Noted Editor Will Address London Chamber of Commerce Next Thursday.

el S. McClure, founder of Mc Samuel S. McClure, founder of McClure's Magazine, and long its editor, will arrive in London on Thursday next, to spend some hours here as the guest of the chamber of commerce. The invitation to Mr. McClure was extended by the directors and members counc of the chamber, and was accepted, the guest wrote, because he was anxious to see a city of which he had heard much. Mr. McClure has positive ideas on what he summarizes as "world condi-tions today." In fact, that is the title of the talk he will deliver in the even ing of the day of his arrival, in Masonic Hall, Queen's avenue. His point of view has so startled audiences in the United States, and he has so high a regard for the possibilities of Great Britain and his own country to meet the conditions which he sees, that hamber of commerce believed London

Briefly he holds that unless checked the Asiatic races are likely to assume world leadership, wiping out the con-trol now held by the white men of Great Britain and the United States. He backs up his assertions with an array of facts of recent occurrences, and while disclaiming to be an "alarmemphasis on the statement that ther must be a combination of the whit races to meet the coming sweep of th

Plans to Encircle Globe in Aeroplane

Ottawa, Sept. 16.—(Canadian Press.)—The first round-the-world trip by aeroplane is contemplated by Sir Ross Smith, the British airman who last summer successfully negotiated the flight from England to Australia. The starting date is not yet announced, but it is understood that the trip is to be made be fore the winter sets in. He will use a special type of machine of amphiblan design, allowing for alighting with equal facility on land or water. The route is to take in Canada, from British Columbia to Cape Breton.

Starting from England, the line of flight will probably be Middle Europe, Mesopotamia, India, China and Japan. Thence northward across the Bering Sea to Alaska. Sir Ross will come into Canada from Wrangel, Alaska, on the northern boundary of British Columbia. In this conection the Canadian Air Board has mapped out, at the request of Sir Ross Smith, a combined seaplane and aeroplane route across the Dominion, from Kadiak Island, Alaska, to St. Johns, Newfoundland. The first Canadian stopping point will be Prince George, then Edmonton, minion, from Kadiak Island, Alaska, to St. Johns, Newfoundland. The first Canadian stopping point will be Prince George, then Edmonton, Moose Jaw, Winnipeg, Fort William, Sault Ste. Marie, Montreal, Freeericton and Sydney, a total distance of 3.755 miles over Canadian territory. The stages will average 400 miles each. The air board has given Sir Ross particulars as to landing flads available at each point, as also notes as to repairing, refueling and housing facilities at each place.

The air board has also supplied an alternative route to the south after arrival at Winnipeg, taking in as stopping points St. Paul, Chicago, Pitesburg and New York, then north again to Yarmouth and
