Forest Destruction.

There are two ways in which

the natural resources of our country can be viewed. The angles of vision of these two on their differing viewpoints are stick of timber? diametrically opposed the one to the other. There is a mass of opinion that regards our natural resources as a heritage in trust for future generations—the Capfor future generations—the Cap-ital of the country to be fostered three or four days. To-day's exand developed with wisdom and change shows a jump of 4% points with frugality, while there is al- over the preceding day. The quotaso a body of opinion which tions are: or selfishness, looks upon our selling 4471/4 great riches as a treasure that may be exploited and wasted by Buying .. .:437% the present generation—Current Selling 442% Revenue that may be utilized to pay the deficits of spendthrift administrations.-Montreal Star.

The above paragraph describing the different viewpoints of of Nova Scotis, who had been invited the people in Canada regarding to come and give evidence at the Ennatural resources is equally true quiry, but who did not appear anx- arrainged before His Honor Judge ditions arising from death of Lenine when applied to the attitude of lous to undertake the journey here, Morris this morning.
