Potato Crop Insurance

It is estimated that 25 per cent. of the potato crop of Ontario, or approximately 5,000,000 bushels, is lost annually by the farmers of Ontario, due to attacks of the Late Blight and of the Colorado Potato Beetles. This loss can be prevented by spraying thoroughly at regular intervals with Bordeaux Mixture as a fungicide to prevent blight, and Paris Green or Arsenate of Lead as a poison to combat the beetles.

Late Blight is a fungus disease which is particularly noticeable on potatoes in late summer and is quite serious when the weather is all warm, moist and muggy. It is first noticeable in the form of dark colored spots on the leaves which soon begin to curl up and in some instances the diseased portion of leaves and stem emit a smell like that of bad fish. A careful examination of the under surface of the leaves where these brownish spots appear will reveal the presence of a grayish white "mould" or "mildew." The spores produced in these spots on the leaves are scattered by wind and water and are capable of infecting a healthy potato leaf and starting the disease afresh. If no spraying has been done and weather conditions are at all favorable, the spores thus produced rapidly infect the surrounding plants and the disease spreads most rapidly. The disease can be prevented by spraying thoroughly with Bordeaux Mixture. It is an insurance, in fact an investment worth while.

BORDEAUX MIXTURE

The Bordeaux Mixture for controlling Late Blight, also Early Blight, should be very carefully prepared and applied in a very thorough manner in order to be effective.

The formula is:—
4 lbs. Copper Sulphate (Bluestone)
4 lbs. Lime, freshly slaked
40 gals. water.

The Copper Sulphate and Lime should not be mixed in concentrated solutions as this lessens the value of the mixture and fungicide. Dissolve each separately and dilute by making up to 20 gals. with water before straining into the spray tank. Bordeaux should be used fresh, though stock solutions may be kept for an indefinite period. These stock solutions may be made as follows:—

Put 20 gallons of water in a barrel and suspend 20 lbs. of Bluestone in an old sack just below the surface of the water. The Bluestone will soon dissolve and each gallon of the solution will contain one pound of the Copper Sulphate. Slake 20 lbs. of lime—good burnt lime—and make

up to 20 gals. with water. To make the Bordeaux Mixture put 4 gallons from each of the stock solutions in separate vessels and dilute each to 20 gals. of water and mix together in the spray tank.

In order to control the Potato Beetles some poison may be used along with the Bordeaux Mixture. Add 1/2 pound of Paris Green and 1 1/2 pounds of Arsenate of Lead to 40 gallons of the mixture. This has proved a very effective remedy.

In order to do effective work all parts of the potato plants should be covered with a fine mist or spray. The plants should be sprayed about every two weeks. Carefulness and thoroughness pay, and pay well, while carelessness and poor work is simply energy and materials thrown away.

W. P. MACDONALD,
District Representative.

MAKE YOURSELF STRONG

People with strong constitutions escape most of the minor ills that make life miserable for others. Don't you envy the friend who does not know what a headache is, whose digestion is perfect, and who sleeps soundly at night? How far do you come from this description? Have you ever made an earnest effort to strengthen your constitution, to build up your system to ward off discomfort and disease? Unless you have an organic disease it is generally possible to so improve your physical condition that perfect health will be yours. The first thing to be done is to build up your blood as poor blood is the source of physical weakness. To build up the blood Dr. Williams' Pink Pills is just the medicine you need. Every dose helps to make new blood which reaches every nerve and every part of the body, bringing color to the cheeks, brightness to the eyes, a steadiness to the hands, a good appetite and splendid energy. Thousands throughout the country whose condition once made them despair, owe their present good health to this medicine. If you are one of the weak and ailing give Dr. Williams' Pink Pills a fair trial and note the daily gain in new health and abounding vitality.

You can get these pills through any medicine dealer or by mail post paid at 50 cents a box or six boxes for \$2.50 from The Dr. Williams Medicine Co., Brockville, Ont.

Oscar Plaxton, formerly of Strathroy, was drowned in Alberta last week.

Mrs. Angus Lott, who resides on the London road met with a painful accident. Mrs. Lott was preparing dinner, and on opening the oven door of the stove was met with a flame of fire, burning her face and hands. The burns while painful, will not cause any disfigurement.

A ZONE farmer recently sold a milk cow and two heifers to a Bothwell dealer for \$290. Five years ago a similar bunch would only be worth \$120. Such a decided increase seems a graft to the outsider, but considering the high cost of farm implements and everything pertaining to farm life the increase is necessary.

Eye Headaches Need Not Be

THERE is no need for anyone to suffer with headaches caused by strained vision. Our special lenses will cure and cure quickly. All you have guessed about your eyes may be wrong. Visit our optical department and have a thorough examination of your eyes. We can locate any existing eye trouble.
