He would, if possible, have the arbitration board anticipate a strike. He thought the suggestion of the Chief Justice, that before unions struck they would be required by law to register their grievance with a Supreme Court judge, was a good one. Then the other side could register theirs. He also thought the suggestion a good one, that there should be a public investigation of labor difficulties required by law; that is, if the compulsory arbitration scheme was found impracticable. He thought the government should appoint the judge to be chairman of the arbitration board. He thought the president of a company, or a labor organization had no right to stop a public service.

Vancouver, June 12.—Counsel for the U. B. R. E. and the C. P. R. at the labor commission, both stated this afternoon that the strike was settled. The commission, however, is still taking evidence. Movement to Abolish Monarchy In Servia is Gaining Ground.

The Cavalry and Infantry Still Continue to Patrol the Streets.

Populace Tranquil But Are Fearful of Foreign Intervention.

Belgrade, June 13 .- The excitement aused by the assassination and the roclamation by the army of Prince Peter Karageorgevitch, pretender to the throne, as king of Servia, has apparently subsided, now that many hours have passed, and has been accepted by the capital and the Servian people with-

out a murmur.
The meeting of the Skuptchina on Monday is expected to confirm the proc-lamation as king of Prince Peter Karageorgevitch, and to recognize the new

monarchy altogether, and the creation of a republic, and this sentiment is shared by at least one member of the provisional government. Differences of opinion on this point developed today at a meeting of the cabinet, when the new foreign minister, Ljubinor Kalievics, ex-pressed himself for the establishment of

republican form of government. The majority of the ministers, however, declared themselves in favor of a new king in Prince Peter Karageorgevitch. They strengthened their declaration by the strong argument that it was certain that Austria and Russia would not countenance the creation of a republic. This is the view generally shared by

Cavalry and infantry continued to patrol the streets during the day. Occasionally expressions of compassion were heard for the "unfortunate" King and Queen.

The chief interest here centres in the approaching election of Prince Karageorgevitch as King of Servia, which is regarded as certain, although Prince Marle may have some votes. Here and there a republican tendency is noticeable.

Notices have been placarded on the walls of Belgrade, enjoining the people to preserve the laws and reminding them that meetings of any kind on the day preceding the assembling of the Skupchtina or during its session are strictly prohibited. Mingled with the general satisfaction felt at the success of the coup d'etat there is some sense of depression and anxiety at the pos-
