Red Rose Tea

Because it is tested by skilled tea tasters.

Tea tasting can well be called one of the fine arts A man who can taste several hundred cups of tea a day, and, by his keen senses, detect the slightest difference between them, and who, blindfolded, can tell where each and every tea was grown, not only the country, but the particular district, and often the very plantation -such a man is the professional tea taster.

The head man in my tea room, Mr. W. R. Miles, is a master in his profession. He learned the business in London, Eng., and is a tea taster by right of birth, as both his Father and Grandfather were tea tasters. It came natural to him and he is recognized as one of the

best judges of tea in America. He and his assistants do nothing but taste the teas, and superintend the blending.

RED ROSE TEA is the result.
