### A TEST EXPERIMENT.

Peculiar Power Possessed by a New Medicine.

Of new discoveries there is no end, but one of the most recent, most remarkable and one which will prove invaluable to thousands of people, is a discovery which it is believed will which recently arrived here from Sa- take the place of all other remedies vanilla on the cruise Cartagena, with for the cure of those common and obstinate diseases, dyspepsia and stomhief of those forces, to embark all ach troubles. This discovery is not a loudly advertised, secret patent on the reyal mail steamer Orinoco, medicine, but is a scientific combination of wholesome, perfectly harmless vegetable essences, fruit salts, pure pepsin and bismuth.

These remedies are combined in loz enge form, pleasant to take, and will preserve their good qualities indefinitely, whereas all liquid medicines rapidly lose whatever good qualities hey may have had as soon as un corked and exposed to the air.

This preparation is called Stuart's

Dyspepsia Tablets, and it is claimed that one of these tablets or lozenges will digest from 300 to 3,000 times its own weight of meat, eggs and other wholesome food. And this claim has taining order. The tablegram comes been proven by actual experiments from the three coruls, constituting in the following manner: A hard boiled egg cut into small pieces was placed in a bottle containing warm water heated to ninety-eight degrees (or blood heat); one of these Tablets was then placed in the bottle and the prohas receive a cablegram per temperature maintained for three hours and a half, at the end of which time the egg was as completely diing that he had laned marines, such action being necessary to protect the healthy stomach. Some will suffer most from distress after eating, bloating from gas in the stomach and bowels, others have acid dyspepsia or heartburn, others palpitation or headaches, under shoulder blades, extreme nervousness as in nervous dyspepsia, but they all have the same cause, failure to properly digest what is eaten. The stomach must have rest and assistance, and Stuart's Dyspepsia Tablets give it both, by digesting the food for it and in a short time it is restored to its normal action and vigor.
