village Tuesday, and despite the late  
state of the weather, the decided  
attendance. The number and quality  
of the exhibits were very satisfactory,  
and just what might be expected  
from the large number of enterpris-  
ing farmers who have been encour-  
aged by the horses was a very good  
one. There were many fine horses,  
there being many splendid animals on  
exhibition, and all the different classes  
draft, general purpose, carriage and road-  
ster, were well represented. The show-  
case was confined to the thoroughbreds  
Durham, or Shorthorns, and Goshawks  
grades and was perhaps as good an  
exposition of the quality of the show-  
case as any township could show.  
The show of the horses was also good,  
some very good Cotswolds, Leicester  
Lincolns and Shropshire Downs and  
Downs being found among the number  
of entries. The swine and also the poultry  
and the stock in general, were of a fine  
quality. The ladies' fine works de-  
partment maintained its position very  
creditably among the other fine exhibi-  
tions. The grain, roots, vegetables and  
other articles of the farm exhibit de-

Four of North's Dorchester's prominent citizens got together and they arranged to go out shooting in the vicinity of Mosley and Harrietsville about a week ago. The got some fine partridges, but the sport was spoiled by a bad storm. The sport was too strong, and they "langed" it them, killing a number.

The death of Mr. David Henderson occurred on Sunday at his residence, North street, Southwold, at the age of 66. He was a native of Scotland, but had been in the country for many years. He was a member of the Presbyterian church, and was a very active member of the same. He was a very kind and generous man, and was very popular in the township of Westminister, and lived there about twenty years ago, when he moved to Southwold, where he died.

Judge Woods.

Dr. J. A. Robertson, city health officer, has made an analysis of the rock water and pronounced it very pure and healthy. It is likely the water was plugged at the depth of about 500 feet and a pump inserted. The present supply is not always satisfactory and a well would be of great advantage to the community in this place at the time of the epidemic.

It was due to the fact that the city council had decided to place the water pump on the lot owned by the Fire, Water and Light Committee was \$2500 in excess of the amount actually needed, and a contract was introduced to have the water pump transported to the Board of Works, and the city was to have to pay for it. Some of the council members, however, did not favor the purchase of this pump, and the result was that of this encouraging extravagant expenditures on the part of the Board of Works and the motion was laid over.
