"Yes," said the client, "but I furnished the case itself." "Bosh!" sneered the lawyer. "Anybody could fall down a coal hole."

Men's Underwear Sale at Swift's is going strong, plenty of large sizes still left.

What would become of a town that had no advertisers? In every town the men who advertise are the most progressive, in fact, if it were not for them there would be no town. They're the men who keep things moving and who make it possible for the less progressive fellow—the non-advertiser—to exist. Take a look over this newspaper and see for yourself if the men who advertise do not constitute a large proportion of those who are doing a lot to keep the town making progress.

Mention was inadvertently omitted last week of a tea given by the ladies of Trinity Church to Mrs. T. Dodds prior to her departure South. The affair was given in the basement of the church. A short program was given and Mrs. Newell, on behalf of the ladies, read an address to Mrs. Dodds who was presented with a handsome brooch. Mr. Fitzgerald has one of the most complete amateur wireless outfits west of Toronto. On Saturday evening several operatic selections were transmitted quite distinctly from Pittsburg and much enjoyed by the hearers in Watford.

On Wednesday evening, Jan. 11th, the congregation of the Watford Presbyterian church met in the schoolroom and enjoyed a social hour as they partook of the splendid supper provided by the Ladies' Aid of the church. In polling sub-division No. 2, Watford, there are over eighty voters on the list who are over sixty years of age, and possibly thirty of these are over seventy, some over 80 and even a few over 90. Before another election is held it would be advisable for the council to provide a ground floor polling booth instead of the room now used on the second floor of the fire hall. Some aged voters find the climbing of those steep stairs a difficulty (as they are not even furnished with a hand railing) and would refrain from voting rather than undertake the ascent. But perhaps the votes of these has-beens is not valued by the candidates.

## WATFORD'S NEW RINK

Watford's new skating arena is now in use and the finishing touches are being placed on the interior. It is a credit to the enterprise of the citizens of Watford and vicinity. The new rink is an up-to-the-minute equipment for the King of our Winter Sports and it gives the town the proud distinction of being one of the smallest places in Ontario possessing such a complete arena. This speaks volumes for the sportsmanship of the inhabitants of the town. The ice surface is regulation size 60x160 feet, and the building 80x180 feet, which allows ample room for office, seating and dressing rooms, the latter being roomy and complete. The ladies' gallery is a comfortable one and is situated above the dressing rooms. The management expect to conduct the rink in such a manner that skaters and lovers of hockey will find it an enjoyable place to spend afternoon or evening, and with co-operation on the part of patrons hope to make it a pleasant and well-conducted place of amusement and exercise. Arrangements have been made so that school children will receive encouragement to use the rink after school in the afternoon. The management should receive the warmest encouragement of the public for providing such a much needed place to indulge in our Winter sports.

The debentures, according to the by-law passed last fall, were to be issued at 6 1/2 per cent. but the money market has so improved in the past month that six per cent. debentures now bring par. The by-law will be amended and the rate of interest reduced on said debentures. This will effect a big saving each year to the town, and is a good stroke of business by the council.
