What you said about TCS International

Thanks to everyone who completed and returned the *TCS International* readership survey. You reiterated a lot of what was said in the employee survey last year: you want us to focus on tools and guidelines, recognize people in the field and tell you what's happening at headquarters.

Posters of Canadian paintings are going out around the globe to those who took the time to respond to the survey.

Here is how you rated our regular features:

- 1 - Best Practices**
