He has no servants to provide accept a cook and scullions and chambermaids. Congress furnishes him with a steward and everything else in the servant line at a cost of about \$15,000. He has not even to provide matches. The appropriation for fuel and lights distinctly specifies that it shall include matches. He has to buy his butcher's meat and groceries and his wine, however, when he gives a dinner party. Pretty nearly all else is given him, and lest there should be something overlooked a contingent fund of \$500, which he is at liberty to spend as he thinks proper, rendering no account to anybody, is added as a cap sheaf.

those stately elms shall be felled and the ruthless readmaker let loose to obliterate Nature's handicraft! If no better reason were forthcoming for the purchase, one could be found in the fact that the new Parliament Buildings will reduce the present health-and-pleasure resort in that neighborhood by one half. There ready to hand is a magnificent park that many an American city would think cheap at ten times the sum asked by the University. And if the act of vandalism is perpetrated, tradition and history will not fail to hand down the names of the men targemental for this outrage on the next generation of Toronto men and women. It will cost ach friises less per annum to pay his share of this purchase than it will cost him to convey his family once in the street cars to High Park. How there can be a question about it is unintelligible to the ordinary mind which has watched public outlay of money where not a tenth of the cause for its expenditure was in existence.

The large number of drownings in Toronto and vicinity should impress upon all the accessity of being able to swim. It is such a simple process there is scarcely an excuse for not possessing the accomplishment. With its long stretch of water front, every man, woman and child in Toronto should be able to swim, and to do so with a full suit of clothes and in necessary.
