Waited for Forty Years. The handsomest girl in Sylvania county, Ga., became engaged, nearly forty years ago, to John Gross, the son of a wealthy planter. Shortly after the engagemen was announced, Gross went to New Or leans on business, forgot his lady love, set-iled in Texas, and did not return home until two years later. Though the lady

From the Mail (Canada) Dec. 15. Catarrh is a nnco-pirulent discharge caused by the presence and development of the vege-table parasite anneba in the internal lining membrane of the nose. This parasite is only developed under favorable circumstances, and these are: Morbid state of the blood, as the blighted corpuscie of tubercle, the germ poison of synhilis, mercury, toxemea, from the re-tention of the effeted matter of the skin, sup-pressed perspiration, badly ventilated sleeping apartments, and other poisons that are ger-ninated in the blood. Many attempts have been made to discover a cure for this distressing disease by the use of inhalants and other ingenious devices, but none of these treatments can do a particle of good until the parasites are either destroyed or removed from the mucous tissue. Some time since a well known physician of forty years' standing, after much experiment-ing, succeeded in discovering the necessary combination of ingredients which never fails in absolutely and permanently eradicating this horrible disease, whether standing for one year or forty years. Those who may be suf-fering from the above disease should, without delay, communicate with the business man-agers, Messirs. A. H. A Sad Change.

In the old days no woman was allowed to desecrate the monastery at San Augus-

tin, Mexico, by so much as putting her foot within its walls. A noble lady of foot within its walls. A noble lady of Spain, wife of the reigning vicercy was bent on visiting it, nothing could stop her, and in she came. But she found only empty cloisters, for each virtuous monk locked himself securely in his cell, and afterward every stone in the floor which her sacrilegious fielt had touched was care-fully molecular due new ones frosh from the fully replaced by new ones fresh from the mountain top before the pollution of her presence was considered removed. But times are sadly changed, and the house has been turned into a common hostelry.

To-day at the Bon Marche, on the second floor, there will be offered three cases of first-class the paintings, boucht in London, England, at 85 6d. on the pound. The paintings were executed by well known artists. Landscapes by Hull, Wall and Knight; mar ine views by Broom ; animals by Langlois. 7 and 9 King street cast, Farley & Co.

Claret drinking has greatly gone out in Dublin since Grattan uttered his famous aphorism, "Cold mutton, provided I have plenty of claret with it." Barton and Sneyd were the great claret merchants of Ireland. Of the latter it is told that one right when he entertained the duke of ond, the lord lieutenant, he drank so much claret that he fell under the table. Sneyd was lifted up and replaced in his chair, on which somebody said: "I believe this is the first instance of a protestant this is the inst instance of a processing of the local formation of the host.
