By the treaty of Berlin the war ships of foreign nations are not allowed to pass the Dardanelles without the permission of the Sultan, and it has been hitherto customary to allow only one small dispatch boat as a kind of guard ship for each of the embassies. The recent rioting in this city, however, has alarmed the powers, and more boats are considered necessary. London, Nov. 23.—A dispatch from Constantinople says that the embassies have been informed that tribunals empowered with final decision will be immediately formed in Armenia. The tribunals will virtually exercise martial law and will try all persons accused of causing disturbances. The dispatch adds that unless the tribunals are carefully supervised there will be a bloody assize. The Sultan has appointed Menduh Pasha, Minister of the Interior, Rechid Bey and Neff Effendi a special committee 583 00 of supervision to restore order in 946 39 of the measures to restore order in 555 28 Anatolia. The victims at Aintab num-

the massacres there were begun and ended by Turkish soldiers acting under orders rather than by the populace, who followed the lead of the soldiers throughout. The soldiers and their civilian allies plundered 1,000 dwellings and 2,000 shops and killed 1,000 men, women and children. The Government, the letter says, is now en-deavoring to restore to the people such of their property as may be available, and to distribute bread among the starving inhabitants. The Sultan has granted firmans to the powers, allowing each of them to have a second gunboat in the Bosphorus.

CABLE NOTES. Thirty thousand troops under Gens. Pando and Maxim have been ordered to go aboard the vessels that will convey them to Cuba. Information has reached Sydney, N. S. W., that Sir Wm. Macgregor, administrator of British New Guiana. narrowly escaped being murdered while visiting a friendly tribe, owing to the treachery of the natives. Rev Jos. Rawson Lumby, D.D., professor of divinity at St. Catharine's College, Cambridge University, and one of the splendid scholars of Great Britain, died last night at his residence in Grand Chester, aged 65.

THE Y. M. C. A. PLUMBING. This line of work in the new building now being erected is of considerable magnitude, being one of the largest contracts, if not the largest, of its kind which has been awarded in this city for many years It has been secured by Mr. Thomas L. Partridge, sanitary plumber and gasfitter, 191 Dundas street, in the face of keen competition with a large number of competitors. Mr. Partridge is a young man of practical experience, and has earned for himself an excellent reputation for workmanship and reliability since entering business on his own account, which assisted him very materially in securing the Y. M. C. A. contract.

By strict attention to business and the wants of his customers he retains their patronage, and has established for himself a creditable business.

Excused by the Verdict of a New York

Jury: New York, Nov. 23 .- David F. Hannigan, who murdered Soloman H. Mann, has been acquitted on the ground of insanity. Nobody supposes that Hannigan was actually insane. The jury's verdict is practically a vindication of the alleged right of a brother to murder a man whom he has reason to believe has caused a sister's ruin. Mann, who had employed his slayer's sister, accomplished her dishonor, and her death followed a surgical operation. Hannigan subsequently met Mann on the street

and shot him. William Hannigan became very ill during his son's trial, and died only a few minutes before a verdict was returned. Hannigan will be kept in jail for a few

days until the excitement has subsided. Ho! for Atlanta and the Sunny South.

## For Infants.

The greatest care should be exercised in the selection and use of a food for infants. Upon the diet depends their life and growth, and the proper nourishment in infancy and childhood will insure the development of healthy and

robust adults. It is universally admitted that a mother should, if she is able, nurse her child; if she cannot, or if for some good reason it is not advisable either for herself or for the child, then the best alternative is the use of a proper artificial food. The substitute should correspond as nearly as possible, both chemically and physiologically, to mother's milk, because nature's work can never be improved. The bad effects of hand feeding can be traced to the disregard of this essential principle, and they

disregard of this essential principle, and they are seen not only during infancy, but also in childhood, and perhaps in the ill health of adult years. Every parent wishes his child to have vigorous health and a rugged constitution, since upon these, future happiness and success in life will largely depend.

Melln's Food is the only perfect substitute for mother's milk, being the only infant food corresponding chemically and physiologically to mother's milk. Infants relish it at once, and are exceedingly fond of it. If they have been weak, fretful, or troublesome, they will become strong, healthy and active. They will be well nourished, and will have firm muscles and strong bones, rosy cheeks and bright cres, and will be happy and laughing all the day long; they will thrive beyond the mother's fondest expectations. You will have no more sleepless nights because the baby is worrisome, or is screaming with colic. Sold in London by CAIRNCROSS & LAWRENCE, Druggists. 216 Dundas street, London, Ont. I shall be always glad to communicate what is desirable to be known, both in the interests of the company and the public.

Meantime, here I am on a visit of a
few hours. I have been here before. I know Mr. Seargeant well; I know Sir William Van Horne, Mr. Shaughnessy, and all your prominent railway men. Montreal, I see, is growing fast. You have a fine city. Your population is increasing. I think we have turned the corner of the depression. We have done so in the United States, and I believe in Canada we may look for better times, for, after all, what affects one country affects the other. All railway interests have suffered, and it is about time there was a turn for the better. The prosperity of the railways means the prosperity of the country as a whole. What affects one affects the other. You have had an abundant crop in Canada, which is a strong feature in your favor, and we may all indulge in the hope of prosperity."

## The Longest Word.

The longest word in the English language is not "smiles," although there is a mile between its first and last letters (s.mile-s). One of of the happiest words, however, is health; real, rugged, robust, rousing, red faced health. There is neither boon nor blessing like it. Yet thousands have lost it and it stays lost. This need not be. Myriads have regained their health by using Dr. Pierce's Golden Medical Discovery. An invaluable remedy for consumption or lung scrofula, bronchitis, asthma, cough, heart disease, fever and ague, intermittent fever, dropsy and many other diseases.

So rapidly does lung irritation spread and deepen, that often in a few weeks a simple cough culminates in tubercular consumption. Give heed to a cough; there is always danger in delay; get a bottle of Bickle's Anti-Consumptive Syrup, and cure yourself. It is a medicine unsurpassed for all throat and lung troubles. It is compounded from several herbs, each one of which stands at the head of the list as exerting a wonderful influence in curing consumption and all lung dis-
