

ELECTRIC DAYLIGHT

WITH THE

Northern Electric

DAVIS

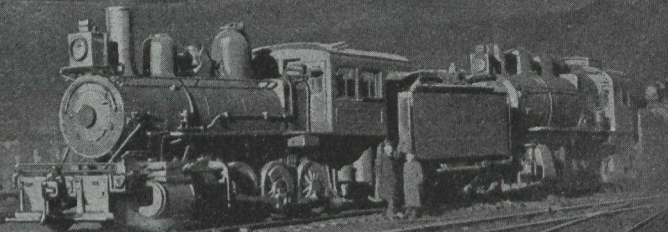

FLOOD LAMP

A portable,
bright, glareless
light that turns
night into day.

It can be diffused over large
areas or projected in a solid beam.

These Flood Lamps are ideal for lighting
railroad terminals—freight yards—round houses—
transfer yards and platforms—wrecking equipment
— wherever working light is needed.

The light that
lights Niagara

They can be used anywhere—no arc lamp trimming—no
moving parts—no permanent wiring.
Write for our folder and tell us your lighting problems.
