WATFORD, AUGUST 9, 1907.

A Word About the Schools.

It is a mistake to teach children a little of everything, and nothing thoroughly. About all education can do for a man or a boy is to set him to thinking for himself. The germ of originality in the individual needs cultivation, needs stimulant. The head cramped with the ideas of other people has little room for its own thought. Many a boy is so thoroughly schooled that the common sense, the will power, the self-reliant manhood is driven out of him. A load of facts with no education in their use is of little value. The most successful business men in our cities are those whose scanty education embraced a thorough knowledge of simple rules and studies, but whose necessities have since demanded vigorous thought, incessant industry and the best use of every source of mind and body. The hot bed system of education enfeebls rather than strengthens. Only a few require the classics, astronomy, or a knowledge of the dead languages.—*Leamington Post.*

Is Your Cold Better?

No, it's as bad as ever. Nothing seems to help. Why not use the up-to-date specific "Catarrhzone," which drives out cold in one day. Inhale Catarrhzone and you will be relieved in two minutes. Continue the treatment and cure is assured. Healing, germ destroying and pleasant, nothing for colds, throat trouble and Catarrh compares with Catarrhzone. Sold everywhere, 25c and \$1.00.

Ontario Flour in the Eastern Provinces.

Only by wisely adopting new discoveries can the farmers of this Province compete on even terms with the West, whose specialty is wheat. Western flour has invaded Ontario, and the decline in the demand for Ontario wheat is to-day a fact only too evident to farmers. Ontario agriculturists, in many instances, buy Western flour, raise little or no wheat, and for what they do raise, are not receiving a price commensurate with their labor—all, largely because they will not use the flour made from wheat that they grow themselves, owing to a mistaken belief that the Western flour is better. In addition to this loss of market, the cost of feed is too high to enable stockmen and dairy-men to realize the profit which, under proper conditions, ought to be assured.

It will be somewhat of a surprise for most farmers to learn that Ontario flour is a favorite in the Eastern

provinces; and that in the face of strong competition, it has for several years been preferred in the Maritime Provinces, to the best Western brands. The discovery of flour-blending bids fair to re-open the demand for Ontario wheat; and this ought to attract the attention of Ontario farmers to a question of vital importance to the agricultural interests of the Province.

Blended flour is simply the best of Ontario's finely-flavored product to which a small proportion of Western wheat is added to bring up the percentage of gluten, for "strength." Freed from technicalities of chemistry and milling, it means both strength and flavor in the daily loaf. Viewed economically, it means an increased market for an Ontario-grown product which has won the unprejudiced favor of the East.

Whether this will prove true of Ontario, and whether such a demand will be created that the price of wheat will improve, and the cost of bran and shorts become lower, depends upon the individual farmer. Buying Western flour means a negative answer to the query; if, however, the Ontario farmer is alive to the situation, he cannot financially afford to neglect the latest discovery in practical economics and will insist on buying only the flour milled in Ontario.

\$100 Reward, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system thereby destroying the foundation of the disease, and giving the patient by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

The Future of Implements.

The rapid improvements being made in agricultural implements indicate that great changes are occurring in methods of farming. Gas and gasoline engines have enabled farmers to utilize power at the lowest cost, especially for such laborious work as shredding and preparing stock foods, or wherever such engines can be applied. The introduction of "auto" plows, harrows, cultivators, mowers and wagons will soon reduce the number of horses on farms, thus affecting a saving in the goods consumed, as well as reducing the space employed as a shelter and the investment of capital in farm buildings.

The farmer of the future will not be compelled to devote long hours and tedious labor to the various operations of farming. Even the dreaded process of milking by hand is about to be eliminated, the milking machine now being an actual reality, while the separation of the cream from the milk has long ago been accomplished by suitable appliances. Garden work has been reduced almost to a minimum by the combined seed drills, wheel hoes and cultivators. But for the assistance afforded the farmer by the improved implements and machinery in use at the present day this country with its large area and thousands of cultivated fields, could not supply its people with food, as human labor cannot be secured. The machine has driven the farm laborers to better methods of employment, and it is enabling the farmer to ride while he prepares his land, seeds down his crops, cultivates his soil, and harvests his products.

The improvements that have been made within the past ten years have been marvellous, and we may profitably meditate and conjecture regarding that which may happen in the future, but the farmer has ceased to be surprised at the lessening of his labor and the increase in yields of crops. The manufacturer of implements who prepares his plants with the newest machinery for turning out goods may witness his factory out of date in two or three years. Every season the farmer finds that he must buy something that he never saw before in order to keep up with his neighbors, and also because he must reduce the cost of production to the minimum. The manufacturer, with large investments, and hundreds of employes depending upon his operations, and who is prosperous today may tomorrow suspend work because of some invention against which he cannot complete, and which he knows will revolutionize his business, as well as perhaps change the present system of farming.—*Implement Age.*

WATERY BLOOD

Nerves are Weak
Face is Pallid
You Lack Strength
You Look Sickly.

Until You Ironize and Fortify the Blood There's No Hope of Cure.

Thousands of tired workers need the invigoration, the strength, the nerve-force which Ferrozone can supply.

Ferrozone imparts strength because it nourishes.

Ferrozone is able to nourish because it supplies to the blood the elements it lacks. Once the blood is vitalized, its tonic influence is circulated to every nook and corner of the body, carrying new life with it. Cases on record prove that Ferrozone builds up when else fails. Mr. Alonzo W. Douglas of Woodbridge, Ont., says: "I desire to state the results derived from the use of Ferrozone. Two years ago I was stricken with Pneumonia. So severe was the attack and so reduced was my strength that my life was despaired of. I had the very best medical attention, but made no progress towards recovery. When reduced to practically a skeleton, a kind friend told me of the remarkable powers of Ferrozone. An improvement began almost at once. I gained steadily in weight and strength until Ferrozone made me a new man. I will gladly answer inquiries from other sufferers if they care to have further particulars about my recovery. Ferrozone deserves its great measure of success."

When a man in Mr. Douglas' low condition can be quickly cured, aren't the chances good for you? Don't fail to try Ferrozone. Price 50c. per box at all dealers.

PLYMPTON COUNCIL.

Council met July 27th, as a Court of Revision on the Gillatly drain. Five appeals were on file. Three appellants were represented by R. T. Towers, of the law firm of Cowan & Towers, Sarnia. Evidence was taken for and against at considerable length and the Court adjourned until Aug. 3rd.

Some accounts were put through and council organized as a Court of Revision on the Hart drain. Three appellants and witnesses were heard and a number in defence, when this court also adjourned to Aug. 3rd. The following accounts were passed:—A. Evans, work on Robertson-Parker drain \$260.92; E. Welsh, rebates on Green drain \$38; J. Lucas, work on top portion Lucas ditch \$5.75; J. McKinley, rebates on Robertson-Parker drain \$47; D. M. Robertson, rebates on Robertson-Parker drain \$25; W. J. Gauld rebates on Robertson-Parker drain \$7; W. J. Gauld, commission on Robertson-Parker drain \$32.77; J. C. McNeil, work on Peacock drain \$40; Thos. Blunden and others Scott, Stewart and Hillsboro bridges \$17.15; Geo. Hammond, work on Rainey drain \$24; W. H. Scott, gravel supplied for top use \$4.80; J. Greer rep McPhedran drain \$12.75; W. Nell, 2 1/2 value of a sheep killed by dogs \$4.66; A. Evans, work on Chalmers' drain \$39.70; Dr. Brown, attendance on smallpox patients \$22.50; C. Nichol, advertising Keating and Tait drains \$1; John Byers work on Green drain \$95.20.

Council adjourned to meet Aug. 3rd, at 10 a.m., to consider the evidence on Gillatly and Hart drains and general business.

Easy to Retain Health.

Most important of all is proper attention to the bowels. Avoid constipation it's the health-killer of today. Harsh, griping medicine is ruinous—beware of it. Best results follow a truly vegetable remedy like Dr. Hamilton's Pills of Mandrake and Butternut which not only relieve constiveness in one night but cures the cause of the trouble and prevents its return. No distress or inconvenience attends the use of Dr. Hamilton's Pills which are world famous for their mildness and efficiency. Sold everywhere, 25c per box.

Here's Another.

His jag he wanted to weigh—
The jag was a good jag of weigh;
He weighed and sold it,
Since then, I've been told it,
He got a big jag on todeigh.

Use the safe, pleasant and effectual worm killer, Mother Graves' Worm Exterminator; nothing equals it. Procure a bottle and take it home.

You Men and Women who have Irritated Bladders try "Bu-Ju" on a Guarantee.

Doctors call it Cystitis. Whatever the name, it is due to weak Kidneys. The blood is bringing impurities to these organs faster than they can filter it out. This is often deposited in the Bladder; irritates the membrane so much that it cannot retain the urine. Instead of passing urine four or five times a day, it is passed twenty to thirty times. The urine is hot and scalding, and burns like fire.

My! what relief the first few "Bu-Ju" Pills give! They are like ice water to a parched throat. They neutralize uric acid, soothe the delicate lining of the bladder, and take away the burning pain. They strengthen the weakness—heal the Kidneys—stop that frequent desire to urinate, which is such an annoying feature of Cystitis. One man told us that "Bu-Ju" gave him the first uninterrupted night's sleep he had enjoyed in fifteen years.

Bu-Ju is sold by druggists all over Canada. If yours should not have them, send to us and we will see that you are promptly supplied. 50c. a Box, and your money refunded if they fail to cure.
