Common Sense in Temperance Reform.

An editorial in the September Century discusses The Temperance Outlook' with the following conclusions:

That the temperance question should be made a religible of the sense of be made a political question is most State. be made a political question is most desirable. No question more vitally concerns the whole country with revisible the whole country with revisible the made applicable to the made app spect to its highest welfare. We should this country, in a letter to the Lewist have temperance men in office and Journal gives the following description temperance laws enacted. But temperance must be temperance. It must be a sensible and practical scheme that support which shall bring about the desired reformation. although most people have probably supposed that it was long since set at rest. Not so very many years ago the danger of keeping such things in a bed room was a good deal poohpoohed by practical persons, who regarded the stories told in that connection as old women's tales, belonging to the same category as the myth about aleeping under the moon, or taking a siesta under a yew tree. But then there were published terrible accounts of fair taste as those sold in the grocer's hop. The following rhyme is easy to learn, and contains no dates.
