A CLEAN-UP IN PLAYER PIANOS

THE beauty of the Player-Piano is that anyone can play it. You do not need to know a note of music to be able to render the choicest musical selections, popular or classic.

The child can play it. The busy business man, wearied with the day's labors, will find recreation without effort in the use of this instrument.

We have on hand a number of Player Pianos, of best makers, that we will clear out at once at a large reduction from original price. Among them are a few slightly used instruments on which we'll make a big cut. You can make payments just about to suit your own convenience—say \$10.00 a month for a good Player Piano.

ACT QUICKLY—DO IT NOW
