

**HEAD AND SHOULDERS**

above every other blood-purifier, stands Doctor Pierce's Golden Medical Discovery. See the evidence of it. It's sold in every case, on trial. If it ever fails to benefit or cure, you have your money back.

In restoring your strength, when you're "run-down" and "used-up;" in cleansing your blood from every impurity, whether it's a simple eruption or the worst scrofula; and in building up wholesome flesh, when you're thin and weak—there's nothing to equal the "Discovery." In every disease caused by a torpid liver or impure blood, it's the *only guaranteed* remedy.

Mrs. ELIZABETH J. BUSHAW, of Sidney, Ohio, writes: "My little boy was so afflicted with liver trouble and other diseases that our family physician said he could not live. In fact, they all thought so. I gave him Dr. Pierce's Golden Medical Discovery and Pellets and they saved his life. We have used the 'Discovery' for throat and bronchial trouble, and found such perfect relief that we can recommend it very highly."

Minard's Liniment cures LaGrippe.

There died last week in the little town of Union Springs in the southern part of Alabama, a man who figured in one of the most interesting events recorded in United States history—Col. John L. Branch. It was he who gave the order to fire the first gun of the late war at Fort Sumter, where he was stationed at the time.

Careful observers have noticed that a fish hawk, after securing its prey, will often rise very high in the air, drop the fish, quickly swoop down upon and seize it, and then fly homeward. The object of this, as explained by an old skipper in the lower Bay of New York, is to get the fish "head on," as a hawk will never fly with the tail of its prey foremost. So, if it has caught it that way, giving it a twirl, it drops it and seizes it again with the head pointing in the right direction. —*New York Sun.*

Rheumatism racks the system like a thumbscrew. It retreats before the power of Hood's Sarsaparilla, which purifies the blood.

The "foreign trade of Canada was \$245,694,000 in 1893, as compared with \$241,369,000 in 1892. The exports amounted to \$118,619,000, by far the greatest in the history of the Dominion."

Russia possesses so-called railway schools in which pupils "receive theoretical and practical instruction in all branches of railway work." There are twenty-eight such schools, "twenty-five of which are direct State institutions."

IMPORTANT TO WORKINGMEN.

Artizans, mechanics and laboring men are liable to sudden accidents and injuries, as well as painful cords, stiff joints and lameness. To all thus troubled we would recommend Haggard's Yellow Oil, the handy and reliable pain cure, for outward and internal use.

Among the guests at a recent diplomatic dinner, given by President Cleveland, were the Chinese Minister and his wife, the latter in court costume. She is the first Chinese woman who has ever broken bread in the White House.

A half a century is the rapidly approaching life record of that first of Canadian loan companies—the Canada Permanent Loan and Savings Company. Already the fortieth year of uninterrupted success has been attained. The annual report shows that the total receipts on mortgages and other securities for the past year amounted to \$2,748,195; the loans aggregated \$1,922,279, and the reserve fund amounts to \$1,450,000. This is indeed a satisfactory showing—a tribute to the great financial ability of the man at the helm, Mr. J. Herbert Mason, as well as to his shrewd and capable management, and the general efficiency of the Company's staff. It may be remarked that the losses of the year were small. No better type of a successful business concern exists in Canada than this trustworthy company.
