Desperate Remedies

Owen felt this to be the case in his own and Edward's attempts to follow up the clue afforded them. Think as he might, he could not think of a crucial test in the matter absorbing him, which should possess the indispensible attribute—a capability of being applied privately, that in the event of its proving the lady to be the rightful owner of the name she used, he might recede without obloquy from an untenable position.

But to see Mrs. Manston's eyes from where he sat was impossible, and he could do nothing in the shape of a direct examination at present. Miss Aldelysse had possibly recognized him, but Manston had not, and feeling that it was indispensible to seep the purport of his visit a secret from she steward, he thought it would be as well, boo, to keep his presence in the village a secret from him; at any rate, till the day was over.

At the first opening of the doors, Graye Jeli the church and wandered away into the fields to ponder on another scheme. He rould not call upon Farmer Springrove, as he had intended.

Just as Good,
Perhaps: but if just as good as Putnam's, is that not a very high recommendation for the original and best corn cure? Putnam's Painless Corn Extractor. The lessons of the incidents are as simple as the incidents themselves, and history neither miraculous nor legendary gives those lessons abundant attestation.

neither miraculous nor legendary gives those lessons abundant attestation.

1. On the very threshold of the narrative we are met with that lesson which Christ afterwards phrased in the counsel to his disciples to "consider the birds of the air how they sow not, neither do they reap, nor gather into barns, yet your heavenly Father feedeth them. Are ye not much better than they?" The story of Elijah, interpret it as we may, affords us a beautiful illustration of this truth, that God provides for those who give themselves to his service. It is the same truth which finds illustration in the home of Mary and Martha at Bethany, where was sheltered and cared for the Christ, who had not of his own where to lay his head; in Paul's experience, rejoicing in the provision made for his wants while a prisoner at Rome, by the remembrances and gifts of his Philippian friends; in the lives of innumerable preachers who, giving up the ordinary avenues of wealth and ambition, find their lives adequately if not abundantly peovided for, while they, freed from the cares and anxieties of business life, give themselves to the delightful service of love; in notable historic cases as in Mueller's hospital, built by faith, or our own Dwight L. Moody, whose unsalaried life, consecrated to the service of God, with no organization behind him pledged to his support, has brought forth such fruits as the schools at Northfield and the church and the lay preachers' seminary at Chicago. By the side of these evidences of the power of God to feed the prophets who trust in him, the

Histogenetic System of Medicine.

Our representative will be at London, Grigg House, Room 2, on Tuesday and Wednesday, 13th and 14th January. Everybody call for free book explaining the new system. Testimonials:

plaining the new system. Testimonials:

I was attacked last fall with lung and throat disease, and run down till I got very weak. I had a very bad cough, which troubled me night and day. My case was pronounced consumption by a prominent physician, who gave an unfavorable opinion to my friends as to my chance of ever recovering. I then had the misfortune to get la grippe, which complicated my case and made it seem hopeless. I was attended for ele ven weeks by a skillful physician of this city, and received no benefit. I gradually grew worse, and became much discouraged. A friend of mine sent me a medical book explaining Dr. J. Eugene Jordan's Histogenetic System of Medicine. I consulted Dr. Rear, medical examinar for the association. He gave me a thorough and careful examination, and through his advice I commenced taking the Histogenetic treatment. In one week I felt a great improvement; in three weeks I resumed my business, and have not lost a day since, I am getting strong and hearty, and will soon be as well as ever. I do not think any system of medicine so harmiess, pleasant, and attended with such quick and permanent results as the Histogenetic. HENRY HOPCROFT, 744 Markham street, Toronto, Oct. 25, 1890.

PARALYSIS CURABLE AT LAST.

system of medicine so interiors, incare and any authernant street. Toronto, Oct. 25, 1890.

PARALYSIS CURABLE AT LAST.

I have been paralyzed in the lower limbs, tongue and eyes for two years, also memory very much impaired, loss of muscular power, great debility, unsteady gait accompanied by dizziness and general derangement. I could not perform work of any kind most of the two years. Would frequently fall, striking upon my head, owing to sudden complete loss of power in my limbs and nerves. In San Francisco I was treated by two skillful physicans of the allophatic school without any good results whatever. I then tried one of the best physicians in Winnipeg and he did me no good. I began to feet that all hope was gone. I happened to passing the Histogenetic Medicine Offices in the Henderson Block, Winnipeg, and seeing the passing the Histogenetic Medicine Offices in the Henderson Block, Winnipeg, and seeing the no good result, I resolved to try the new system, and although I had spent so much money tithe remedies about two months there and continued for three weeks longer in Toronto, getting the same medicine at the Head Office for Canada. I am radically cured and have required my business, and am able to work all day as usual. These beautifully prepared tastelest e medies are better than diamonds or gold, and I hope all affected as I was will try them, hey are the only sure and safe remedies. JOSEPH PERKINS, Toronto.
