D. advertised. I at once desired to give it a trial and sent for a sample bottle. The sample alone healed me and I have had no return of the trouble since. D.D.D. has been a godsend to me as well as to many others. I give you full permission to use these few lines to help to tell other poor sufferers about D.D.D.

MRS. HENRY HARVEY.

You write too. The D.D.D. Company of Toronto, for a sample and get immediate relief. Or, ask your druggist and he will tell you what D.D.D. has accomplished in your own neighborhood. Your money back unless the first bottle relieves you.

D.D.D.
The Lotion for Skin Disease**A Famous Admiral.**

Admiral John Benbow, who died at Jamaica on November 4, 1702, of wounds received in action was one of the finest of the fighting sailors of the old school and his name is still commemorated in the Navy List. Born in 1653, he first won noteworthy distinction at the battle off Beachy Head in 1690 and at Barfleur and La Hogue in 1692. In 1693-4 he was engaged in operations off the French coast; in 1696 he became rear-admiral; and in 1699 he commanded in the West Indies. Three years later, he returned as vice-admiral, and was opposed in Du Casse, whose squadron was active in operations against the English. On Aug. 19th, 1702, the two fleets met, and a long running fight followed. To Benbow the action was most honorable, but unfortunately the national honor was not upheld, as it ought to have been by some of his captains, who left their admiral for sustenance. A five day's engagement with a much superior enemy. His ship was reduced to a wreck; he was wounded in the arm and in the face, and his leg was shot away. Yet he continued to direct the action from a cradle on the quarterdeck. Had his subordinates but done their duty, a decisive victory would have been awarded his stubborn valor; but in the circumstances, he was fortunate to bring his own vessel safely into harbour at Kingston. For weeks afterwards he lingered on, but his injuries were mortal, although he lived long enough to send the captains by whom he had been deserted before a court martial, with the result that two of them were shot and one was cashiered, a fourth having died before the trial.
