

General Orders to the Active Militia.

It being considered inexpedient to form camps of instruction for the annual training of the Active Militia during the financial year of 1873-4, the drill of all corps of Active Militia for this period is to be carried out at the local headquarters of the corps, under supervision of the officers commanding the corps, at such times between the 1st July, 1873, and the 30th of June, 1874, as may be most consistent for the officers and men resident in any city, belonging to a brigade of artillery or battalion of infantry. The headquarters of which are within such city are to prepare drill by companies or in a brigade, or battalion, or part in a battery or company, and part in a brigade or battalion as may be directed by the officers commanding such brigades or battalions. Rural corps attached for administrative purposes to city brigades of artillery, or battalions of infantry, are to perform the annual drills at their battery or company's headquarters, except in cases where, from proximity to the city, it may be more convenient for the battery or company to drill with the brigade or battalion; sixteen days drill, of not less than 3 hours during each of the 16 days, to be performed. The drill for all troops of cavalry will be carried out by the officers commanding, and the mode of forming the advanced and rear guards practiced as laid down in the cavalry regulations; also, the mode of extending as mounted skirmishers, and in firing with blank ammunition when mounted. Whenever circumstances will admit. The necessary instruction for the cavalry corps is detailed in the cavalry drill book of the 1st of August, 1869, and in addition to the introductory remarks contained therein will be paid to section 2, 3, 4, 5, 6, and 7, comprising military equitation. Cavalry target practice at 200 and 400 yards range; the drill for the artillery corps to consist of gun drill and such other regimental artillery exercises as may be deemed most essential and fitting. Officers commanding field batteries, should select the most simple and useful of the movements laid down in the manual of field artillery exercises. The drivers will be instructed in driving, cleaning harness, etc., the gunners in gun drill, dismounting and mounting guns, righting guns which have been upset, changing wheels, removing disabled field artillery, etc. Where facilities exist officers commanding field batteries should practice those under their command in throwing up cover for guns in action, moving guns and horses over falls, ditches, ravines, small streams or other obstacles, and, without adhering to strict rules, endeavor to stimulate the ingenuity and interest of all concerned. On the conclusion of the training of field batteries, all harness, saddlery, carriages, wagons and small stores will be replaced in the sheds in a perfectly clean state, and fit for immediate service. The drivers cleaning the harness. The gunners the guns and wagons. Officers commanding batteries, will be held responsible at any time when their batteries are suddenly ordered out, that the service ammunition and other necessary stores are complete and in good order. For infantry corps, squad, company, and battalion drill, including the manual and platoon exercises, skirmishing and rifle instruction—two days to be occupied in squad drill, four days in company drill, two days in theoretical rifle instruction, four days in target practice, and four days in skirmishing drill. The annual course of rifle instruction and target practice for the infantry is to be considered of primary importance as a military exercise, the non-commissioned officers and men of all corps armed with the Snider rifle will fire ten rounds each at the distance of two, four, five and six hundred yards respectively. At the conclusion of the training, the shooting figures, together with the names of the best shots in every company, battalion, corps and brigade, will be rendered to the Adjutant-General by the officers commanding the Militia in the respective military districts, for publication in the annual report to Parliament. The annual general inspection of corps will be made by the Deputy Adjutant-General and brigade major of districts; these officers, divided as the duty as may be most convenient. The regimental inspection of artillery corps, by the Inspector of Artillery, to take place at the same time as the annual general inspection of such corps made by the District Staff Officers. The rates of pay for officers, men and horses will be as follows: Officers, one dollar per diem; non-commissioned officers and men, fifty cents per diem for sixteen days' drill of three hours each, or for thirty-two drills of one and a half hours each; the pay for horses will be allowed at the rate of seven cents per net horse for each drill of three hours; the number of horses actually and necessarily present at each such drill, not exceeding 45 for each field battery of artillery, and the number of horses actually and necessarily present at the drill of each troop of cavalry, provided that at least one-half the strength of the field battery or troop of cavalry, and at least one commissioned officer, shall attend each such drill, or for the horses necessarily used by mounted officers of corps authorized to drill in brigades or battalions. The course of drill and target practice required of each arm of the service to be certified to according to forms which will be supplied from headquarters.

Iron in the Blood

PERUVIAN IRON SYRUP

MAKES THE WEAK STRONG.

The Peruvian Syrup, a Protected Solution of the Protocyanide of Iron, is so combined as to have the character of an aliment, as easily digested and assimilated with the blood as the simplest food. It increases the quantity of Nature's Own Vitalizing Agent, Iron in the blood, and cures "a thousand ills," simply by Toning up, Invigorating and Vitalizing the System. The enriched and vitalized blood permeates every part of the body, repairing damage, and waste, searching out, and expelling, and leaving nothing for disease to feed upon.

This is the secret of its wonderful success of its remedy in curing Dyspepsia, Liver Complaint, Dropsy, Chronic Diarrhoea, Boils, Nervous Affections, Chills and Fevers, Humors, Loss of Constitutional Vigor, Diseases of the Kidneys and Bladder, Female Complaints, and all diseases originating in a bad state of the blood, or accompanied by debility or a low state of the system. Being free from Alcohol, in any form, its energizing effects are not followed by corresponding reaction, but are permanent, infusing strength, vigor, and new life into the system, and building up an Iron Constitution.

Thousands have been changed by the use of this remedy, from weak, sickly, suffering creatures, to strong, healthy, and happy men and women; and include cannot reasonably hesitate to give it a trial. See that each bottle has PERUVIAN SYRUP blown in the glass. Pamphlets Free.

J. P. DINSMORE, Proprietor, No. 83 Bay St., New York. Sold by Druggists generally.
