

Western Fair Board Committee Favors 25-Cent Gate Despite Council View

BOARD WILL TALK ADMITTANCE FEE

Tickets and Gates Committee of Western Fair Favors 25-Cent.

MEET ON THURSDAY

The members of the tickets and gates committee of the Western Fair are of the opinion that it would be advisable to go ahead this year on the basis of a 25-cent gate charge for the fair, regardless of the attitude of the city council in guaranteeing to make up any deficit by way of a \$5,000 grant.

The committee feels that the lower figure is the logical fee to charge, and that by adopting it it will be possible to bring in a greater number of people, in this way equalizing the gate receipts with other years, and also making the exhibition of greater value to those who buy space on the grounds.

The directors will meet on Thursday to deal with the report, and while there may be some little difference of opinion, it is expected that the report of the tickets and gates committee will be adopted, and the board will then be in a position to appeal for greater support than ever.

Several local organizations have promised that they will join hands with the directors and do everything in their power in the way of giving publicity to the Western Fair, realizing that it is the best advertisement that London can get.

With the 25-cent gate charge there will be the appeal to all classes of the community to get behind the fair and demonstrate that it can be made a big success on that basis.

GREER LOSES MOVE TO BAR UNION MARK

Council Majority Upholds Keeping Clause in All City Contracts.

While Ald. Greer last night took such a decided stand on the question of union labor in the matter of printing the city's list, he was only backed up in his arguments by Ald. Botttrill, Shaw and Towne.

It has been the custom of the city council in the past to require that the union labels be attached to all printing work done for it. This was the clause that these aldermen took objection to.

Most of the printing shops in this city which use the union label are small shops, said Ald. Greer. "It would be fairer to the large shops to do away with the clause to have the work done in a shop using the union label."

He accordingly moved that the clause should delete this clause from the contract, but was defeated when it was put to the vote. The mayor and Ald. Douglas, Anderson, Drake, Smith, Hayden, McKay, and McKay, Ald. Warren and Walsh were absent.

Ald. McKay maintains that the use of the union label on all work done for the city is the only safeguard the city has that conditions in the shop doing the job are as they should be.

"To do away with this label," he says, "is to lose the only safeguard we have that the work is produced under conditions that should prevail in any printing shop. We have always got along well enough in the past, and there was no need to delete the clause."

Ald. McKay maintains that the use of the union label on all work done for the city is the only safeguard the city has that conditions in the shop doing the job are as they should be.

FAINT FLICKERS OF EYELID SAVES MAN FROM MORGUE

William Ford, 70, of Denver, Becomes Unconscious While in Barber's Chair.

THOUGHT DEAD

Ambulance Aide Sees Signs of Life as Party Is on Way to Hospital.

Denver, Aug. 6.—The faint flicker of an eyelid changed the destination of William Ford, 70 years of age, from the county morgue, where his supposedly dead body was being taken, to the General Hospital today.

Ford, accompanied by his wife, went to a barber shop to get a haircut while he was sitting in the barber chair he suddenly slumped over, his body becoming limp and apparently lifeless. After a hasty examination, Mrs. Ford called the police, who rushed to the scene. The police notified Deputy Coroner George Hostwick.

Hostwick answered the call in the General Hospital ambulance and, placing the body in the machine, started for the morgue. As the ambulance pulled away from the shop, Hostwick thought he saw a sign of life, an eyelid seemed to move, and a closer examination showed that Ford still lived. He was rushed to the hospital and revived. Physicians report that he will recover. Mrs. Ford stated that her husband suffered a sunstroke four years ago and never fully recovered from its effects.

C. N. SHOPS OPEN AFTER SHUTDOWN

About 130 Members of London Staff Are Laid Off Indefinitely.

After a week's shutdown the local C. N. R. carshops reopened on Monday morning, but with about 600 men on the staff. About 130 were laid off indefinitely.

It would seem since the shops are reopening without interruption on the basis of a 40-hour week, that the local employees of the company have voted in favor of a reduction in the number of the staff in preference to working with the full staff three weeks during each month. The saving to the company has thus been effected by reducing the number of employees by 130, and reducing the working hours by four each week, as indicated above.

The Stratford and Montreal shomans have voted in favor of closing down one week each month, instead of laying off a number of the men indefinitely.

Most of the printing shops in this city which use the union label are small shops, said Ald. Greer. "It would be fairer to the large shops to do away with the clause to have the work done in a shop using the union label."

He accordingly moved that the clause should delete this clause from the contract, but was defeated when it was put to the vote. The mayor and Ald. Douglas, Anderson, Drake, Smith, Hayden, McKay, and McKay, Ald. Warren and Walsh were absent.

Take Customers For "Imbibing"

Canadian Press Despatch. Winnipeg, Aug. 6.—Continuing the campaign against "beer selling" hotels in Winnipeg, the police municipality adopted new tactics last night when they arrested sixteen "customers" at one hotel along with the proprietor and a bartender. In previous raids only the members of the hotel staff were arrested. There is still a number of the 200 members from the United States to arrive.

The main body of the overseas members reached Toronto last night headed by Major-General Sir David Bruce and Sir Ernest Rutherford. This afternoon the leading members of the association will visit the parliament buildings to receive the official welcome of the Ontario provincial government.

At the unusual gathering this evening, when Sir David Bruce will deliver his presidential address on the prevention of disease, Hon. Dr. Forbes Godfrey, minister of health for Ontario, will represent the government of the province in voicing its appreciation of the work of the scientists and Mayor Hiltz will offer a welcome on behalf of the city.

SCIENCE MEETING BEGINS TONIGHT

Nearly All Overseas Delegates Are Now in Toronto For Great Convention.

Canadian Press Despatch. Toronto, Aug. 6.—With the arrival this morning by boat and train of 70 members of the British Association for the Advancement of Science, from Britain practically all those attending from overseas are present for the inaugural of the seven-day annual meeting of the organization at Convocation Hall tonight. There is still a number of the 200 members from the United States to arrive.

The main body of the overseas members reached Toronto last night headed by Major-General Sir David Bruce and Sir Ernest Rutherford. This afternoon the leading members of the association will visit the parliament buildings to receive the official welcome of the Ontario provincial government.

Bedtime Stories.

Uneasy Lies The Head That Hears The Rain.

NEGRO MOVEMENT CENTERS HERE

Mass Meeting Planned For Monday Night To Formulate Plans.

A meeting of the negroes of London will be held in Usher Hall, on Monday night for the purpose of advancement of the negroes of Canada. It is hoped to develop a nation-wide movement in the Dominion. London is to be the home of the new movement.

J. F. Jenkins, editor of the Dawn of Tomorrow, the London negro paper, and the only one in Canada, said today that he had approached leading citizens of London, and they had pledged their moral support and assistance to the movement.

Those who attend the meeting will consider the advisability of organizing a permanent society. Should the society be formed it will go through the matter of higher education for the Canadian negro. Mr. Jenkins, up to the present time the negro has not gone very far in secondary training, and it is hoped that the new movement will stimulate an interest in high school study for the youth.

This movement has nothing to do with the Marcus Garvey clique in the United States. This is not a strictly religious movement, but rather a social, educational and industrial movement, as well as one of religion.

The negroes of London are not in sympathy with the Marcus Garvey movement, said Mr. Jenkins. London negroes differ in two points with the Marcus Garvey movement. They do not believe in setting up a black god, as he is alleged to have suggested. Neither do they believe that all negroes should go back to Africa. This is the basis of the fundamentals of the Garvey movement, said Mr. Jenkins.
