HYLO made of any Base and Voltage

ECONOMY

With the HYLO "turn down" incandescent lamp—5/6 of your meter bill can be saved. . . .

The slightest turn of the lamp reduces the light from 16 or 8 candle power to 1 candle power, saving 5/6 of the current. The HYLO costs more than the ordinary lamp, but its long life (4,000 hours), brings the cost lower—and current saved is profit.

The HYLO is the most convenient light ever introduced—can be kept burning all the time and costs almost nothing.

A POST CARD WILL BRING FULL INFORMATION ABOUT THIS MARVELOUS LAMP.
